Self Cleaning Shedding Brush Instruction Manual

Brand: Dipoo

Product Overview

The Dipoo Self Cleaning Shedding Brush is a skin-friendly grooming tool designed for effective deshedding and hair removal in dogs, cats, and puppies with both long and short hair. Its innovative design ensures comfort for your pet and ease of use for you.

- **Easy Deshedding:** Effortlessly reduces shedding for long and short-haired pets.
- **Skin Friendly:** Soft, protective plastic round head bristles prevent scratching.
- **Sturdy & Durable:** Made from premium stainless steel and comfortable rubber for long-term use.
- **Ergonomic Design:** Features an easy-cleaning press button and a lightweight TPR handle for comfortable grooming.
- **Efficient Fur Removal:** Effectively removes loose fur from various pets including dogs, cats, horses, rabbits, and more.

Setup

Upon unboxing, ensure all components are present: the Dipoo Self Cleaning Shedding Brush. No assembly is required; the brush is ready for immediate use.

The Dipoo Self Cleaning Shedding Brush is ready for immediate use upon removal from its packaging. Its ergonomic design ensures a comfortable grip for efficient grooming.

Operating Instructions

The Dipoo Self Cleaning Shedding Brush is designed for gentle yet effective removal of loose fur from your pet. Its skin-friendly bristles ensure a comfortable grooming experience.

Step-by-Step Usage

1. Press the button to extend the bristles.
2. Gently brush your pet's fur in the direction of hair growth to remove loose hair and detangle.
3. After brushing, press the button again to retract the bristles, collecting the fur.
4. Simply wipe the collected fur from the brush head to clean.

This image illustrates the simple four-step process for using the brush, from extending the bristles for grooming to retracting them for easy fur removal.

Demonstrates the brush's effectiveness in removing up to 95% of loose fur, promoting a healthy coat and reducing shedding in the home environment.

Highlights the versatility of the brush, effective for deshedding a wide range of animals including dogs, cats, horses, rabbits, and other small pets.

Maintenance

Regular cleaning of your Dipoo Self Cleaning Shedding Brush is essential to maintain its effectiveness and hygiene.

To clean the brush, simply press the button to retract the bristles, which will push the collected fur to the surface. Then, wipe the fur away with your hand or a damp cloth.

For deeper cleaning, the brush head can be gently wiped with a mild soap and water solution. Ensure the brush is completely dry before storing.

This image shows the self-cleaning mechanism in action, allowing for quick and hygienic removal of shed hair from the brush after each grooming session.

Troubleshooting

- **Bristles not extending/retracting:** Ensure the button is fully pressed. Check for any fur or debris obstructing the mechanism. Clean thoroughly if necessary.
- **Brush not collecting fur effectively:** Ensure you are brushing in the direction of hair growth. For very dense coats, multiple passes may be required. Check if the bristles are clean and free of matted fur.
- **Pet shows discomfort during brushing:** Use lighter pressure. Ensure the bristles are fully extended to avoid scratching the skin. Introduce grooming sessions gradually, starting with short periods and positive reinforcement.

Specifications

Feature	Detail
Package Dimensions	7.28 x 4.8 x 2.68 inches; 7.83 ounces
UPC	766429474371
