› Car Sun Visor Vanity Mirror with 3 Light Modes & 80 LEDs - User Manual

Vanexiss VN03

Car Sun Visor Vanity Mirror User Manual

Brand: Vanexiss | Model: VN03

1. PRODUCT OVERVIEW

The Vanexiss Car Sun Visor Vanity Mirror is designed to provide convenient and effective lighting for personal grooming within your vehicle. It features advanced LED technology with multiple light modes and dimming capabilities, powered by a long-lasting rechargeable battery.

2. WHAT'S IN THE BOX

- Car Sun Visor Vanity Mirror
- USB Cable

3. KEY FEATURES

- **Dimmable Color LED Lights:** Features 3 color lighting modes (cool white, warm yellow, and a combination) and a stepless dimming function for adjustable brightness.
- **USB Rechargeable:** Built-in 2000 mAh lithium battery, rechargeable via car, socket, computer, or mobile power. Provides up to 8 hours of use at 100% brightness.
- **Smart Double Touch Control Design:** Two touch sensors for easy power on/off and switching between light colors. Long press to adjust brightness. Includes memory function for last-used settings.
- **Universal Size Design:** Measures 8(L) x 5(W) x 0.35(H) inches, suitable for most car sun visors. Compact and lightweight.

4. SETUP AND INSTALLATION

The Vanexiss Car Sun Visor Vanity Mirror is designed for quick and secure installation using its integrated straps.

1. Unpack the mirror and included USB cable.
2. Locate your vehicle's sun visor.
3. Position the mirror against the sun visor. The mirror is designed to be thin and not obstruct the visor's function.
4. Secure the mirror to the sun visor using the adjustable Velcro straps on the back of the mirror. Ensure the straps are tightened to prevent movement.
5. The mirror can be folded up with the sun visor when not in use.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off and Light Mode Selection

The mirror features two touch sensors on its surface for control.

- To turn the mirror **ON** or **OFF**, simply touch either of the two circular touch switches.
- To switch between the three light colors (cool white, warm yellow, and a combination), tap the touch switches.

5.2 Brightness Adjustment (Stepless Dimming)

To adjust the brightness of the lights:

- **Long press** either of the touch switches. The brightness will gradually increase or decrease. Release your finger when the desired brightness level is reached.
- The mirror's memory function will recall the last brightness and color setting used when turned on again.

5.3 Charging the Mirror

The mirror is equipped with a built-in rechargeable battery.

- Connect the provided USB cable to the mirror's charging port.
- Plug the other end of the USB cable into a compatible power source such as a car USB port, wall adapter, computer, or power bank.
- A red light indicates charging, and a blue light indicates a full charge.
- A full charge provides approximately 8 hours of continuous use at 100% brightness.

USB RECHARGEABLE BATTERY

Charging Time: 2 hours

Charging: red light

Charge Finish: blue light

Battery Life: Up to 8 Hours

100% brightness when always On mode

6. MAINTENANCE

To ensure the longevity and optimal performance of your Vanexiss Car Sun Visor Vanity Mirror, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, lint-free cloth to clean the mirror surface. For smudges, a small amount of glass cleaner can be applied to the cloth (not directly to the mirror) and wiped gently. Avoid abrasive cleaners or materials that could scratch the surface.
- **Storage:** When not in use for extended periods, ensure the mirror is fully charged and stored in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To maintain battery health, avoid completely draining the battery frequently. Recharge it when the lights dim significantly.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Mirror not turning on.	Battery is depleted.	Charge the mirror using the provided USB cable. Ensure the charging indicator light turns red.
Lights are dim or flickering.	Low battery or incorrect brightness setting.	Recharge the mirror. Long press the touch sensor to increase brightness.
Touch controls are unresponsive.	Temporary software glitch or dirty sensor.	Ensure hands are clean and dry. Gently wipe the touch sensors with a clean, dry cloth. If unresponsive, try charging the device.
Mirror does not stay securely on visor.	Straps are loose or incorrectly attached.	Re-adjust and tighten the Velcro straps firmly around the sun visor.

8. SPECIFICATIONS
