Optimum PT-50

Optimum PT-50 Baby Pigeon First Aid Treatment Medicine User Manual

Product Overview

Image of the Optimum PT-50 medicine bottle, containing 100 pills. The label features the product name, 'Optimum PT-50', a graphic of a pigeon, and text indicating 'Immediate Rest and Soothing in illness and Pain', 'FIRST AID', and 'For Bird / Pigeon'.

Key Features:

- All-in-one first aid treatment for baby pigeons and small birds.
- Aids in immediate rest and soothing during illness.
- Helps control and relieve various types of pain.

Intended Use

Optimum PT-50 is formulated for the emergency treatment and care of pigeons and small birds exhibiting signs of sluggishness, illness, or pain. It is designed to provide immediate relief and support during critical periods.

Dosage and Administration

Dosage:

- Administer **1 pill** with plain water.
- Ensure the bird has been fed grain prior to administration.

Schedule:

- Maintain a gap of **6 to 8 hours** between the first dose and the second dose.

Treatment Duration:

- Continue treatment for **3 to 5 days**, or as directed by a veterinarian.

Important Considerations and Warnings

- **For Animal Use Only:** This product is intended solely for pigeons and small birds. Do not administer to other animals or humans.
- **Consult a Veterinarian:** If symptoms persist or worsen after the recommended treatment duration, consult a qualified avian veterinarian.
- **Keep Out of Reach:** Store this product out of reach of children and other pets.
- **Observe Bird's Condition:** Monitor the bird's response to treatment closely.

Storage

Store Optimum PT-50 in a cool, dry place, away from direct sunlight and moisture. Ensure the container is tightly closed after each use to maintain product efficacy.

Product Specifications

Feature	Detail
Brand	Optimum
Model Number	PT-50
