anwickjeff Self Cleaning Cat Litter Box

Automatic Cat Litter Box with APP Control & Health Monitoring

Introduction

Thank you for choosing the anwickjeff Self Cleaning Cat Litter Box. This advanced system is designed to simplify cat care with its automatic cleaning functions, smart app control, and robust safety features. This manual provides essential information for setup, operation, maintenance, and troubleshooting to ensure optimal performance and a clean environment for your feline companion.

Setup Guide

Follow these steps to set up your anwickjeff Self Cleaning Cat Litter Box:

1. **Unboxing and Assembly:** Carefully remove all components from the packaging. Insert the gray support legs into the designated slots on the main unit. Place the gray barrel component securely into the main unit, ensuring it is well-seated to prevent error messages during operation. Finally, place the top lid onto the unit.

2. **Power Connection:** Locate the power jack at the back of the unit. Connect the power cord to the jack and plug it into a standard electrical outlet. Ensure the power button (small circle) is pressed to turn on the unit.
3. **Litter Filling:** For optimal convenience, add cat litter by lifting the top lid and pouring it directly into the barrel. This method is labor-saving as it avoids bending over to add litter from the front entrance.

4. **App Connection:** Connect the litter box to your home's 2.4GHz Wi-Fi network. All functions can be operated via the unit's touch panel or through the dedicated app. The app allows for remote control and monitoring.

Operating Instructions

Your anwickjeff Self Cleaning Cat Litter Box offers flexible operation modes and advanced safety features:

- **Versatile Control Options:** The litter box supports both manual and automatic cleaning modes. You can control the unit remotely via the app or use the touch panel for offline control. A child lock feature is included for added safety, preventing accidental operation by children.
- **Comprehensive Safety Features:** The unit is equipped with multiple anti-pinch mechanisms to ensure your cat's safety. The tray stops rotating immediately if a cat enters during operation. Automotive glass material is used to prevent pinching, and infrared sensors detect proximity to prevent accidents. Each leg also contains a weight sensor.

Image: A diagram illustrating the infrared anti-pinch sensing technology, showing how the litter box stops operation when a cat is detected entering.

- **Automatic Cleaning Cycle:** The machine rotates from side to side. Any dirty litter clumps or waste will be filtered and rolled over a screen into the waste collection bin below, leaving clean litter inside the barrel.
- **Ambient Lighting:** The drum is equipped with six groups of ambient lights inside. You can adjust the brightness or turn off the lights via the mobile app or touch panel. This feature allows for intuitive observation of litter levels and your cat's behavior, especially at night.
- **App Monitoring:** Use the app to monitor various metrics, including how often the litter box is used, your cat's weight, and other toileting data for better health tracking.

Maintenance

Regular maintenance ensures the longevity and hygiene of your litter box:

- **Waste Collection Bin:** The large 13-liter waste collection bin can hold waste for up to 15 days for a single cat, reducing the frequency of manual scooping.

Image: A close-up of the pull-out waste collection bin of the anwickjeff Self Cleaning Cat Litter Box, showing its capacity for collected waste.

- **Cleaning the Barrel:** The barrel can be easily removed for thorough cleaning. Ensure the unit is powered off and unplugged before removing the barrel.
- **Litter Filtration:** The internal filter ensures that only clean litter remains in the barrel after a cleaning cycle, while soiled waste is directed to the collection bin. The bottom part of the barrel features a durable nylon fabric for easy cleaning.

Troubleshooting

If you encounter any issues with your litter box, consider the following:

- **Error Messages:** If the unit displays an error message or does not rotate correctly, ensure that the barrel is well-connected and properly seated within the main unit.
- **General Issues:** As an innovative product, unexpected issues may arise. Please do not hesitate to contact customer service for assistance. Our experts are available to answer any questions you may have.

Specifications

Feature	Detail

Brand	anwickjeff
Model Name	Smart Automatic Cat Litter Box
Item Model Number	5122595
UPC	747649896099
Dimensions (LxWxH)	21.65" x 19.69" x 26.18"
Item Weight	24.25 Pounds
Weight Limit (Cat)	3 lbs. to 21 lbs.
