

ODDSAN 50x36

ODDSAN 50x36 LED Lighted Bathroom Mirror Instruction Manual

Brand: ODDSAN | Model: 50x36

1. INTRODUCTION

Thank you for choosing the ODDSAN 50x36 LED Lighted Bathroom Mirror. This manual provides essential information for the safe and efficient installation, operation, and maintenance of your new mirror. Please read these instructions thoroughly before installation and retain them for future reference.

Important Safety Information

- Always use caution when handling and installing the mirror.
- Consult a professional electrician for hardwired installation to ensure compliance with local electrical codes.
- Keep the anti-fog function on to prevent fogging and ensure clear visibility.
- Turn off the blue indicator light by holding the blue button when the anti-fog function is not in use.

2. PRODUCT FEATURES

The ODDSAN 50x36 LED Lighted Bathroom Mirror is designed with advanced features for enhanced functionality and aesthetic appeal:

- **Front and Backlit Design:** Provides ample illumination for makeup, shaving, and general grooming, creating a modern and luxurious bathroom ambiance.
- **3 Color Temperature Options:** Easily cycle through warm white (3000K), natural light (4500K), and cool white (6000K) by clicking the light button.
- **Dimmable Brightness:** Adjust the light intensity from bright to dim by pressing and holding the middle button, allowing for personalized lighting.

- **Anti-Fog Function:** Equipped with a defog film that heats the mirror surface, preventing fogging even in steamy bathrooms. Features an automatic 1-hour shut-off for energy efficiency.
- **Dual Power Options:** Can be powered via plug-in or hardwired installation, offering flexibility for various setups.
- **Shatter-Proof Tempered Glass:** Constructed from tempered glass, which is 5 times stronger than ordinary mirrors, ensuring safety and durability. It will not shatter into dangerous pieces if broken.
- **ETL Listed:** Certified for safety and quality standards.

4. SETUP & INSTALLATION

The ODDSAN LED mirror offers flexible installation options: plug-in or hardwire. For hardwired installation, it is recommended to consult a professional electrician.

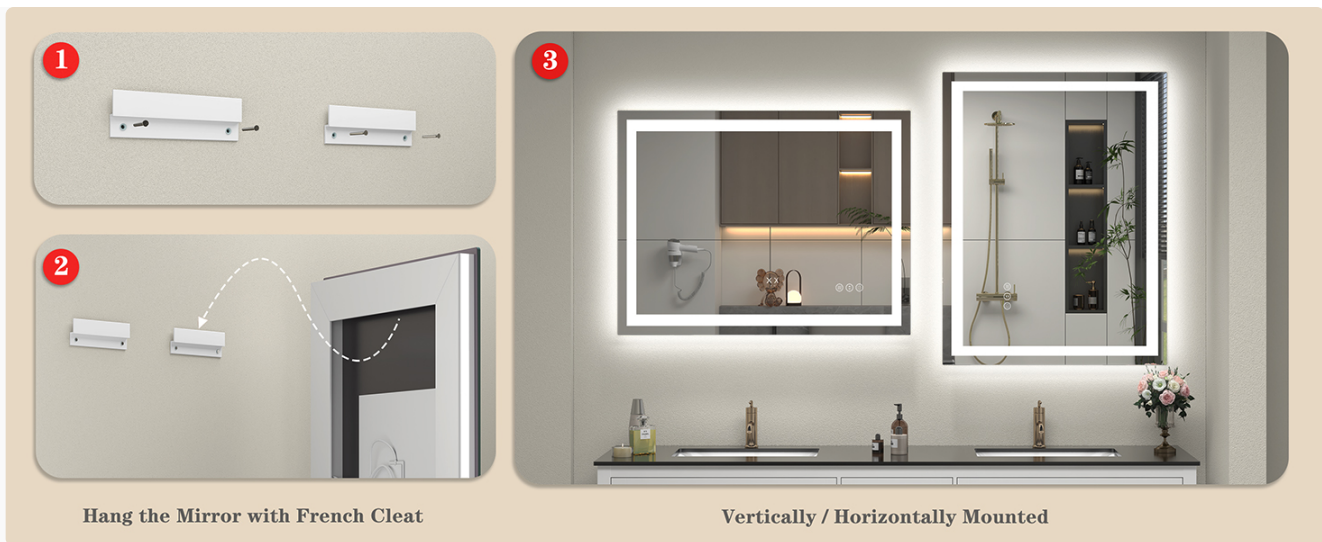

Installation Steps:

1. **Prepare the Wall:** Ensure the wall surface is clean, dry, and capable of supporting the mirror's weight. Identify the desired mounting location.
2. **Fix the Brackets:** Securely fix the two provided brackets horizontally on the wall using the screws. Ensure they are level and spaced appropriately for your mirror's dimensions.
3. **Hang the Mirror:** Carefully lift the mirror and align the long brackets on its back edge with the wall-mounted brackets. Gently lower the mirror until it is securely seated on the brackets.
4. **Connect Power:**

- **Plug-in:** Plug the mirror's power cord into a suitable electrical outlet.
- **Hardwire:** For hardwired connections, ensure power is turned off at the circuit breaker. Connect the mirror's wiring to your home's electrical system according to local codes. This step should be performed by a qualified electrician.

5. OPERATING INSTRUCTIONS

Your ODDSAN LED mirror features intuitive touch controls integrated directly into the mirror surface.

Controls:

- **Power Button (Rightmost):** Tap to turn the mirror lights On or Off.
- **Color Temperature Button (Middle):** Click to cycle through three color temperatures: warm white (3000K), natural light (4500K), and cool white (6000K).
- **Dimming Function:** Press and hold the middle button to adjust the brightness. The light will gradually brighten or dim. Release when the desired brightness is achieved.
- **Anti-Fog Button (Leftmost):** Tap to activate or deactivate the anti-fog function. The button will illuminate white when active and blue when inactive. The defogger automatically turns off after 1 hour.

6. MAINTENANCE

Proper care will ensure the longevity and optimal performance of your mirror.

Cleaning:

- Always turn off the power to the mirror before cleaning.
- Use a soft, damp cloth with a mild, non-abrasive glass cleaner.
- Avoid spraying cleaner directly onto the mirror's edges or electrical components. Apply cleaner to the cloth first.
- Wipe dry with a clean, lint-free cloth to prevent streaks.

General Care:

- Do not use harsh chemicals, abrasive cleaners, or sharp objects on the mirror surface.
- Ensure proper ventilation in the bathroom to minimize moisture buildup.

7. TROUBLESHOOTING

If you encounter any issues with your ODDSAN LED mirror, please refer to the following common troubleshooting steps:

- **Lights Not Turning On:**
 - Check if the mirror is properly plugged into the outlet or if the hardwire connection is secure.
 - Ensure the wall switch (if hardwired) is in the 'On' position.
 - Verify that the circuit breaker for the bathroom is not tripped.
- **Anti-Fog Not Working:**
 - Ensure the anti-fog button is pressed and illuminated white.
 - Allow a few minutes for the defogger to heat up and clear the mirror surface.
- **Lights Flickering or Dim:**
 - Check for loose connections if hardwired.
 - Ensure the dimming function is not set to its lowest level. Adjust brightness using the middle button.

If these steps do not resolve the issue, please contact ODDSAN customer support for further assistance.
