Initial Cleaning:

1. Remove the frothing whisk from the bottom of the interior.
2. Wash the interior of the frother and the whisk with warm, soapy water using the provided cleaning brush.
3. Rinse thoroughly and dry completely.
4. Wipe the exterior with a damp cloth. **Do not immerse the main unit or its base in water.**
5. Reinsert the frothing whisk into the bottom of the frother.

3. OPERATING INSTRUCTIONS

The Raflow Milk Frother features a simple one-button operation to select your desired milk preparation mode.

Steps for Use:

1. Pour milk into the frother. Observe the MAX/MIN lines inside for appropriate quantities based on your desired function (frothing or heating). For best frothing results, use whole milk with a fat content greater than 3%.
2. Place the lid securely on the frother.
3. Press the power button once to turn on. The indicator light will illuminate.
4. Press the power button repeatedly to cycle through the 4 modes until your desired setting is selected. The corresponding indicator light will show the active mode.
5. The frother will automatically stop when the process is complete.

Frothing Modes:

- **Hot Dense Milk Froth:** Ideal for rich cappuccinos.

5. TROUBLESHOOTING

If you encounter any issues with your Raflow Milk Frother, please refer to the following common troubleshooting tips:

- **Frother not turning on:** Ensure the unit is properly plugged into a working power outlet. Check for any loose connections.
- **Milk not frothing or heating properly:** Verify that the correct frothing whisk is installed for the desired function. Ensure milk levels are within the MAX/MIN markings. Use fresh, cold whole milk (fat content > 3%) for best frothing results.
- **Excessive noise during operation:** Check that the frothing whisk is securely attached and not obstructed. Ensure the lid is properly closed.
- **Milk overflowing:** Do not exceed the maximum fill line for frothing or heating.
- **Burnt smell or residue:** Clean the interior thoroughly after each use to prevent milk residue buildup. Ensure the

frother is not operated without milk.

If the problem persists, please contact customer support for further assistance.
