JOMAA KB25

JOMAA KB25 Bluetooth Numeric Keypad User Manual

Model: KB25

1. INTRODUCTION

Thank you for choosing the JOMAA KB25 Bluetooth Numeric Keypad. This portable, rechargeable 36-key keypad is designed to enhance productivity across various devices, including laptops, tablets, and desktop computers. This manual provides detailed instructions for setup, operation, and maintenance to ensure optimal performance.

Small Keyboard

36 KEY NUMERIC KEYBOARD

A GOOD COMPANION FOR LAPTOPS

2. PACKAGE CONTENTS

Please verify that all items are present in your package:

- JOMAA KB25 Bluetooth Numeric Keypad
- USB Charging Cable
- User Manual (this document)

3. KEY FEATURES

- **Wide Compatibility:** Supports Bluetooth connectivity with mobile phones, tablets, laptops, Mac, iMac, PC, and other Bluetooth-enabled desktop computers (Mac/iOS/Windows/Android).
- **36 Multi-function Keys:** Includes numeric keys, arrow keys, parentheses, and dedicated shortcuts for calculator and Excel.
- **Rechargeable Battery:** Built-in lithium-ion battery with Type-C charging. Features a low battery indicator (red light flash).

- **Soft Key Feel:** Utilizes a scissor-shaft design for comfortable and quiet typing, reducing finger fatigue during extended use.
- **Dual Bluetooth Channels:** Connects to two devices simultaneously, allowing for quick switching between them using FN + Bluetooth 1 or FN + Bluetooth 2.
- **Ergonomic Design:** Features a sloped profile for a natural typing angle, enhancing comfort and reducing wrist strain.
- **Ultra-Silent Operation:** Designed for quiet key presses, suitable for various work environments.

Image 2: The JOMAA KB25 keypad is designed with mute buttons for ultra-silent operation.

4. SETUP GUIDE

4.1. Charging the Keypad

Before initial use, fully charge the keypad. Connect the provided USB Type-C charging cable to the keypad's charging port and the other end to a USB power source (e.g., computer USB port, wall adapter). The keypad will indicate a low battery by flashing a red light.

RECHARGEABLE

IMPROVE OFFICE EFFICIENCY

Image 4: The JOMAA KB25 keypad features a Type-C charging port and a power switch.

4.2. Bluetooth Pairing

The keypad supports two Bluetooth channels for connecting to multiple devices.

1. Ensure the keypad is charged and powered on using the switch located on the side.
2. On your device (laptop, tablet, phone), enable Bluetooth.
3. To initiate pairing, press and hold either the **FN + Bluetooth 1** key combination or **FN + Bluetooth 2** key combination for three to five seconds. The corresponding Bluetooth indicator light on the keypad will begin to flash, indicating it is in pairing mode.
4. On your device, search for Bluetooth devices. The keypad should appear as "JOMAA KB25" or a similar name. Select it to connect.
5. Once connected, the Bluetooth indicator light on the keypad will stop flashing and remain solid for a few seconds, then turn off.
6. Repeat these steps to pair with a second device using the other Bluetooth channel (e.g., if you used Bluetooth 1 for the first device, use Bluetooth 2 for the second).

Note: When connecting to an Apple product for the first time, your device may prompt you to identify the keyboard type. Follow the on-screen instructions. If prompted to press a key next to 'Shift' and your keypad does not have a 'Shift' key, try pressing other keys until the connection is established. Selecting 'ISO international' as the keyboard type has been reported to work.

5. OPERATING INSTRUCTIONS

5.1. Basic Key Functions

The JOMAA KB25 keypad features a standard numeric layout along with additional function keys:

- **Numeric Keys (0-9, ., 00):** For standard number input.
- **Arithmetic Operators (+, -, *, /):** For calculations.
- **Enter:** Confirms input.
- **Delete:** Deletes characters.
- **Esc:** Escape function.
- **Tab:** Tab function.
- **Home, End, Pg Up, Pg Dn:** Navigation keys.
- **Arrow Keys (Up, Down, Left, Right):** For cursor movement.
- **FN Key:** Used in combination with other keys for special functions.

5.2. Special Functions

- **Calculator Shortcut:** Press the dedicated calculator key (often labeled with a calculator icon) to open the calculator application on your device.
- **Excel Shortcut:** Press the dedicated Excel key (often labeled with an Excel icon) to open an Excel spreadsheet.
- **Note on '=' Key:** The '=' key on this keypad is designed for specific shortcut functions. It cannot be used to directly input the '=' character on some tablet devices.

5.3. Switching Between Connected Devices

If you have paired the keypad with two devices using the dual Bluetooth channels, you can switch between them by pressing:

- **FN + Bluetooth 1:** Switches to the device paired with Bluetooth Channel 1.
- **FN + Bluetooth 2:** Switches to the device paired with Bluetooth Channel 2.

Widely compatible

Image 5: The JOMAA KB25 keypad is widely compatible with Mac, iOS, Windows, and Android devices.

6. MAINTENANCE AND CARE

- **Cleaning:** Use a soft, dry cloth to clean the keypad. For stubborn dirt, a slightly damp cloth can be used, ensuring no liquid enters the keypad.
- **Storage:** Store the keypad in a cool, dry place away from direct sunlight and extreme temperatures.
- **Avoid Liquids:** Do not expose the keypad to water or other liquids.
- **Avoid Drops:** Protect the keypad from drops and impacts.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Keypad does not turn on.	Battery is depleted.	Charge the keypad using the provided USB Type-C cable.

Problem	Possible Cause	Solution
Keypad does not connect via Bluetooth.	Not in pairing mode; device Bluetooth off; already connected to another device.	Ensure keypad is in pairing mode (FN + Bluetooth 1/2 held for 3-5s). Verify device Bluetooth is on. Disconnect from other devices if necessary.
Keys are not responding.	Low battery; connection issue.	Charge the keypad. Re-establish Bluetooth connection.
The '=' key does not type an '=' character on my tablet.	This is a known limitation for some tablet operating systems.	The '=' key is primarily for shortcut functions. For direct '=' input on tablets, use the on-screen keyboard or your device's main keyboard.
Difficulty pairing with Apple devices.	Keyboard identification prompt.	If prompted to press a key next to 'Shift', try pressing various keys until connection is established. Selecting 'ISO international' as keyboard type often resolves this.

8. SPECIFICATIONS

Model	KB25
Brand	JOMAA
Connectivity Technology	Bluetooth
Number of Keys	36
Key Type	Scissor-shaft
Battery Type	Lithium Ion (included)
Battery Capacity	250mA
Charging Port	USB Type-C
Product Dimensions (L x W x H)	5.91" x 4.72" x 0.47" (15.01 cm x 11.99 cm x 1.19 cm)
Item Weight	7.4 ounces (209.79 grams)
Standby Time	360 days
Wake-up Time	<2 seconds
Effective Distance	10 meters
Button Lifespan	>5,000,000 times
Supported Systems	Mac/iOS/Windows/Android
