6. MAINTENANCE AND CARE

To keep your sweeck wardrobe in excellent condition, follow these simple maintenance guidelines:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals, as they can damage the finish.
- **Spills:** Clean up spills immediately to prevent staining or damage to the wood effect finish.

- **Dusting:** Regularly dust the wardrobe with a dry, soft cloth.
- **Sunlight:** Avoid prolonged exposure to direct sunlight, which can cause fading or discoloration of the wood effect.
- **Humidity:** Maintain a stable room temperature and humidity level to prevent warping or cracking of the engineered wood.
- **Hardware:** Periodically check and tighten any loose screws or fasteners to ensure structural integrity.

7. TROUBLESHOOTING

If you encounter any issues with your wardrobe, refer to the following common troubleshooting tips:

- **Wobbly Wardrobe:** Ensure all assembly screws are tightened. Check that the wardrobe is on a level surface. If necessary, use shims under the feet to stabilize it.
- **Doors Not Closing Properly:** Check the hinge alignment. Hinges often have adjustment screws that allow for minor adjustments to door position. Ensure no items inside are obstructing the doors.
- **Scratches or Minor Damage:** For minor scratches, wood repair markers or touch-up pens matching the wood tone can be used.
- **Missing Parts:** If you discover missing parts during assembly, contact sweeek customer support with your purchase details.
