WHAT'S INCLUDED

Each package contains:

- 6 x Multi-layer Replacement Filters
- 6 x Replacement Pre-filter Sponges

All filters and sponges are individually packaged to maintain hygiene and user experience.

SETUP AND PREPARATION

Before installing a new filter, proper preparation is crucial for optimal performance.

1. **Soak the Filter:** Submerge the new filter in clean water for 5 minutes. This activates the filter material and removes any loose carbon particles.
2. **Rinse the Filter:** After soaking, rinse the filter thoroughly under running water for 30 seconds.

1. Soak the filter for 5 minutes

2. Rinse the filter for 30 seconds before use

Image: Step-by-step visual guide demonstrating how to soak and rinse the replacement filter before use.

OPERATING INSTRUCTIONS (FILTER INSTALLATION)

Follow these steps to install the prepared filter into your PETLIBRO Dockstream Cat Water Fountain:

1. **Disassemble the Fountain:** Carefully remove the top tray and pump assembly from your PETLIBRO water fountain.
2. **Remove Old Filter:** Locate the filter compartment, typically under the top tray or within the pump housing. Remove the used filter and pre-filter sponge.
3. **Insert New Pre-filter Sponge:** Place a new pre-filter sponge into its designated slot.
4. **Insert New Filter:** Place the prepared multi-layer filter into the filter compartment, ensuring it sits securely.
5. **Reassemble:** Reassemble the fountain components, ensuring all parts are correctly aligned and secured.
6. **Refill Water:** Fill the fountain with fresh, clean water.

Regular maintenance is essential for the health of your pet and the longevity of your fountain.

- **Filter Replacement:** It is recommended to replace the multi-layer filter and pre-filter sponge every **2 weeks** for optimal filtration and water quality. If you have multiple pets, more frequent replacement may be necessary.
- **Fountain Cleaning:** Thoroughly clean the water tank, tray, and pump at least once a week. This prevents mineral buildup and maintains pump efficiency.

TROUBLESHOOTING

If you encounter issues with water quality or fountain performance, consider the following:

- **Reduced Water Flow:** Check if the filter is clogged. Replace it if necessary. Ensure the pump is clean and free of debris.
- **Unpleasant Odor/Taste:** This indicates the filter needs immediate replacement. Also, thoroughly clean the entire fountain.
- **Water Discoloration:** Replace the filter and clean the fountain. This can be a sign of algae or mineral buildup.

Always ensure you are using official PETLIBRO filters to guarantee compatibility and performance.

Fountain comes with 2-year replacement
