Deepsoon EASY TO USE

This image illustrates the simple four-step process for setting up and using the Deepsoon Electric Heating Pad: 1. Connect the controller to the pad. 2. Plug the power cord into an outlet. 3. Turn on the controller. 4. Set the desired timer.

5. OPERATING INSTRUCTIONS

To use your Deepsoon Electric Heating Pad:

1. Plug the power cord into a standard electrical outlet.
2. Turn on the heating pad using the ON/OFF switch on the controller.
3. Select your desired heat level (1-6) using the 'HEAT' button. The corresponding LED indicator will light up.
4. Set the desired timer (30, 60, 90, or 120 minutes) using the 'TIMER' button. The heating pad will automatically shut off after the selected time.
5. Position the heating pad on the area of your body requiring heat therapy.

This image provides a detailed diagram of the heating pad's controller, highlighting the power switch, heat setting buttons (1-6), and timer setting buttons (30, 60, 90, 120 minutes), along with their respective LED indicators.

Indications: Heat therapy is recommended for areas without acute inflammation (i.e., no redness or increased

warmth). Examples include chronic back and neck pain, chronic joint pain, muscle fatigue, and muscle spasms.

6. MOIST HEAT OPTION

For moist heat therapy, lightly mist the surface of the heating pad with a spray bottle. Do not soak the heating pad. Ensure the controller does not come into contact with water or other liquids.

This image demonstrates the process of applying moist heat therapy by lightly misting the heating pad with water from a spray bottle.

7. MAINTENANCE AND CLEANING

The Deepsoon Electric Heating Pad is designed for easy maintenance:

- Always unplug the main plug from the socket before cleaning.
- The heating pad is machine washable. Simply detach the power cord and place the pad in a washing machine.
- Wash at 30°C (86°F) underwater temperature.
- Immediately after washing, reshape the heating pad to its original size.

- Do not use a dryer. Hang it to air dry naturally, with the controller interface facing downwards.
- Ensure the product is absolutely dry before reassembling the unit and before next use.
- Do not iron or dry clean the heating pad.

8. TROUBLESHOOTING

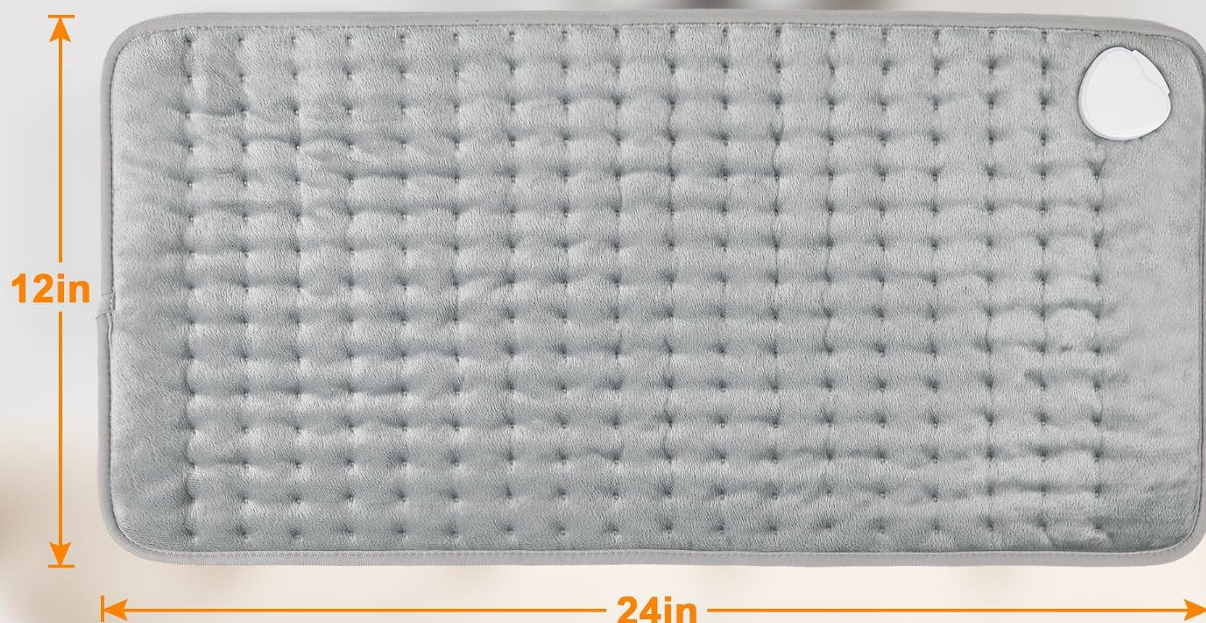

If you encounter issues with your heating pad, consider the following:

- **No Heat:** Ensure the power cord is securely plugged into both the wall outlet and the heating pad controller. Check if the ON/OFF switch is in the 'ON' position.
- **Insufficient Heat:** Verify that the heat setting is adjusted to a higher level. Allow a few minutes for the pad to reach the desired temperature.
- **Automatic Shut-Off:** The heating pad has a built-in 2-hour auto shut-off feature. If it turns off unexpectedly, it may have reached its timed limit. Simply restart it if further use is desired.

- **Controller Malfunction:** If the controller lights are not functioning or buttons are unresponsive, unplug the unit and plug it back in after a few minutes. If the issue persists, contact customer support.
