2. SETUP

2.1. What's in the Box

Verify that all components are present:

- Logitech G515 Lightspeed TKL Keyboard
- USB-A to USB-C Charging and Data Cable
- USB Wireless Receiver
- USB Extender

WHAT'S IN THE BOX

**USB-A TO USB-C
CHARGING AND DATA CABLE**

**USB WIRELESS
RECEIVER**

USB EXTENDER

2.2. Initial Charging

Before first use, fully charge the keyboard using the provided USB-C cable. Connect the USB-C end to the keyboard's port and the USB-A end to a powered USB port on your computer or a wall adapter. The battery indicator LED will show charging status.

2.3. Connectivity Options

The G515 keyboard supports three connectivity modes:

1. **LIGHTSPEED Wireless:** For optimal gaming performance, use the included USB wireless receiver. Plug the receiver into an available USB-A port on your computer. The keyboard will automatically connect.
2. **Bluetooth:** For general use with various devices, activate Bluetooth pairing mode on the keyboard and select it from your device's Bluetooth settings.
3. **Wired Data Mode:** Connect the keyboard directly to your computer using the USB-C cable for a wired connection, which also charges the device.

2.4. Software Installation (G HUB)

For full customization, including LIGHTSYNC RGB and KEYCONTROL, download and install the Logitech G HUB software from the official Logitech G website. This software allows you to personalize key assignments, lighting effects,

and more.

3. OPERATING INSTRUCTIONS

3.1. Basic Keyboard Functions

The G515 TKL keyboard features a standard tenkeyless layout. Key presses register instantly, providing a responsive typing and gaming experience. The low-profile GL mechanical switches are factory-lubed for smooth actuation.

Image: A side view of the Logitech G515 TKL keyboard, emphasizing its low-profile design and the 1.3 mm actuation distance of its mechanical switches.

3.2. LIGHTSYNC RGB Customization

Utilize the G HUB software to access 16.8 million colors for customizing your keyboard's RGB lighting. You can create personalized themes, synchronize lighting with other Logitech G devices, and set dynamic effects.

3.3. KEYCONTROL Technology

With KEYCONTROL technology, every key on the G515 can be remapped to perform custom actions, macros, or system commands. This feature allows for advanced personalization to suit your workflow or gaming style.

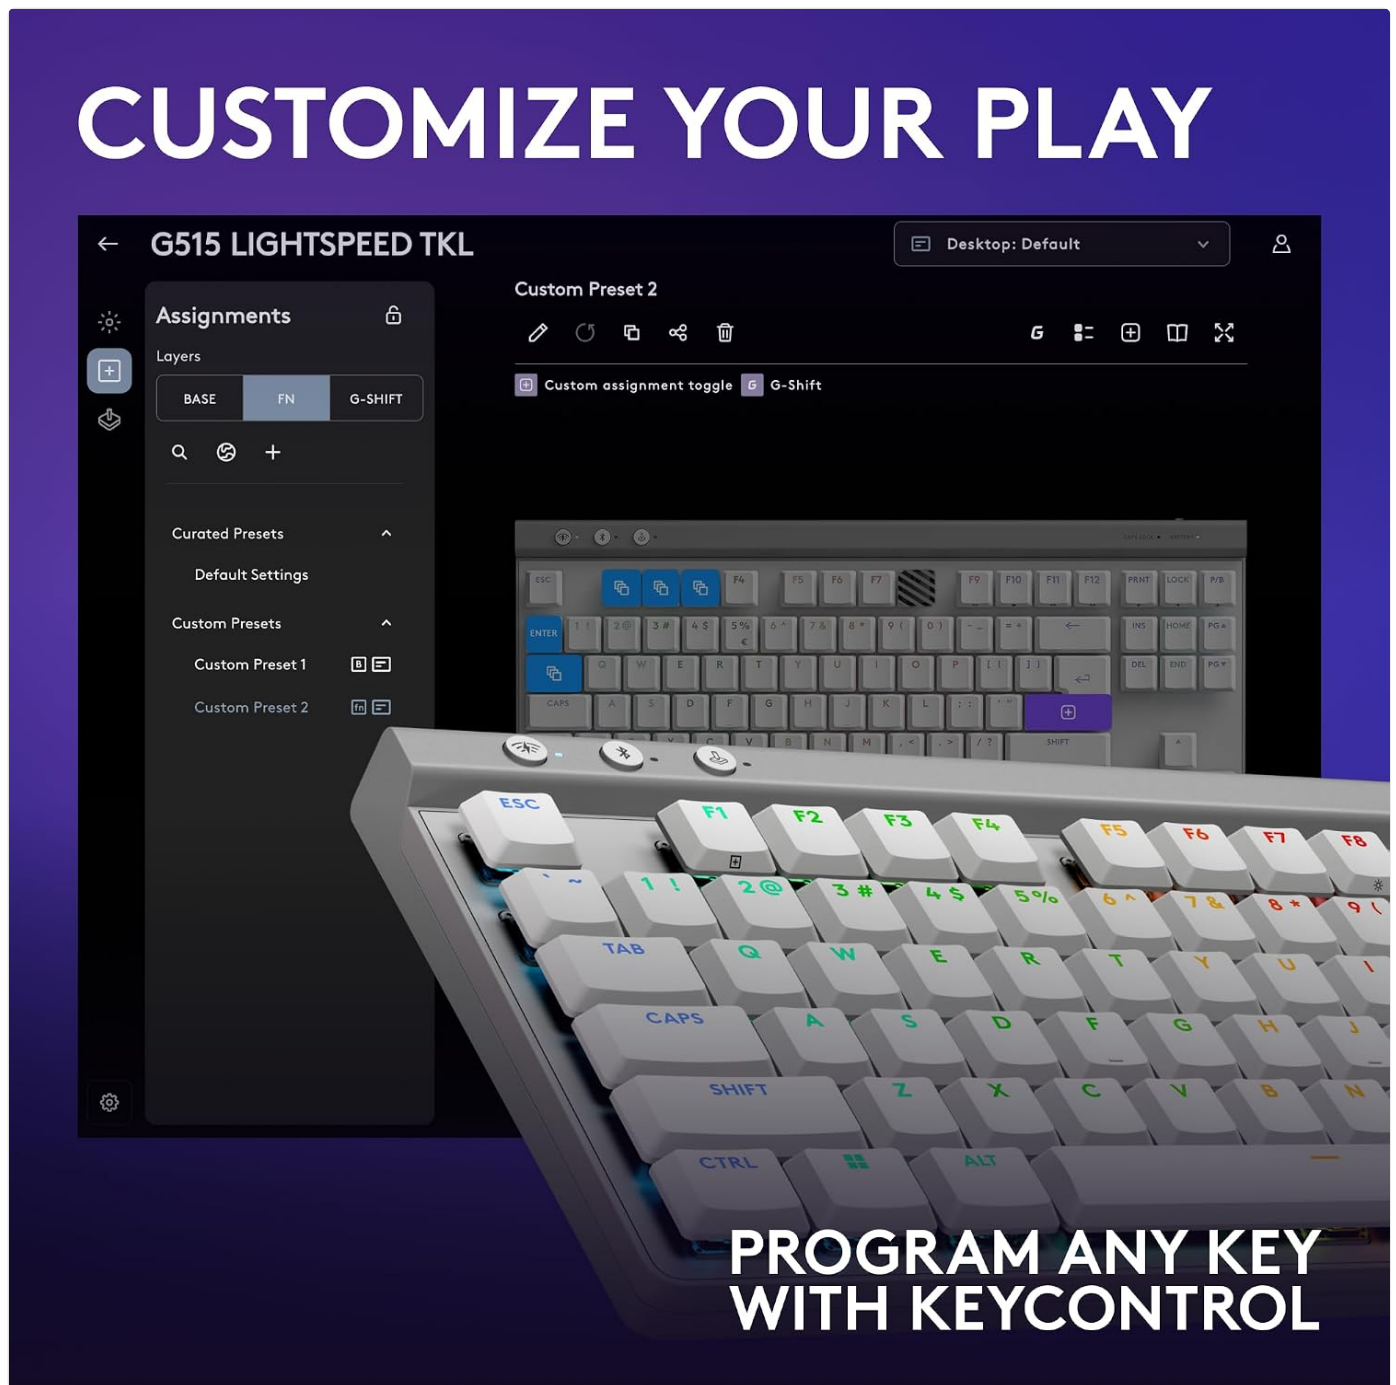

Image: A screenshot of the Logitech G HUB software interface, demonstrating the options available for customizing key assignments and lighting on the G515 keyboard.

3.4. Battery Life Management

The keyboard provides up to 36 hours of continuous battery life with LIGHTSYNC RGB enabled. Battery life varies based on usage conditions and lighting intensity. Monitor battery status via the G HUB software or the dedicated LED indicator on the keyboard.

3.5. Game Mode

Activate Game Mode using the dedicated hotkey to disable specific keys (e.g., Windows key) that might interrupt gameplay. This prevents accidental presses during intense gaming sessions.

4. MAINTENANCE

4.1. Cleaning the Keyboard

To clean the keyboard, use a soft, lint-free cloth. For keycaps, a slightly damp cloth with mild soap and water can be used. Ensure the keyboard is powered off and disconnected before cleaning. The double-shot PBT keycaps are designed to resist oil and wear.

4.2. Battery Care

To prolong battery life, avoid fully discharging the keyboard frequently. Charge it when the battery indicator shows low power. Store the keyboard in a cool, dry place when not in use for extended periods.

5. TROUBLESHOOTING

5.1. Connectivity Issues

- **No connection (LIGHTSPEED):** Ensure the USB wireless receiver is securely plugged in and the keyboard is powered on and in LIGHTSPEED mode. Try a different USB port.
- **No connection (Bluetooth):** Verify Bluetooth is enabled on your device and the keyboard is in Bluetooth pairing mode. Remove the keyboard from your device's paired list and re-pair.
- **Intermittent connection:** Ensure the keyboard is within range of the receiver/device. Avoid sources of interference (e.g., other wireless devices, large metal objects).

5.2. Lighting Issues

- **RGB not working:** Check G HUB software for lighting settings. Ensure the keyboard firmware is up to date.
- **Incorrect colors:** Recalibrate colors in G HUB or reset lighting profiles.

5.3. Battery Not Charging

Ensure the USB-C cable is properly connected to both the keyboard and a working USB power source. Try a different cable or USB port. If the issue persists, contact support.

5.4. Keys Not Responding

Check if Game Mode is active and disabling certain keys. Ensure the keyboard is charged and connected. If individual keys are unresponsive, check for debris under the keycap. For persistent issues, a factory reset via G HUB may be necessary.

6. SPECIFICATIONS

Feature	Detail
Brand	Logitech G
Series	G515
Model Number	920-012537

Feature	Detail
Hardware Platform	PC
Item Weight	2.59 pounds
Package Dimensions	15.04 x 6.46 x 1.89 inches
Color	White
Power Source	Battery Powered
Batteries	1 Lithium Polymer battery required (included)
Connectivity Technology	RF, USB-A
Keyboard Description	Gaming
Recommended Uses	Multimedia, Education, Programming, Gaming, Business
Special Features	Portable, Lightweight, Rechargeable
Number of Keys	90
Backlighting	RGB
Switch Style	Linear Switches

7. WARRANTY AND SUPPORT

7.1. Warranty Information

Your Logitech G515 Lightspeed TKL keyboard comes with a limited hardware warranty. Please refer to the warranty card included in your product packaging or visit the official Logitech G website for detailed warranty terms and conditions specific to your region.

7.2. Customer Support

For technical assistance, product inquiries, or warranty claims, please visit the Logitech G support website. You can find FAQs, troubleshooting guides, and contact information for customer service representatives.
