- Button Microphone (for full-face helmets)

SETUP AND INSTALLATION

Proper installation is crucial for optimal performance and sound quality. Please follow these steps carefully.

Easy
To
Install

What's
In
The Box

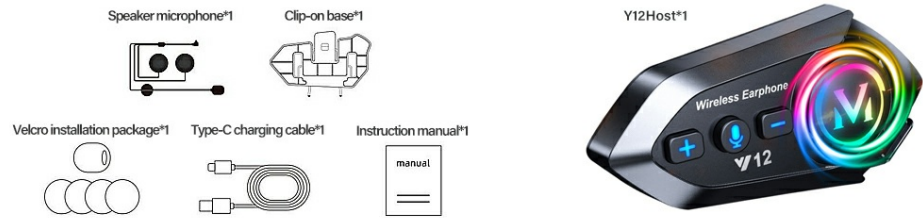

Image: A visual guide illustrating the six steps for installing the headset into a motorcycle helmet, from placing speakers to securing the main unit.

1. **Check Helmet Compatibility:** Before purchasing or installing, verify if your helmet has reserved space for speakers. If not, a small modification to the helmet lining might be necessary.
2. **Speaker Placement:** Attach the helmet speakers to the reserved spaces inside your helmet using the provided Velcro. Ensure they are positioned close to your ears for the best sound experience. Run the speaker wires neatly behind the helmet padding.
3. **Microphone Selection:**
 - For open-face or flip-face (convertible) helmets, use the *boom microphone*.
 - For full-face helmets, use the *button microphone*.
4. **Mounting the Main Unit:** Secure the main headset unit to the side of your helmet using the clip-on base or adhesive stickers.
5. **Connecting the Headphone Port:** This is a critical step for sound output.

Press the headphones type-c port into the host tight completely

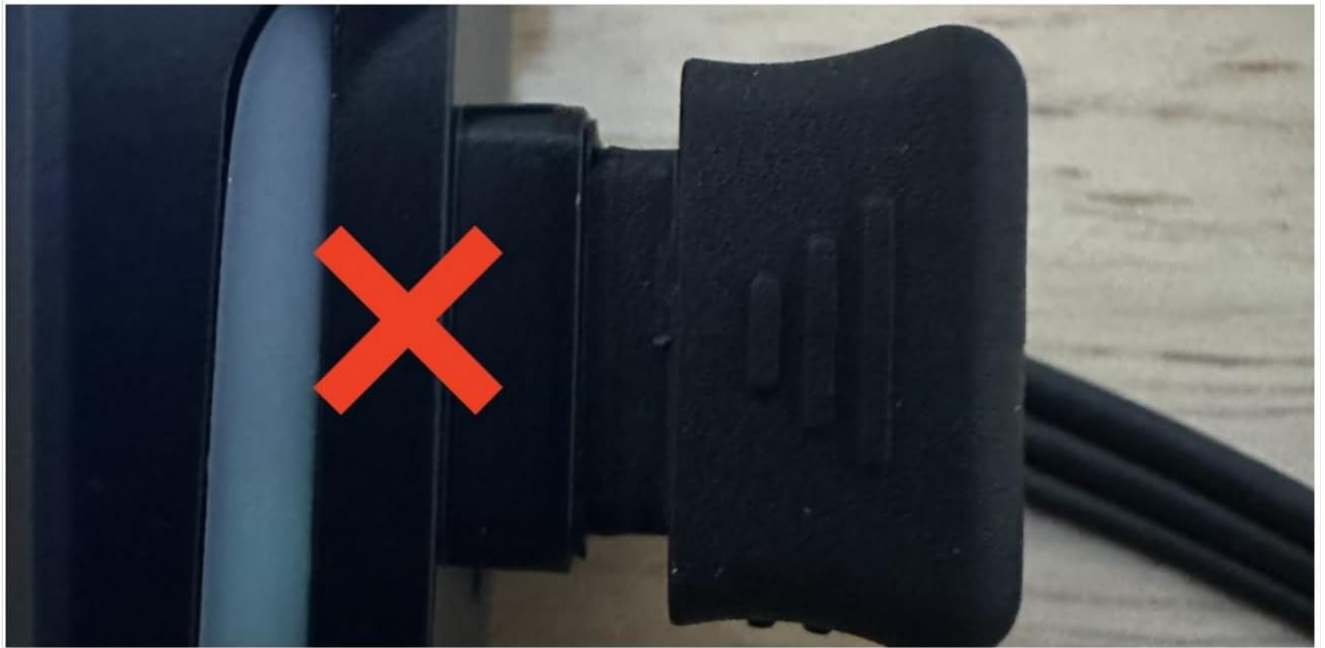

Image: A comparison showing the incorrect (top, partially inserted) and correct (bottom, fully inserted) way to plug the Type-C headphone cable into the main unit. A "PA" sound indicates a secure connection.

Press the headphones' Type-C port into the host unit completely until you hear a "PA" sound, indicating a tight and secure fit. If the port is not fully plugged in, you may experience no sound or low volume.

OPERATING INSTRUCTIONS

Power On/Off and Pairing:

- **Power On:** Press and hold the power button until the indicator light turns on.
- **Pairing Mode:** To enter pairing mode, long press the function key. The red and blue lights on the device will flash alternately.
- **Connect to Device:** On your mobile phone or other Bluetooth device, search for "ELIKIDSTO Y15" (or similar model name) and select it to pair. The headset will automatically reconnect to previously paired devices.

Connecting Two Phones:

The headset supports simultaneous connection to two mobile phones.

Image: The ELIKIDSTO headset shown with two mobile phones, illustrating its capability to connect to and manage calls/audio from two devices concurrently.

Music Playback:

Enjoy high-fidelity stereo music from your connected device.

ENJOY THE BEAUTIFUL MUSIC DURING RIDING

Professional sound decoding chip, 40MM diameter and 0.3 watt helmet speakers units that have high quality sound effect and louder volume

Image: A motorcycle helmet equipped with the ELIKIDSTO headset, depicted with musical notes flowing around it, symbolizing the enhanced music listening experience during rides.

- **Play/Pause:** Press the multi-function button once.
- **Next Track:** Press the "+" button.
- **Previous Track:** Press the "-" button.

Call Handling:

- **Auto Answer:** The headset can automatically answer incoming calls within 10 seconds, promoting safer riding.
- **Answer/End Call:** Press the multi-function button once.
- **Reject Call:** Press and hold the multi-function button.

Voice Assistant (Siri/Google Assistant):

Easily activate your device's voice assistant without diverting your attention from the road.

Image: A rider wearing a helmet with the ELIKIDSTO headset, featuring icons for a microphone and Siri, demonstrating the integrated voice assistant control for hands-free operation.

- **Activate Voice Assistant:** Press the dedicated voice control button (microphone icon).

Volume Adjustment:

- **Increase Volume:** Press and hold the "+" button.

- **Decrease Volume:** Press and hold the "-" button.
- **Optimal Volume:** Adjust the volume using your mobile phone before riding. Ensure speakers are positioned close to your ears within the helmet, avoiding obstruction from the lining.

FM Radio:

The headset includes an FM radio function for listening to broadcasts.

Image: The ELIKIDSTO headset highlighting its Stereo FM radio capability, with text indicating "Multiple stable signal receivers" and categories of content like Music, Sport, Traffic, News, Emotion, Cross talk, and Entertainment.

- **Activate FM Mode:** Refer to the user manual for specific button presses to enter FM mode.
- **Automatic Channel Search:** In FM mode, long press the voice assistant button for automatic one-click channel search and storage.

MAINTENANCE

- **Water Resistance:** The headset features IPX6 waterproof technology, allowing it to withstand various weather conditions like wind and rain. However, avoid submerging the device in water.

Image: The ELIKIDSTO headset shown partially submerged in water, illustrating its IP56 dustproof and waterproof rating, indicating resilience against splashes and rain.

- **Cleaning:** Use a soft, dry cloth to clean the headset. Do not use abrasive cleaners or solvents.
- **Storage:** Store the headset in a cool, dry place when not in use.
- **Charging:** Charge the device using the provided Type-C charging cable. Avoid using damaged cables or chargers.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound or low volume	Headphone Type-C port not fully inserted. Speakers not positioned correctly.	Ensure the Type-C headphone port is fully plugged into the host unit until you hear a "PA" sound. Adjust speaker position closer to ears. Check mobile phone volume.
Cannot pair with phone	Headset not in pairing mode. Bluetooth off on phone.	Long press function key to enter pairing mode (red and blue lights flash). Ensure Bluetooth is enabled on your phone. Restart both devices.

Problem	Possible Cause	Solution
Short battery life	Battery not fully charged. Aging battery.	Ensure the device is fully charged (approx. 1 hour). If battery life significantly degrades, contact support.
Poor sound quality at high speeds	Wind noise. Speakers not optimally placed.	Ensure speakers are as close to your ears as possible. Consider helmet wind noise reduction accessories. Adjust volume.
