MAINTENANCE

- **Cleaning:** Disconnect the charger from the power source before cleaning. Use a soft, dry cloth to wipe the surfaces. Avoid abrasive cleaners or solvents.
- **Storage:** Store the charger in a cool, dry place when not in use.
- **Safety:** Do not disassemble or attempt to repair the charger. Keep away from water, heat, and direct sunlight. Ensure proper ventilation during use.

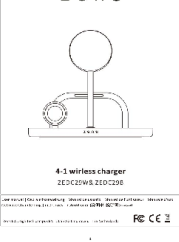

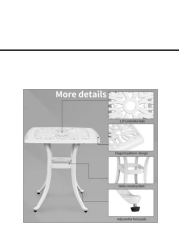

TROUBLESHOOTING

- **Device not charging:** Ensure the power adapter is securely plugged into both the charger and the wall outlet. Verify that your device is correctly aligned on the MagSafe stand or centered on the Qi pad. Remove any thick phone cases that may interfere with wireless charging.
- **Slow charging:** Confirm that your device supports 15W fast charging. Ensure the 20W power adapter is used. Charging speed can be affected by device usage during charging or environmental factors.
- **Device overheating:** It is normal for devices to become slightly warm during wireless charging. If excessive heat is detected, remove the device from the charger and allow it to cool. Ensure the charger is in a well-ventilated area.
