# What's in the box?

- 9.5" Portable DVD Player
- 3-in1 AV Cable
- AC Adapter
- Car Charger
- Remote Control
- User's Guides

**Figure 1: Package Contents.** The image displays the portable DVD player, remote control, AC power adapter, car charger, and AV cable, which are all included in the product package.

## PRODUCT OVERVIEW

---

Familiarize yourself with the various ports and controls of your portable DVD player.

# Multiple DVD Formats

**Figure 2: Side Panel Ports.** This image highlights the USB port, SD card slot, earphone port, AV OUT, AV IN, ON/OFF switch, and DC IN power port located on the side of the DVD player.

- **USB Port:** For connecting USB flash drives to play media files.
- **SD Card Slot:** For inserting SD cards to play media files.
- **Earphone Port (3.5mm):** For connecting headphones for private listening.
- **AV OUT:** Audio/Video output for connecting to an external display (e.g., TV, projector).
- **AV IN:** Audio/Video input for connecting external devices (e.g., another DVD player).
- **ON/OFF Switch:** Main power switch for the device.
- **DC IN:** Power input port for connecting the AC adapter or car charger.

## Break-Point Memory Function

Ensure you back to the last memory.

## Foldable & Rotatable Screen

**Figure 3: Foldable and Rotatable Screen.** The screen can rotate 270 degrees and flip 180 degrees, allowing for various viewing angles or folding into a tablet-like form factor.

The player features a 9.5-inch HD swivel screen that can rotate 270° and flip 180°, providing flexible viewing options. It also includes a break-point memory function, allowing playback to resume from where it was last stopped.

## SETUP

1. **Unpack:** Carefully remove all components from the packaging.
2. **Charge Battery:** Before first use, fully charge the internal battery using the provided AC power adapter. Connect the adapter to the DC IN port and a power outlet. The charging indicator light will typically show red while charging and turn green when fully charged.
3. **Power On:** Slide the ON/OFF switch to the "ON" position. Then, press the power button on the player or remote control to turn on the device.

## OPERATING INSTRUCTIONS

### Playing DVDs/CDs

1. **Open Disc Tray:** Gently press the "OPEN" button or latch to open the disc compartment.
2. **Insert Disc:** Place a compatible DVD or CD onto the spindle with the label side facing up. Ensure the disc is securely seated.
3. **Close Disc Tray:** Close the disc compartment until it clicks shut.
4. **Automatic Playback:** The player will automatically detect and begin playing the disc. If a menu appears, use the directional buttons on the player or remote to navigate and select your desired option.
5. **Supported Formats:** The player supports DVD, CD, DVD±R, CD-R(RW), SVCD-R(RW), DVD±RW, VCD. *Blu-ray discs are not supported.*

**Figure 4: Disc Insertion and Supported Formats.** The player supports various DVD and CD formats, and is region-free. The disc tray opens by pressing the 'OPEN' button.

## Playing Media from USB/SD Card

1. **Insert Storage Device:** Insert a USB flash drive into the USB port or an SD card into the SD card slot.
2. **Select Source:** Use the "MODE" button on the player or remote to switch to USB or SD mode.
3. **Browse Files:** Navigate through your files using the directional buttons and select the desired media file (VOB, AVI, MPEG, MP3, WMA, JPEG).

4. **Start Playback:** Press the "PLAY" button to begin playback.
5. **Compatibility Note:** Only supports 720\*480 resolution video files and 2650\*1440 resolution image files. *Does not support 1080P, 4K, or Blu-ray content.*

## Sync Screen to TV / External Display

To view content on a larger screen:

1. **Connect AV Cable:** Use the provided 3-in-1 AV cable. Connect one end to the AV OUT ports on the portable DVD player (Yellow for Video, White for Left Audio, Red for Right Audio).
2. **Connect to TV:** Connect the other end of the AV cable to the corresponding AV IN ports on your television or projector.
3. **Select TV Input:** On your TV, select the correct AV input source. The content from your portable DVD player will now be displayed on the external screen.

**Figure 5: Sync Screen to TV.** The portable DVD player can be connected to a television using the AV cable to display content on a larger screen.

## CHARGING AND BATTERY

The portable DVD player is equipped with a built-in Lithium Polymer battery, offering 4-6 hours of continuous playback.

- **AC Adapter:** Use the certified AC power adapter for charging at home or any standard power outlet.
- **Car Charger:** Use the high-quality car charger for convenient charging during car trips.
- **Battery Indicator:** Monitor the battery icon on the screen to check the charge level.

**Figure 6: Multiple Charging Options.** The portable DVD player can be charged via an AC adapter for home use or a car charger for on-the-go power, providing approximately 4-6 hours of battery life.

## MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior of the player. Do not use liquid cleaners or abrasive materials.
- **Disc Care:** Handle discs by their edges. Store them in their cases to prevent scratches. Clean dirty discs with a soft, lint-free cloth, wiping from the center outwards.
- **Storage:** When not in use for extended periods, store the player in a cool, dry place away from direct sunlight and extreme temperatures.

- **Battery Longevity:** To prolong battery life, avoid fully discharging the battery frequently. Charge it regularly, even if not in active use.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Player does not power on.	Battery is depleted; ON/OFF switch is off.	Charge the battery. Ensure the ON/OFF switch is in the "ON" position.
No disc detected.	Disc is dirty, scratched, or incompatible.	Clean the disc. Try a different, compatible disc. Ensure disc is inserted correctly.
No picture on TV when connected.	Incorrect AV cable connection; wrong TV input selected.	Verify AV cable connections (color-coded). Select the correct AV input on your TV.
No sound.	Volume too low; Mute function active; faulty headphones/speakers.	Increase volume. Deactivate Mute. Test with different headphones or check built-in speakers.
USB/SD card not recognized.	Incompatible file format; card/drive not properly inserted; corrupted files.	Ensure files are supported (VOB, AVI, MPEG, MP3, WMA, JPEG). Reinsert the device. Try a different USB/SD card.
