Setup and Assembly

Assembly of the Volowoo Twin Loft Bed with Desk is designed to be straightforward. It is recommended that two adults perform the assembly. Please follow the numbered steps provided in the separate assembly diagram sheet carefully.

1. **Preparation:** Clear a spacious area for assembly. Lay out all parts and hardware, matching them against the parts list. Ensure all components are free from damage.
2. **Frame Assembly:** Begin by assembling the main metal frame structure. Connect the vertical and horizontal support beams using the provided bolts and nuts. Do not fully tighten bolts until the entire frame is assembled.
3. **Guardrail Installation:** Attach the full-length guardrails to the upper bunk frame. Ensure they are securely fastened to prevent accidental falls.
4. **Ladder Attachment:** Securely attach the two built-in ladders to the designated points on the bed frame. Verify they are stable and can support weight.
5. **Desk and Shelf Installation:** Mount the desk surface and storage shelves to their respective positions on the frame. Ensure all connections are tight and stable.
6. **Final Tightening:** Once all components are in place, systematically tighten all bolts and screws. Do not overtighten, but ensure all connections are firm.
7. **Placement:** Position the assembled loft bed against a wall for added stability, if desired. Ensure there is adequate clearance around the bed.

- **Weight Limits:** Adhere to the recommended weight limits for the upper bunk and shelves to prevent damage or injury.
