GMK Baby 3SM

GMK Baby Monitor with Camera and Audio

User Manual

Introduction

This manual provides detailed instructions for the setup, operation, and maintenance of your GMK Baby Monitor. Please read this manual thoroughly before using the product to ensure proper function and safety. Keep this manual for future reference.

Package Contents

- Baby Camera Unit
- Parent Monitor Unit (4.3" Screen)
- Power Adapters (x2)
- Mounting Kit (screws and wall anchors)
- User Manual

Safety Information

To reduce the risk of fire, electric shock, or injury, always follow basic safety precautions when using electrical appliances.

- Keep the monitor and camera units out of reach of children.
- Do not place the camera or cords within 3 feet (1 meter) of the crib or playpen.
- Use only the provided power adapters.
- Do not expose the units to water or moisture.
- Avoid placing the units near heat sources or direct sunlight.
- Ensure proper ventilation; do not cover the units.

Setup

1. Camera Placement

Place the baby camera unit on a flat surface or mount it to a wall/ceiling using the provided kit. Ensure a clear, unobstructed view of the desired monitoring area. Keep the camera at least 3 feet (1 meter) away from the baby's crib to prevent entanglement with cords.

The camera can be used at home with the monitor or on-the-go with the smartphone app.

2. Power Connection

Connect the power adapters to both the camera unit and the parent monitor unit, then plug them into a power outlet. The units will power on automatically.

Ensure both units are properly connected to power.

3. App Installation and Connection (Optional)

For remote monitoring and advanced features, download the companion app from your smartphone's app store (iOS/Android). Follow the in-app instructions to pair your camera with your smartphone via 2.4GHz WiFi.

The system supports both local monitor viewing and remote app viewing.

Operating Instructions

Parent Monitor Overview

Key features and controls of the GMK Baby Monitor system.

1. Camera Control (Pan-Tilt-Zoom)

Use the directional buttons on the parent monitor or the app to remotely pan (355°), tilt (140°), and zoom (up to 4x) the camera lens to get a full view of the room.

Remote control allows for comprehensive room coverage.

2. Two-Way Talk

Press and hold the microphone button on the monitor or use the intercom feature in the app to speak to your baby. The camera unit has a built-in speaker.

Communicate with your baby from another room or remotely via the app.

The monitor supports voice changing features for playful interaction.

3. Night Vision

The camera automatically switches to infrared night vision in low-light conditions, providing a clear black-and-white image.

Clear monitoring even in complete darkness.

4. Lullabies

Select from multiple pre-programmed lullabies to soothe your baby. Control playback from the parent monitor or the app.

5. Temperature & Humidity Monitoring

The camera unit includes sensors to monitor the room's temperature and humidity, displayed on the parent monitor and in the app. Alerts can be set for readings outside a comfortable range.

Monitor the nursery environment for optimal comfort.

6. Motion & Cry Detection

The monitor can detect motion and sound (crying) and send alerts to your parent unit or smartphone. Sensitivity levels can be adjusted.

Receive alerts for significant activity or sounds.

7. Adjustable Night Light

The camera unit features an adjustable RGB night light. Control colors and brightness from the monitor or app to create a soothing environment.

Customize the night light to suit your baby's needs.

8. Storage Options

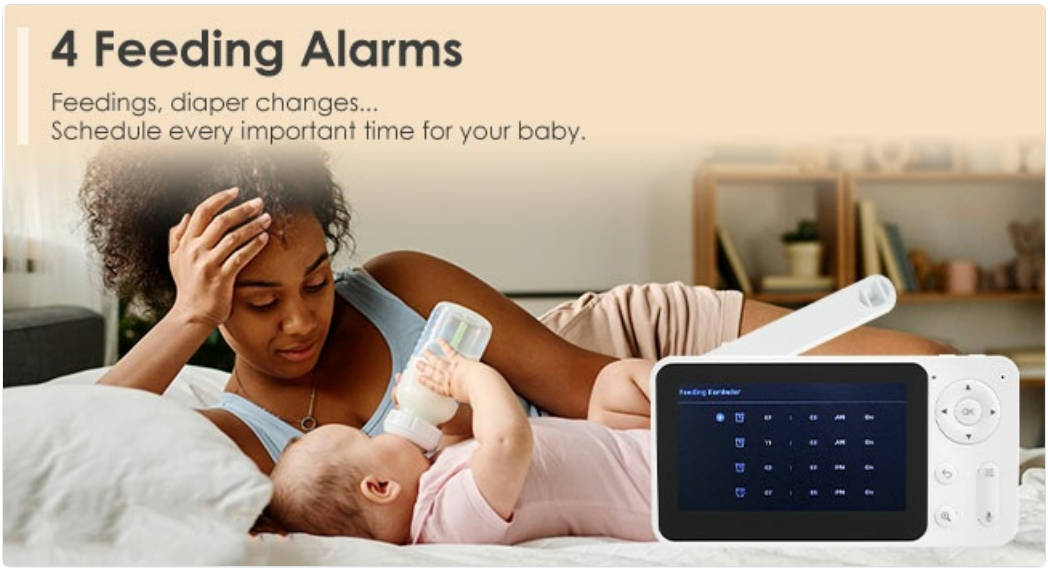

The monitor supports local recording to a Micro SD card (not included) for 24/7 recording. It also offers free 7-day rolling cloud storage for event-triggered recordings.

Choose your preferred method for recording and reviewing footage.

9. Feeding Alarms

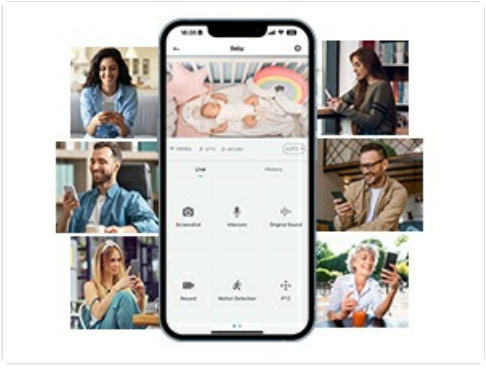

Set up to four feeding alarms on the parent monitor to help you keep track of feeding times, diaper changes, or other important schedules.

Convenient reminders for your baby's routine.

10. Multi-User Access & Privacy

Share access to the camera feed with family members through the app. The system employs multi-encryption technology to protect your privacy and data security.

Securely share monitoring access with trusted individuals.

Maintenance

Cleaning

Wipe the camera and monitor units with a soft, dry cloth. Do not use abrasive cleaners or solvents. Ensure units are unplugged before cleaning.

Storage

If storing the unit for an extended period, ensure it is clean and dry. Store in a cool, dry place away from direct sunlight.

Troubleshooting

Problem	Possible Cause	Solution
No image/sound on monitor	Units not powered on; out of range; not paired.	Ensure both units are plugged in and powered. Move monitor closer to camera. Re-pair units if necessary (refer to pairing instructions in app).
Poor image quality	Low light; camera lens dirty; weak signal.	Ensure adequate lighting or check night vision. Clean camera lens. Reduce distance between units or remove obstructions.
App not connecting	Incorrect WiFi password; 5GHz WiFi; camera offline.	Verify WiFi password. Ensure your router is broadcasting 2.4GHz WiFi. Restart camera and router.
Temperature/Humidity readings inaccurate	Sensor obstructed; placed near heat/cold source.	Ensure sensor area on camera is clear. Relocate camera away from direct heat or cold sources (e.g., windows, vents).

Specifications

Feature	Detail
Model Number	Baby 3SM
Camera Resolution	1080P (2 MP)
Monitor Screen Size	4.3 inches
Pan Angle	355°
Tilt Angle	140°
