- **Load Capacity:** Do not exceed the maximum load capacity specified for individual shelves or the unit as a whole (refer to product packaging for specific weight limits). Overloading can compromise stability and cause damage.
- **Stability:** Always ensure the unit is stable and does not wobble. If it does, re-check assembly and ensure it is on a level surface. Wall anchoring is highly recommended.
- **Child Safety:** Keep heavy or unstable items on lower shelves. Do not allow children to climb on the unit.
