# LUMI Ultra Soft Bathroom Rug Instruction Manual

Model: BXD24BN1730B

## INTRODUCTION

---

Thank you for choosing the LUMI Ultra Soft Bathroom Rug. This manual provides essential information for the proper use, care, and maintenance of your new bath mat. Designed for comfort and safety, this microfiber rug offers superior absorbency and a non-slip backing, making it an ideal addition to your home.

## PRODUCT FEATURES

---

- **Non-Slip Safety:** Features durable TPR backing for a firm grip, reducing slips and falls.
- **Ultra Soft & Plush:** Densely woven, ultra-plush microfiber provides cloud-like comfort.
- **Absorbent:** Made from ultra-absorbent microfiber that quickly soaks up moisture.
- **Easy to Clean:** Machine-washable for effortless upkeep, retaining softness and absorbency.
- **Versatile & Stylish:** Available in multiple sizes and colors, suitable for various rooms.

## SETUP AND PLACEMENT

---

To ensure optimal performance and safety, place the LUMI Ultra Soft Bathroom Rug on a clean, dry floor surface. The non-slip TPR backing is designed to keep the mat securely in place.

## MAINTENANCE

Proper care will extend the life and maintain the quality of your LUMI Ultra Soft Bathroom Rug.

### Cleaning Instructions:

- **Machine Wash:** Use cold water and a gentle cycle. For best results, place the mat in a laundry bag.
- **Detergent:** Do not use bleach or strong acidic/alkaline detergents.
- **Drying:** Air dry or tumble dry on low heat to avoid deformation. Allow the rug to dry thoroughly after washing to prevent mold growth.
- **Do Not:** Do not dry clean, do not iron.

### General Advice:

- Shake off debris before washing.
- Proper ventilation ensures lasting freshness.
- Use caution when the rug is wet.

### TROUBLESHOOTING

The LUMI Ultra Soft Bathroom Rug is designed for durability and performance. Should you encounter any issues, consider the following:

- **Slipping:** Ensure the floor surface is completely dry before placing the rug. The TPR backing requires a dry surface to maintain its non-slip properties.
- **Reduced Absorbency:** If the rug's absorbency seems to decrease, it may be due to detergent residue. Ensure thorough rinsing during washing and avoid using fabric softeners, which can coat fibers.
- **Shedding:** Minimal shedding may occur initially, which is normal for new microfiber products. This should decrease after a few washes. Excessive shedding may indicate improper washing or drying.

- **Odor:** If an odor develops, ensure the rug is completely dry after each use and wash it according to the care instructions. Proper ventilation in the bathroom is also crucial.
