POMORON MJ012H

POMORON Air Purifier MJ012H User Manual

Model: MJ012H

1. INTRODUCTION

The POMORON Air Purifier MJ012H is designed to improve indoor air quality by filtering various airborne particles and odors. Its compact design and advanced filtration system make it suitable for various personal spaces.

The POMORON Air Purifier MJ012H, a compact white air purification device.

2. PRODUCT FEATURES

- **H13 True HEPA Air Filter:** Features a 3-layer filtration system (pre-filter, H13 HEPA filter, activated carbon filter) to capture 99.97% of airborne particles as small as 0.3 microns, including dust, pollen, pet dander, and odors.
- **Aromatherapy Box:** Allows for the addition of essential oils to enhance the atmosphere.
- **Whisper Quiet Sleep Mode:** Operates at 20dB to silently release fresh air, promoting better sleep.
- **3 Level Fan Speeds:** Adjustable fan settings to cater to different air quality needs.
- **6-12-24 Hours Timer:** Option to set automatic shutdown after a specified duration.
- **Compact Design:** Small footprint for easy placement in various environments.

Multi-Layered H13 True HEPA Filter

Effectively filter particles as small as 0.3 microns including pollen, pet dander, allergies, dust, odors, smoke

Activated Carbon Layer

Keep You Away from Pollution & Allergens

Significantly reduce airborne allergens including pet dander, pollen, dust

The air purifier helps reduce airborne allergens like pet dander, pollen, and dust, creating a fresher environment.

3. SETUP

3.1 Filter Installation

Before first use, ensure the filter is properly installed and any protective packaging is removed. The filter is located at the bottom of the unit.

1. Turn the air purifier upside down.
2. Twist the bottom cover counter-clockwise to unlock and remove it.
3. Remove the filter from its plastic packaging.
4. Insert the filter back into the unit.
5. Replace the bottom cover and twist clockwise to lock it securely.

3.2 Power Connection

Connect the provided USB-C cable to the port on the back of the air purifier and plug the USB-A end into a

compatible wall adapter or power source.

An overview of the POMORON MJ012H Air Purifier, demonstrating its features and compact design.

4. OPERATING INSTRUCTIONS

4.1 Power On/Off

Gently touch the power button on the top panel to turn the unit on or off. The blue light ring will illuminate when the unit is active.

4.2 Fan Speed Adjustment

The air purifier offers three fan speed settings: Low, Medium, and High. Press the fan speed button to cycle through these options.

4.3 Sleep Mode

Activate sleep mode for quiet operation (20dB). In this mode, the fan speed is reduced, and the blue light can be dimmed or turned off for an undisturbed environment.

The air purifier features a 20dB sleep mode for quiet operation, designed to improve sleep quality with a soothing blue night light.

4.4 Timer Settings

Use the timer function to set the air purifier to automatically shut off after 6, 12, or 24 hours. Press the timer button to select the desired duration.

4.5 Aromatherapy Function

To use the aromatherapy feature, locate the fragrance sponge compartment on the top of the unit. Add a few drops of your preferred essential oil to the sponge and close the compartment. The fan will then diffuse the aroma into the air.

Refresh The Air, Refresh Your Mind

Relax and detress with your favorite fragrance.

The aromatherapy box allows users to add essential oils to enhance the atmosphere with their favorite fragrances.

5. MAINTENANCE

5.1 Filter Replacement

The air filter should be replaced regularly to maintain optimal performance. The frequency of replacement depends on usage and air quality. Always use genuine POMORON replacement filters for best efficiency.

1. Turn off and unplug the air purifier.
2. Turn the unit upside down.
3. Twist the bottom cover counter-clockwise to unlock and remove it.
4. Remove the old filter.
5. Insert a new genuine POMORON filter (ensure plastic packaging is removed).
6. Replace the bottom cover and twist clockwise to lock it securely.
