Donner DP-10

Donner DP-10 Foldable Piano Keyboard User Manual

Model: DP-10

INTRODUCTION

Thank you for choosing the Donner DP-10 Foldable Piano Keyboard. This 88-key digital piano is designed for portability and versatility, offering a full-size playing experience with advanced features. This manual provides essential information for safe and effective use, including setup, operation, maintenance, and troubleshooting.

SAFETY INFORMATION

- Read all instructions before using the product.
- Keep the product away from water, heat sources, and direct sunlight.
- Do not attempt to disassemble or modify the product. Refer all servicing to qualified personnel.
- Use only the power adapter supplied with the product.
- Ensure proper ventilation around the instrument.
- Keep out of reach of small children to prevent choking hazards from small parts.

PACKAGE CONTENTS

Please check that all items listed below are included in your package:

- Donner DP-10 Foldable Piano Keyboard (88 Keys)
- Adjustable Z-Style Piano Stand (DKS-100)
- Power Adapter
- Sustain Pedal
- Music Rest
- Carrying Bag
- User Manual (this document)

SETUP

1. Assembling the Z-Style Piano Stand (DKS-100)

1. Unfold the Z-style stand legs. The stand is designed for convenient folding and storage.
2. Adjust the width of the stand to accommodate your DP-10 keyboard. The stand has 7 adjustable gears, suitable for keyboards from 37 to 88 keys.
3. Adjust the height of the stand to your preferred playing position (sitting or standing). The height adjustment range is 56.5cm-86.4cm (22.2"-34").
4. Ensure the stand is stable and all locking mechanisms are secure before placing the keyboard on it. The thickened

iron pipe design provides strong stability and ample legroom.

Keyboard Stand

INTEGRATED INSTALLATION AND FOLDING

The folding design is adopted to reduce the storage space to a greater extent, and the narrowest width is 350mm

CONVENIENT
FOLDING

EASY
STORAGE

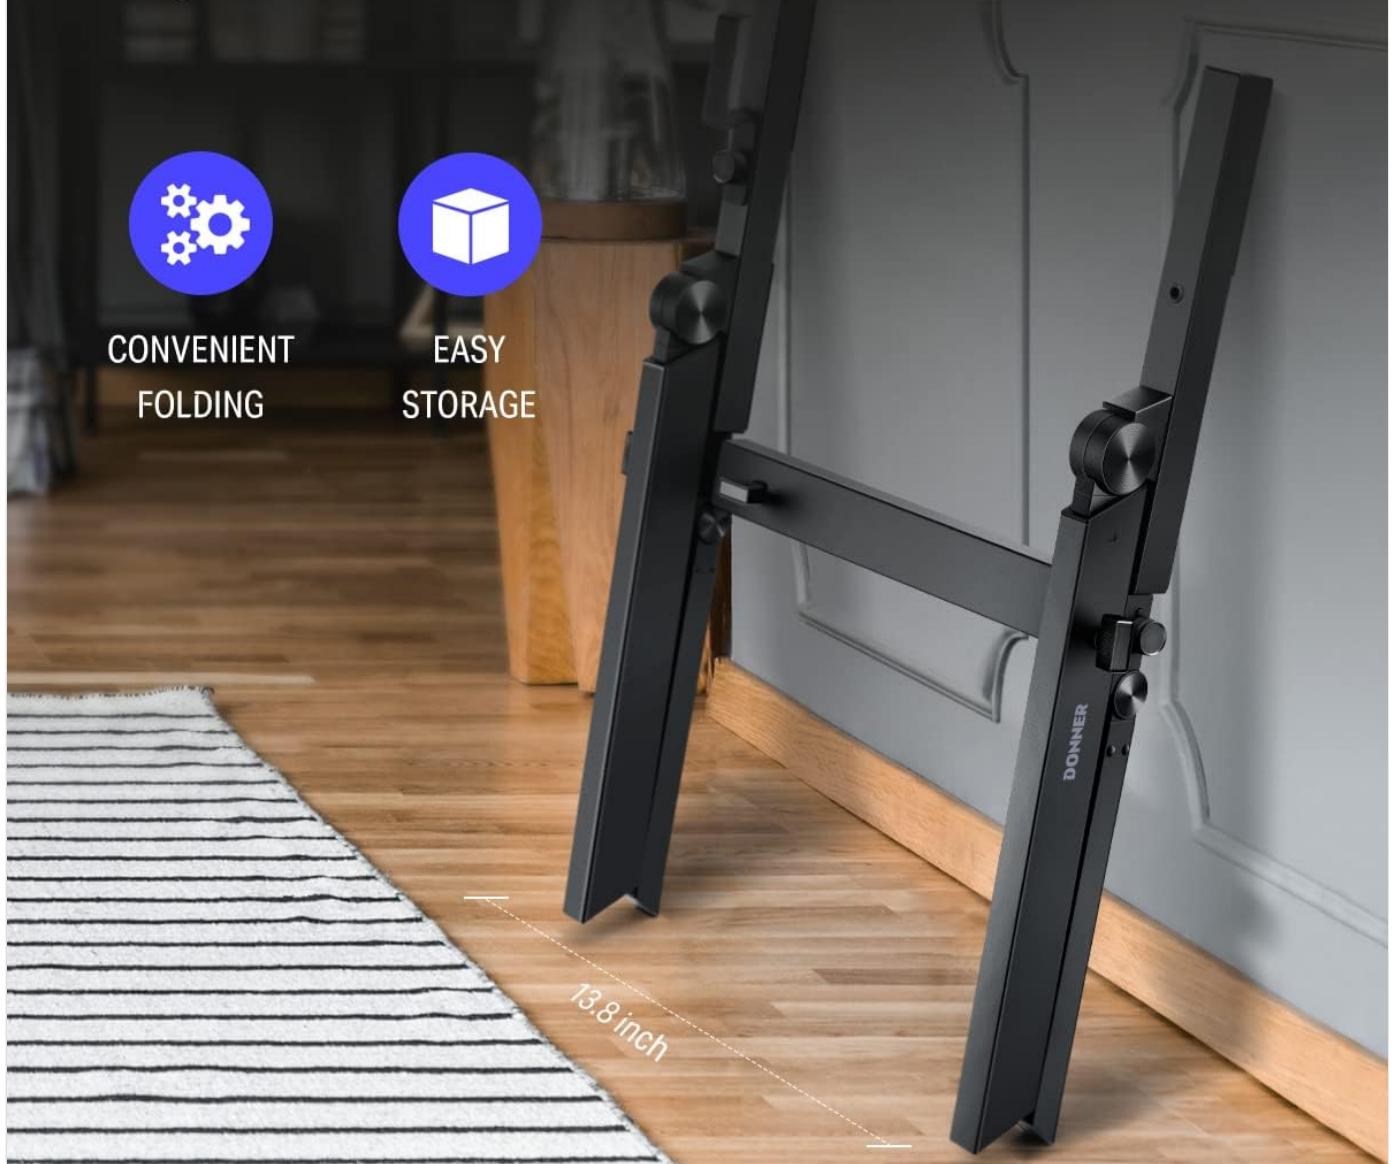

Image: The Z-style piano stand demonstrating its integrated folding design, highlighting its convenience for storage and portability. The narrowest width when folded is 350mm.

STRONG STABILITY

The iron pipe with thickened diameter is not easy to deform and damage. When the use is strong, there will be no shaking, and there is more room for leg extension

MORE LEGROOM

More structurally sound to give you enough leg room

Image: The Z-style piano stand showcasing its strong stability with a thickened diameter iron pipe, ensuring no shaking during use and providing more legroom.

LARGE ADJUSTMENT RANGE

Suitable for keyboard products with
54 Key - 88 key length.

MINIMUM SIZE

MEDIUM SIZE

MAXIMUM SIZE

Image: The Z-style piano stand illustrating its large adjustment range for width and height, suitable for keyboards from 54 to 88 keys, with examples of minimum, medium, and maximum sizes.

2. Setting up the DP-10 Keyboard

1. Unfold the DP-10 keyboard. It features an ultra-portable folding design.
2. Place the unfolded keyboard securely on the assembled Z-style stand.
3. Connect the power adapter to the DC IN port on the keyboard and plug it into a power outlet.

4. Connect the sustain pedal to the designated pedal input.
5. Attach the music rest to the top of the keyboard if desired.

88 Full Size Velocity Sensitive Keys

88 KEYS

full-size touch response,
much similar to real piano

MAINTENANCE

- Clean the keyboard and stand with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- Avoid exposing the instrument to extreme temperatures or humidity.

- When not in use, store the keyboard in its carrying bag to protect it from dust and damage.
- Regularly check all connections and cables for wear and tear.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound from the keyboard.	Volume too low; headphones connected; power issue.	Increase volume; disconnect headphones; ensure power adapter is connected and unit is charged.
Keyboard not connecting via Bluetooth/USB-MIDI.	Bluetooth not enabled; incorrect cable; driver issue (for USB-MIDI).	Ensure Bluetooth is on and paired; use correct Type-C USB cable; check computer's device manager for drivers.
Keys not responding or inconsistent touch.	Dust or debris under keys; internal issue.	Gently clean around keys; if problem persists, contact customer support.
Stand is wobbly.	Legs not fully extended or locked; uneven surface.	Ensure all stand adjustments are locked; place on a flat, stable surface.

SPECIFICATIONS
