## 2. Connection Modes

The Deeper Connect Mini supports various connection modes. The most common are Virtual Wire Mode and Router Mode.

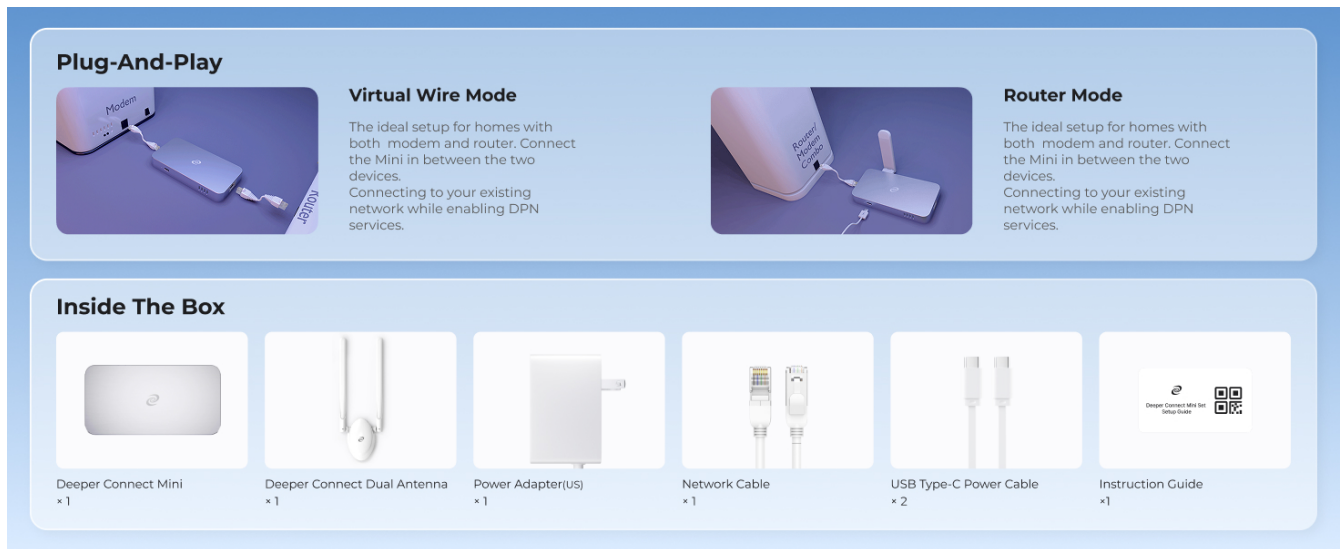

Figure 3: Connection Modes

### Virtual Wire Mode (Recommended for most users)

Connect the Deeper Connect Mini between your existing modem and router. This setup allows the Mini to filter all internet traffic without replacing your current network infrastructure.

1. Connect your modem's LAN port to the Deeper Connect Mini's **Modem Network Port**.
2. Connect the Deeper Connect Mini's **Router Network Port** to your existing Wi-Fi router's WAN/Internet port.
3. Connect the power adapter to the Deeper Connect Mini's **Power Adapter** port and plug it into a power outlet.
4. Attach the dual antennas to the **Wi-Fi Adapter Port** if you intend to use the Mini's Wi-Fi capabilities.

### Router Mode

In Router Mode, the Deeper Connect Mini acts as your primary router. This mode is suitable if you do not have an existing router or wish to replace it.

1. Connect your modem's LAN port to the Deeper Connect Mini's **Modem Network Port**.
2. Connect your devices (computers, smartphones, etc.) to the Deeper Connect Mini via Ethernet or Wi-Fi.
3. Connect the power adapter to the Deeper Connect Mini's **Power Adapter** port and plug it into a power outlet.
4. Attach the dual antennas to the **Wi-Fi Adapter Port** to enable Wi-Fi broadcasting.

## MAINTENANCE

### Firmware Updates

Regularly check for and install firmware updates through the device's administration dashboard to ensure optimal performance, security, and access to new features. Updates are typically released to improve stability and address vulnerabilities.

### Physical Care

Keep the device in a well-ventilated area to prevent overheating. Clean the exterior with a soft, dry cloth. Avoid exposing the device to moisture or extreme temperatures.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
No Internet Connection	Incorrect cable connections; Modem/Router issue; Deeper Connect Mini not powered on.	Verify all cables are securely connected. Restart your modem, router, and Deeper Connect Mini. Check the power indicator on the Mini.
Cannot Access Dashboard	Incorrect IP address; Network configuration issue.	Ensure you are using the correct Admin IP (e.g., 11.22.33.44). Try connecting directly to the Mini via Ethernet. Temporarily disable VPN on your device if active.
Slow Internet Speed	High network traffic; DPN tunnel selection; Outdated firmware.	Try switching to a different DPN tunnel in the dashboard. Ensure your firmware is up to date. Check your original internet speed without the Mini connected.
Ad Blocker Not Working	Ad blocker feature disabled; Specific website bypasses.	Verify the ad blocker is enabled in the Deeper Connect Mini dashboard. Some websites may use advanced ad delivery methods that require specific configurations.
