5. Maintenance and Care

Proper care will extend the life and appearance of your futon sofa bed.

- **Cleaning:** For general cleaning, wipe the velvet fabric with a soft brush to remove dust and debris. For spills or stains, spot clean immediately with a mild detergent and water. Avoid harsh chemicals or abrasive cleaners.
- **Cushion Care:** The seat cushion and backrest are filled with memory foam and support foam. After being compressed during shipping, they will naturally rebound and fully form after approximately 48 hours.

- **Frame Care:** The solid wood legs and frame can be wiped clean with a damp cloth.

6. Troubleshooting

If you encounter any issues with your futon sofa bed, please refer to the following common solutions:

- **Cushions not fully expanded:** Allow up to 48 hours for the memory foam and support foam cushions to fully rebound after unpacking. Gentle patting can help accelerate the process.
- **Difficulty converting:** Ensure no obstructions are present around or under the sofa. Check that all parts are aligned correctly. Do not force the mechanism; if resistance is met, re-check alignment.
- **Wobbling:** Verify that all assembly bolts and screws are securely tightened. Check that the sofa is placed on a flat, even surface.
