

PAX 200x236 cm

# PAX Sliding Door Frame and Rail System User Manual

Model: PAX 200x236 cm

## 1. INTRODUCTION

---

This manual provides essential information for the safe and proper installation, operation, and maintenance of your Generic PAX sliding door frame and rail system. Please read this manual thoroughly before beginning assembly or use.

The PAX sliding door frame and rail system is designed to provide a durable and functional solution for your wardrobe or storage needs. It features a robust aluminium construction and is designed for smooth operation.

**Key Feature: This product comes with a 10-year guarantee. Please refer to the separate guarantee brochure for full terms and conditions.**

## 2. SAFETY INFORMATION

---

**WARNING: Failure to follow these safety instructions could result in injury or damage to the product.**

- Always wear appropriate personal protective equipment (PPE) such as gloves and safety glasses during assembly.
- Ensure the installation area is clear and well-lit.
- Handle all components with care, especially long or heavy parts, to prevent injury. It is recommended to have at least two people for assembly.
- Verify that the wall or ceiling structure where the rail system will be mounted can support the weight of the door frames and any attached doors.
- Keep small parts and packaging materials away from children to prevent choking hazards.
- Do not modify the product in any way not described in this manual.

## 3. COMPONENTS LIST

---

Before beginning assembly, ensure all parts are present and undamaged. Refer to the packaging for a detailed list of included hardware. Typical components include:

- Aluminium door frames (multiple sections)
- Top and bottom rail sections
- Mounting brackets and screws
- Rollers/glides for sliding mechanism
- Assembly hardware (bolts, nuts, washers, etc.)

If any parts are missing or damaged, please contact customer support before proceeding with assembly.

## 4. SETUP AND INSTALLATION

---

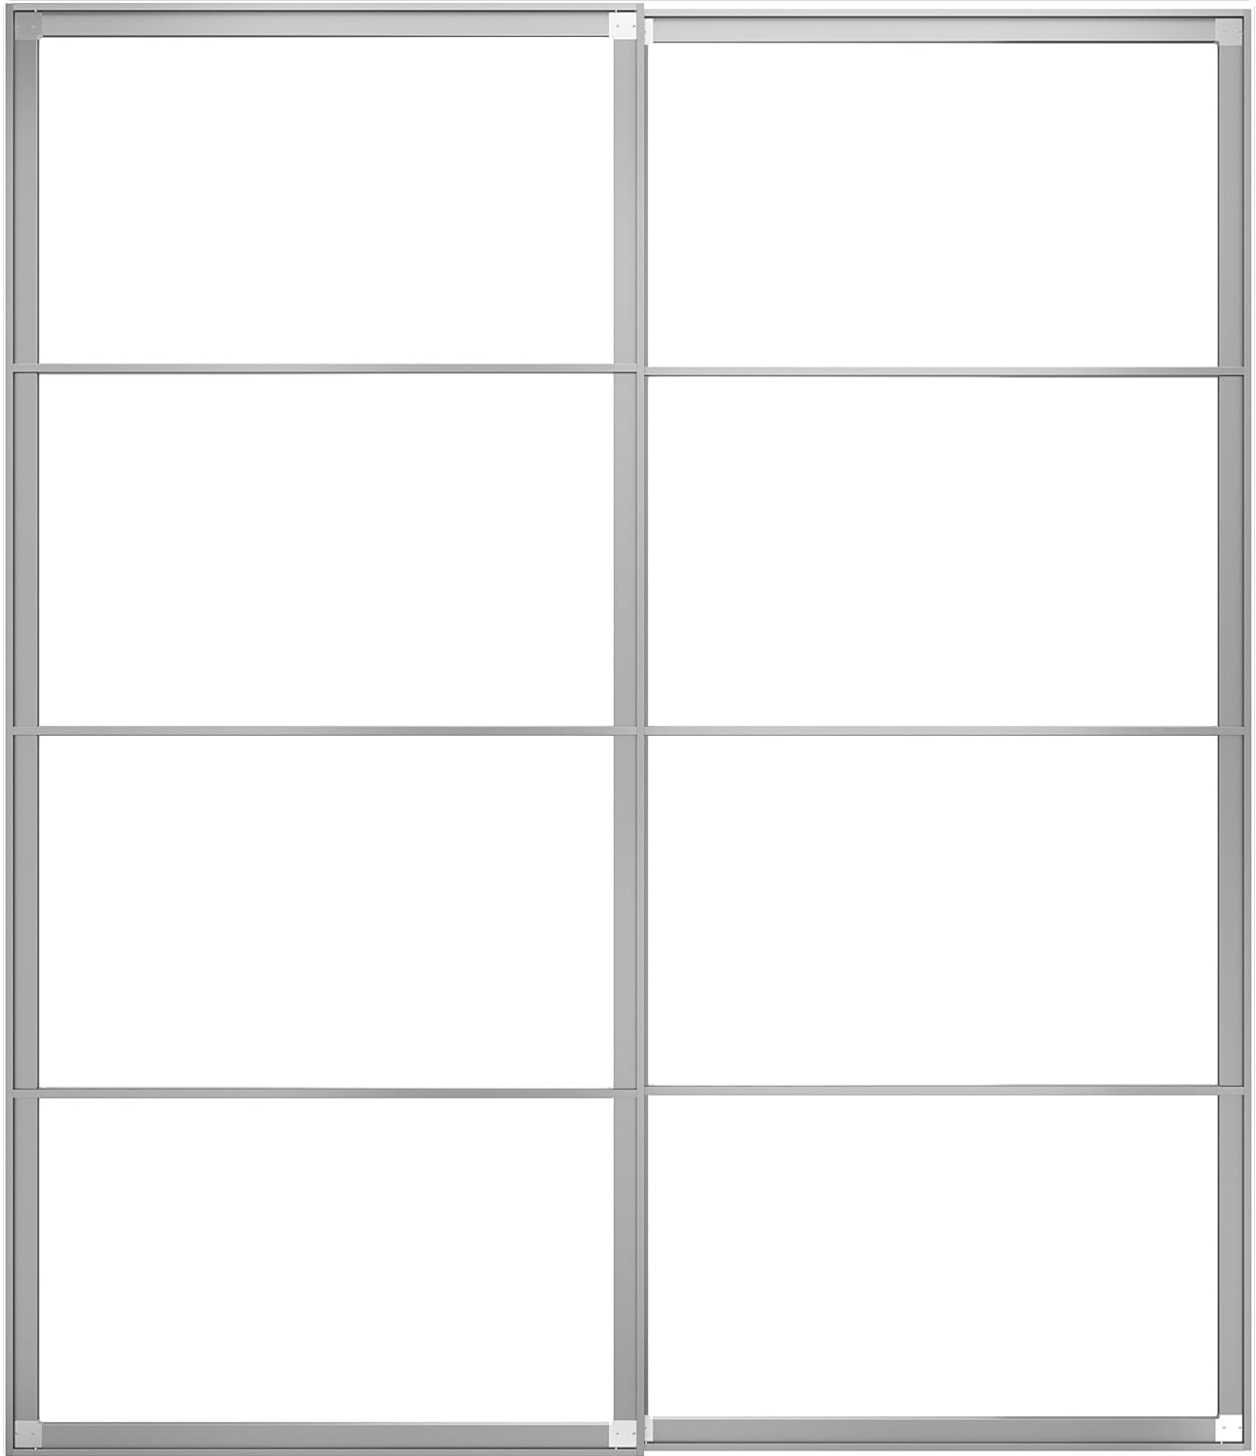

This section outlines the general steps for installing your PAX sliding door frame and rail system. Specific details may vary; always refer to the detailed assembly instructions provided with your product packaging.

### 4.1. Preparation

1. Unpack all components and lay them out on a clean, flat, and protected surface.
2. Identify all parts using the components list.
3. Gather necessary tools, which typically include a drill, screwdriver, level, measuring tape, and pencil.

### 4.2. Assembly Steps

1. **Assemble Door Frames:** Connect the individual aluminium frame sections according to the instructions, ensuring all joints are secure.
2. **Install Top Rail:** Measure and mark the position for the top rail. Ensure it is perfectly level. Secure the top rail to the ceiling or top panel of your wardrobe system using appropriate fasteners.
3. **Install Bottom Rail:** Position the bottom rail directly below the top rail, ensuring it is parallel and level. Secure it to the floor or bottom panel.
4. **Attach Rollers/Glides:** Install the rollers or glides onto the top and bottom of the assembled door frames as indicated in the instructions.
5. **Hang Doors:** Carefully lift and insert the door frames into the top rail, then guide the bottom rollers into the bottom rail. Adjust as necessary for smooth operation.

*Figure 4.2.1: An illustration of the assembled PAX sliding door frame and rail system. The image displays two large sliding door panels, each composed of four rectangular sections defined by a grid of aluminium frames. This visual represents the final appearance of the installed door frames.*

## 5. OPERATING INSTRUCTIONS

---

Once installed, the PAX sliding door frames are designed for smooth and quiet operation. To open or close the doors, gently push or pull the door panel along the rail. Avoid forcing the doors if they encounter resistance. Ensure that no objects obstruct the path of the sliding doors on the top or bottom rails. Periodically check the rails for debris that might hinder smooth movement.

## 6. CARE AND MAINTENANCE

---

Regular maintenance will ensure the longevity and smooth operation of your sliding door system.

- **Cleaning:** Wipe the aluminium frames and rails with a soft, damp cloth. For stubborn marks, use a mild, non-abrasive cleaner. Avoid harsh chemicals or abrasive materials that could damage the finish.
- **Rail Inspection:** Periodically inspect the top and bottom rails for any accumulation of dust, dirt, or debris. Clean the rails thoroughly to ensure smooth gliding. A vacuum cleaner with a brush attachment can be useful.
- **Roller Check:** Check the rollers or glides for wear or damage. If the doors become difficult to slide, the rollers may need cleaning or replacement.
- **Hardware Tightness:** Occasionally check all screws and fasteners to ensure they remain tight. Retighten if necessary, but do not overtighten.

## 7. TROUBLESHOOTING

---

If you encounter issues with your sliding door system, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Doors are difficult to slide or stick.	Debris in rails, worn rollers, misaligned rails.	Clean rails thoroughly. Inspect and replace worn rollers. Check rail alignment with a level and adjust if possible.
Doors wobble or are unstable.	Loose hardware, incorrect installation.	Check and tighten all assembly screws. Review installation steps to ensure correct assembly.
Gap between door and frame/wall.	Rails not level or parallel, frame not square.	Re-check rail alignment and level. Adjust frame components if possible.

If the problem persists after attempting these solutions, please contact customer support.

## 8. SPECIFICATIONS

---

Attribute	Value
Product Name	PAX pair of sliding door frames w rail
Model	PAX 200x236 cm
Brand	Generic
System Width	200 cm
System Height	236 cm
Built-in Depth	8 cm
Material	Aluminium
ASIN	B0D1CPRDBF
Date First Available	December 19, 2023

## 9. WARRANTY INFORMATION

---

This Generic PAX sliding door frame and rail system is covered by a **10-year guarantee**. This guarantee covers defects in materials and workmanship under normal use and maintenance.

For complete details regarding the terms, conditions, and limitations of this guarantee, please refer to the separate guarantee brochure that accompanied your product. Keep your proof of purchase for warranty claims.

## 10. CUSTOMER SUPPORT

---

If you have any questions about the assembly, operation, maintenance, or warranty of your PAX sliding door frame and rail system, please contact the seller or manufacturer directly.

When contacting support, please have your product model (PAX 200x236 cm) and ASIN (B0D1CPRDBF) ready to assist with faster service.
