VATOS Electric Faucet Manual Pump 2 in 1 Play Sink User Manual

Model: 8282

Brand: VATOS

INTRODUCTION

This user manual provides essential information for the assembly, operation, and maintenance of your VATOS Electric Faucet Manual Pump 2 in 1 Play Sink. This versatile toy offers both an electric faucet and a manual pump, along with various water play activities like a duck slide, fishing game, and pretend dishwashing. Designed for children aged 3 and up, it encourages imaginative play and develops hand-eye coordination.

SAFETY INFORMATION

Warning: Please use under adult supervision.

- Ensure all parts are securely assembled before use.
- Use only clean water in the sink.
- Do not submerge the electric faucet unit in water.
- Keep batteries away from young children and dispose of them properly.
- Supervise children during water play to prevent slipping or choking hazards.

WHAT'S IN THE BOX

Your VATOS Play Sink set includes the following components:

- Play sink base
- Manual water pump

- Electric faucet
- Several bowls, cups, knives, forks, and a dishcloth
- Various water toys: elephants, crabs, ducks, boats, fishing rods
- Water slides
- Sluice gates
- Springboards
- Magnetic fishing boat machines

SETUP INSTRUCTIONS

1. **Unpack Components:** Carefully remove all parts from the packaging and verify against the "What's in the Box" list.
2. **Assemble Main Sink Unit:** Place the main pink sink base on a flat, stable surface.
3. **Install Water Slide:** Attach the water slide components to the designated slots on the sink base. Ensure they snap securely into place.
4. **Attach Faucets:**
 - **Electric Faucet:** Insert 2 x 1.5V AA batteries (not included) into the battery compartment of the electric faucet. Ensure the compartment is sealed properly for waterproof protection. Attach the electric faucet to its designated position on the sink.
 - **Manual Water Pump:** Attach the manual water pump (tree stump design) to its designated position.
5. **Place Accessories:** Arrange the various play accessories such as the dish rack, small bowls, and utensils around the sink.
6. **Add Water:** Fill the main sink basin with clean water. Do not overfill.

3. Water Table Activities

Engage with the various water play features:

- **Duck Slide:** Place the duck toys on the spiral slide and watch them glide down into the water.
- **Fishing Game:** Use the fishing rod with magnetic tip to catch the magnetic duck and boat toys.
- **Springboard Game:** Utilize the springboard to launch small toys into the water.
- **Sluice Gate:** Operate the sluice gate to control water flow and create different water levels.
- **Water Toys:** Pour water over the elephant and crab figures to activate their water-spinning features.

MAINTENANCE

- **Cleaning:** After each use, empty the water from the sink. Wipe down all surfaces with a damp cloth and mild soap if necessary. Rinse thoroughly.
- **Drying:** Allow all components to air dry completely before storing to prevent mold or mildew.
- **Storage:** Store the play sink and its accessories in a clean, dry place away from direct sunlight and extreme temperatures.
- **Battery Replacement:** If the electric faucet's water flow weakens, replace the 2 x 1.5V AA batteries. Ensure correct polarity.
- **Water Quality:** Use clean, fresh water for play. Avoid using dirty or soapy water that could clog the pump mechanisms.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Electric faucet not working or weak water flow.	<ul style="list-style-type: none">• Batteries are dead or incorrectly installed.• Water level is too low.• Pump is clogged.	<ul style="list-style-type: none">• Replace batteries with new 1.5V AA batteries, ensuring correct polarity.• Add more water to the sink basin.• Check for any debris blocking the pump intake.
Manual pump not drawing water.	<ul style="list-style-type: none">• Pump not primed.• Water level is too low.• Pump mechanism is stuck or clogged.	<ul style="list-style-type: none">• Pump the handle several times to prime the pump.• Add more water to the sink basin.• Inspect the pump for any obstructions.
Water slide detaches easily.	Not securely snapped into place.	Ensure all connections are firmly snapped together. For persistent issues, consider using a strong adhesive (e.g., superglue) on the joints, as suggested by some users, but this will make it permanent.
Water spills onto the floor.	<ul style="list-style-type: none">• Overfilling the sink.• Vigorous play.• Improper placement.	<ul style="list-style-type: none">• Do not overfill the sink.• Place the toy on a waterproof surface or use a mat/towel underneath.• Encourage gentle play.
