## YASONIC YS-K-421

# YASONIC Shower Caddy (Model YS-K-421) Instruction Manual

Your guide to efficient and rust-proof bathroom organization.

## 1. INTRODUCTION

---

Thank you for choosing the YASONIC Shower Caddy. This 6-piece set is designed to provide robust and rust-proof storage solutions for your bathroom, kitchen, or RV. Featuring a no-drilling installation and strong adhesive pads, it offers a convenient way to organize your essentials.

## 2. PACKAGE CONTENTS

---

Please verify that all components are present in your package:

- 3 x Large Capacity Caddies
- 1 x Toothbrush Holder
- 1 x Shower Soap Holder
- 6 x Adhesive Tapes
- 2 x Small Hooks
- 1 x Row of Hooks

### 3. SETUP AND INSTALLATION

The YASONIC Shower Caddy features a zero-damage, no-drilling installation process. Follow these steps for secure mounting:

#### 3.1. Surface Preparation

Ensure the installation surface is suitable and properly prepared for optimal adhesion.

- **Suitable Surfaces:** Smooth Tiles, Smooth Marble, Tempered Glass, Smooth Wooden Wall, Smooth Quartz, Smooth Solid Metal.
- **Unsuitable Surfaces:** Rough Surface, Painted Wall, Wallpaper Wall, Lime Wall, Mosaic, Fiberglass.

Clean the chosen surface thoroughly with a cloth and ensure it is completely dry. Do not apply alcohol, as it may react with the adhesive.

## Straight edge adhesive tape

Image: Visual guide indicating various wall types suitable and unsuitable for the adhesive pads.

### 3.2. Installation Steps (4 Steps)

1. **Clean the Surface:** As described above, ensure the wall is clean and dry.
2. **Tear off Protective Cover:** Carefully peel the protective film from the adhesive tape.
3. **Press the Hook to Release Air:** Place the adhesive on the wall, ensuring the hooks are parallel to the ground. Press firmly from the middle to the edges to remove any air bubbles.
4. **Hang the Shower Caddy:** After 24 hours, hang the shower caddy onto the installed adhesive hooks. It is recommended to wait 24 hours before placing items on the caddy to allow the adhesive to fully cure.

## 4. OPERATING INSTRUCTIONS

---

The YASONIC Shower Caddy is designed for versatile use and can hold a variety of items:

- Place large shampoo, conditioner, and body wash bottles in the main caddies.
- Use the toothbrush holder for toothbrushes, toothpaste, and other small toiletries.
- The soap holder is ideal for bar soap.
- Utilize the included small hooks and the row of hooks for hanging loofahs, razors, washcloths, brushes, and other accessories.

## 5. MAINTENANCE

To ensure the longevity and appearance of your YASONIC Shower Caddy:

- **Cleaning:** Wipe down the caddies regularly with a soft cloth and mild cleaner. Avoid abrasive materials that could damage the finish.
- **Drying:** Keep shelves and bathroom necessities dry to prevent water damage or slippery surfaces. The open wire design promotes air circulation for quick drying.
- **Rust-Proof:** Made from 304 Grade Stainless Steel with a 5-Layer rustproof armor coating, the caddy is designed for durability and resistance to rust.

# Heavy Duty

Wider bottom for more stability

## 6. TROUBLESHOOTING

If you encounter issues with your shower caddy, consider the following:

- **Adhesive Not Sticking:** Ensure the surface was clean, dry, and suitable (not rough or painted) before application. Press firmly to remove all air bubbles. Allow 24 hours for the adhesive to cure before loading.
- **Removing Shelves:** If you need to move the shelves, use a hairdryer to heat around the adhesive hooks for a few minutes. This will loosen the adhesive, making it easier to remove without damage.
- **Replacement Adhesives:** The adhesive is not reusable. If you need to change the installation position or move the shelves, replacement adhesive pads are available.
