OPERATING INSTRUCTIONS

On-Screen Display (OSD) Navigation

The monitor's settings can be adjusted using the joystick button located on the rear of the monitor. Press the joystick to open the OSD menu, then navigate through options by moving the joystick up, down, left, or right. Press again to select.

Picture-in-Picture (PIP) and Picture-by-Picture (PBP)

The ViewFinity S7 supports PIP and PBP modes, allowing you to display content from two different sources simultaneously. This feature is ideal for multitasking, enabling you to view your main work alongside a secondary input like a tablet or another computer.

- **PIP Mode:** Displays a smaller window of the secondary input over the main screen.

- **PBP Mode:** Divides the screen into two or more sections, each displaying a different input source side-by-side.

MAINTENANCE

Cleaning the Monitor

To clean the monitor screen, gently wipe it with a soft, lint-free cloth. For stubborn marks, slightly dampen the cloth with water. Avoid using harsh chemicals, abrasive cleaners, or direct spraying of liquids onto the screen or monitor casing, as this can cause damage.

General Care

- Always power off the monitor when not in use to conserve energy and prolong its lifespan.
- Avoid placing heavy objects on the monitor or its cables.
- Ensure proper ventilation around the monitor to prevent overheating.

TROUBLESHOOTING

No Display or Black Screen

- Check if the power cable is securely connected to both the monitor and the power outlet.
- Verify that the video cable (HDMI or DisplayPort) is firmly connected to both the monitor and your computer.
- Ensure the correct input source is selected on the monitor via the OSD menu.
- Restart your computer.

Flickering Screen

- Check the video cable connections.
- Adjust the refresh rate of your display settings on your computer.

- Ensure Eye Saver Mode is enabled if flickering persists due to eye strain.

No Sound

- Verify that your audio device is correctly connected to the monitor's headphone jack.
- Check the volume settings on both your computer and the monitor.
- Ensure the correct audio output device is selected in your computer's sound settings.
