

VTech 2-in-1 Map & Go Scooter

VTech 2-in-1 Map & Go Scooter User Manual

Model: 2-in-1 Map & Go Scooter

1. INTRODUCTION

Welcome to the VTech 2-in-1 Map & Go Scooter user manual. This versatile ride-on toy is designed to grow with your child, transforming from a stable trike into an exciting scooter. It features interactive elements that encourage imaginative play and introduce basic concepts like counting and road safety.

Please read this manual thoroughly before assembly and use to ensure safe and optimal operation of the product. Keep this manual for future reference.

2. IMPORTANT SAFETY INFORMATION

WARNING: Adult assembly required. Adult supervision is required at all times when the product is in use.

- This product is intended for children aged 12-36 months, with a maximum weight limit of 42 pounds (19 kg).
- Do not use this product on public roads, near motor vehicles, or on steep inclines. Use only on flat, level surfaces free of obstacles.
- Ensure all parts are securely fastened before each use. Regularly check for loose or damaged components.
- Keep small parts and packaging materials away from children to prevent choking hazards.
- **Battery Safety:**
 - Requires 2 AA batteries. New alkaline batteries are recommended for regular use.
 - Do not mix old and new batteries. Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
 - Remove exhausted batteries promptly. Remove batteries if the unit will not be used for an extended period.
 - Non-rechargeable batteries are not to be recharged. Rechargeable batteries are only to be charged under adult supervision.
 - Do not short-circuit the supply terminals.

3. PACKAGE CONTENTS

Please ensure all components are present before beginning assembly:

- Main Scooter Body
- Handlebar Assembly
- Front Wheel

- Rear Wheels (2 for trike mode, 1 for scooter mode)
- Seat
- Instruction Manual (this document)

4. ASSEMBLY AND SETUP

4.1. Battery Installation

1. Locate the battery compartment, typically on the underside or within the main body of the scooter.
2. Using a screwdriver (not included), open the battery compartment cover.
3. Insert 2 new AA batteries, ensuring correct polarity (+/-) as indicated inside the compartment.
4. Replace the cover and tighten the screw.

4.2. Assembling the Trike Mode

The scooter is initially assembled in trike mode for enhanced stability for younger children.

1. Attach the handlebar assembly to the main scooter body, ensuring it clicks securely into place.
2. Insert the front wheel into its designated slot.
3. Attach the two rear wheels to the back axle, ensuring they are firmly secured.
4. Secure the seat onto the main body.
5. Verify all connections are tight and secure before allowing a child to use the product.

4.3. Transforming to Scooter Mode

As your child grows and gains confidence in balance and coordination, the trike can be easily transformed into a two-wheeled scooter.

1. Locate the transformation mechanism, typically a latch or button, near the rear wheels.
2. Follow the instructions on the product itself or refer to the included quick-start guide for specific steps to convert the rear wheel assembly from two wheels to a single wheel.
3. Ensure the transformation is complete and all parts are securely locked in the scooter configuration before use.

5. OPERATING INSTRUCTIONS

5.1. Basic Operation

- **Power On/Off:** Locate the power switch, usually on the dashboard or underside of the unit. Turn it to the 'On' position to activate the toy.
- **Riding:** In trike mode, children can sit on the seat and push with their feet. In scooter mode, children stand on the footrest and propel themselves. Always ensure a safe, clear area for riding.

5.2. Interactive Features

- **Key Ignition:** Turn the key to activate engine sounds and phrases, simulating starting a real vehicle.
- **Roller Map:** Explore different locations by turning the roller map. This feature encourages imaginative journeys.
- **Headlight Ring:** Twist the outer headlight ring to activate lights, sounds, and melodies, enhancing sensory play.
- **Dashboard Buttons:** Press the various buttons on the dashboard to hear counting, traffic-related phrases, road safety messages, and engaging songs.
- **Motion-Activated Sounds:** The scooter features motion sensors that trigger motor sounds as the child rolls, adding to the realistic play experience.

6. MAINTENANCE

- **Cleaning:** Wipe the surface of the scooter with a slightly damp cloth. Do not immerse the product in water. Avoid using harsh chemicals or abrasive cleaners.

- **Battery Replacement:** Refer to Section 4.1 for instructions on replacing batteries when sounds or lights become faint or stop working.
- **Storage:** Store the scooter in a cool, dry place away from direct sunlight and moisture when not in use.
- **Regular Checks:** Periodically inspect all parts for wear and tear, loose screws, or damage. Discontinue use if any damage is found.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Product does not turn on or sounds/lights are faint.	Batteries are low, dead, or incorrectly installed.	Replace with new AA batteries, ensuring correct polarity.
Sounds are distorted or intermittent.	Low battery power.	Replace batteries.
Wheels do not spin freely.	Obstruction (e.g., hair, debris) or loose assembly.	Check wheels for obstructions and remove. Ensure all assembly points are secure.
Product not transforming correctly.	Mechanism not fully disengaged/engaged.	Refer to Section 4.3 and ensure the transformation latch/button is fully operated.

8. SPECIFICATIONS

Feature	Detail
