Chongker Companion Ragdoll Cat Instruction Manual

Model: BPAI-B1002-T-1

INTRODUCTION

Thank you for choosing the Chongker Companion Ragdoll Cat. This interactive plush toy is designed to provide comfort and companionship with its realistic features, including purring, meowing, and a simulated heartbeat. This manual provides essential information for the safe and optimal use of your new companion.

SAFETY INFORMATION

Please read and adhere to the following safety guidelines to ensure the longevity of your product and the safety of its users.

- **Avoid High-Temperature Environments:** Keep the toy away from extreme heat conditions such as direct sunlight or proximity to heating appliances. High temperatures can lead to overheating or fire hazards in the lithium battery.
- **Fire Safety Alert:** Please keep the toy away from flammable materials and objects. When not in use, remember to turn off the power switch promptly to reduce the risk of fire.
- **Handle with Care to Prevent Falls:** Avoid dropping the toy on hard surfaces, especially the part containing the lithium battery. Drops can cause battery damage or internal malfunctions.
- **Supervision of Children:** The use of the toy should be supervised by an adult, especially for younger children. Ensure that children understand how to play safely and supervise their activities at all times.

WHAT'S IN THE BOX

Upon opening your package, please verify that all the following items are included:

- Stuffed Animal (Chongker Companion Ragdoll Cat)
- Gift box
- Comb

SETUP

Your Chongker Companion Ragdoll Cat is equipped with a rechargeable lithium-ion battery. Follow these steps for initial setup and charging.

1. **Locate the Charging Port:** The charging port is typically located in the hind paw or on the side of the cat's body. Gently part the fur to find the port.
2. **Connect Charger:** Use the provided USB-C charger to connect the cat to a power source.
3. **Initial Charge:** For first-time use, fully charge the cat. A charging indicator light may or may not be visible depending on the specific unit.
4. **Power On:** Once charged, locate the power switch. This is often part of a 3-button panel on the torso or activated by pressing a button on a paw.

Your browser does not support the video tag.

OPERATING INSTRUCTIONS

Your Chongker Companion Ragdoll Cat is designed for interactive companionship.

Basic Interactions:

- **Purring and Vibrations:** Gently pet the cat's back or chest to activate its purring mechanism and subtle vibrations, mimicking a real cat's comfort.
- **Meowing Sounds:** The cat will respond with meowing sounds when petted, enhancing its lifelike interaction.
- **Heartbeat Sensation:** Touch the cat's chest for approximately 2 seconds to feel a simulated heartbeat, adding to its realistic feel.

Control Panel (if applicable):

Some models feature a 3-button control panel, often located on the torso.

- **Button 1 (Middle Toe of Paw or Torso Button):** Long press for 2 seconds to turn the cat on or off. A short press may switch between voice/mute modes.
- **Button 2 (Paw or Torso Button):** Adjusts the volume (typically 3-5 levels).
- **Voice Activation:** Certain models may respond to voice commands. Refer to specific product documentation for details on voice-activated features.

MAINTENANCE

To keep your Chongker Companion Ragdoll Cat in excellent condition, follow these maintenance tips:

- **Cleaning:** Surface clean only. Use a soft, damp cloth with mild soap to gently wipe soiled areas. Do not immerse

the toy in water.

- **Grooming:** Use the included comb to gently brush the fur, maintaining its softness and appearance.
- **Storage:** When not in use, store the cat in a cool, dry place away from direct sunlight and extreme temperatures. Ensure the power is switched off.

TROUBLESHOOTING

If you encounter any issues with your Chongker Companion Ragdoll Cat, please refer to the following common solutions:

Problem	Possible Cause	Solution
Cat does not respond/turn on.	Low battery or power switch off.	Ensure the cat is fully charged. Verify the power switch is in the "on" position.
No purring/meowing when petted.	Sensors not activated or in mute mode.	Ensure you are petting the correct areas (back, chest). If applicable, check the control panel to ensure it's not in mute mode.
Heartbeat not felt.	Incorrect activation or internal issue.	Press the chest area for at least 2 seconds. If the issue persists after charging, contact customer support.
Charging light not visible.	Some models do not have a visible charging indicator.	This is normal for some units. Allow sufficient charging time (e.g., 2-3 hours) for a full charge.

SPECIFICATIONS

Feature	Detail
