Tatybo XW1 Wired Gaming Headset User Manual

Model: XW1 | Brand: Tatybo

INTRODUCTION

This manual provides essential information for the setup, operation, and maintenance of your Tatybo XW1 Wired Gaming Headset. Designed for immersive gaming, this headset features stereo surround sound, a noise-canceling microphone, and RGB lighting. It is compatible with multiple gaming platforms including PS4, PS5, Switch, PC, and Xbox.

The Tatybo XW1 Wired Gaming Headset features a sleek design with purple earcups and integrated RGB lighting on the earcups.

WHAT'S IN THE BOX

Please check the package contents to ensure all items are present:

- Tatybo XW1 Gaming Headset
- User Manual (this document)
- USB Extension Cable
- 1 to 2 Y Splitter 3.5mm

SETUP INSTRUCTIONS

1. **Connect to Gaming Console (PS4, PS5, Switch, Xbox):**

Plug the 3.5mm audio jack of the headset directly into the controller's 3.5mm port. For Nintendo Switch, plug directly into the console's 3.5mm port. The USB connection is optional for RGB lighting on consoles.

2. **Connect to PC:**

If your PC has separate audio and microphone jacks (typically green and pink), use the included 1 to 2 Y Splitter 3.5mm cable. Connect the headset's 3.5mm jack to the splitter, then plug the splitter's green plug into your PC's audio output and the pink plug into your PC's microphone input. For RGB lighting, connect the USB plug to an available USB port on your PC using the USB extension cable if needed.

3. **Connect to Mobile Devices:**

Plug the 3.5mm audio jack directly into your mobile device's 3.5mm port. The USB connection is not typically used for mobile devices.

4. **Adjust Headset Fit:**

Gently extend or retract the adjustable headband to achieve a comfortable fit over your head. The memory protein earcups should fully cover your ears for optimal sound isolation and comfort.

OPERATING THE HEADSET

- **Volume Control:** The headset features an in-line volume control wheel on the cable. Rotate the wheel up or down to adjust the audio volume.
- **Microphone Usage:** The flexible, omni-directional microphone can be positioned closer to your mouth for clear communication. An in-line switch allows you to mute or unmute the microphone. A small LED indicator on the microphone tip may show its status (e.g., green for active, red for muted).
- **RGB Lighting:** The RGB lights on the earcups are powered via the USB connection. Once connected, the lights will cycle through various colors automatically. There are no adjustable settings for the RGB lighting patterns or colors.

Omni-directional Noise Cancelling Mic

TROUBLESHOOTING

- **No Sound / Low Volume:**

- Ensure the 3.5mm jack is fully inserted into the device.
- Check the in-line volume control wheel and adjust it to an audible level.
- Verify your device's audio settings (e.g., system volume, game volume) are not muted or set too low.
- If using a PC, ensure the correct audio output device is selected in your sound settings.

- **Microphone Not Working:**

- Ensure the in-line microphone mute switch is in the 'unmuted' position.
- If using a PC, ensure the 1 to 2 Y Splitter is correctly connected and the microphone input device is selected in your sound settings.
- Check your game or chat application settings to ensure the correct microphone is selected and not muted within the application.

- **RGB Lights Not On:**

- Ensure the USB cable is securely connected to a powered USB port on your device (PC, console, or a USB power adapter). The RGB lights require a USB power source to function.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to wipe down the headset. For earcups, a slightly damp cloth can be used, but avoid excessive moisture. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures. Avoid placing heavy objects on top of the headset.
- **Cable Care:** Avoid sharp bends or excessive pulling on the cables to prevent damage.
