Serta Perfect Sleeper Ultimate 14.5-inch Twin Mattress User Manual

Model: 500103073-1010

Introduction

The Serta Perfect Sleeper Ultimate 14.5-inch Twin Mattress is designed to provide consistent, restful sleep for all sleep preferences. This mattress incorporates zoned support, contouring memory foams, and a cooling cover to ensure comfortable sleep. This manual provides essential information for the proper setup, use, and care of your new mattress.

Setup Instructions

1. **Unpacking:** Your mattress will be delivered. Carefully remove any packaging materials.
2. **Placement:** Place the mattress on a suitable foundation. Compatible foundations include traditional frames, box springs, platform frames with slats no more than 2 inches apart, or adjustable bases.
3. **Expansion and Airing Out:** Allow one week of use for your mattress to fully expand and for any new product odors to dissipate. This period also allows the mattress to reach its maximum comfort level.

Key Features and Operation

The Serta Perfect Sleeper Ultimate mattress incorporates several advanced features for enhanced comfort and support:

- **Cool Twist Gel Memory Foam:** This unique design features cooling gel swirled into premium memory foam. This breathable memory foam helps enhance airflow and heat dissipation for a cool, contouring comfort.
- **PillowSoft Aire Soft Foam:** A 1-inch layer of Serta's PillowSoft Aire Soft Foam provides enhanced cushioning and promotes airflow through its unique, gently rippling design.
- **3-Zoned Coil Design:** An 850-coil density system offers three support zones with targeted support for your lower back and hips, and cradled comfort everywhere else.
- **BestEdge Foam Encasement Technology:** This feature provides an extra-deep foam rail to help reduce edge roll-off and extend the sleep surface, ensuring consistent support across the entire mattress.

Maintenance and Care

- **Mattress Protector:** To protect your mattress from stains and spills and to extend its lifespan, it is highly recommended to use a mattress protector.
- **Cleaning Spills:** We do not recommend applying liquids directly to your mattress. For soiled areas, apply baking soda and let it stand for approximately 15 minutes. Then, vacuum the area. Repeat as needed. Ensure the product is aired out as much as possible after cleaning.
- **Avoid Liquids and Chemicals:** Applying liquids or harsh chemicals directly to the mattress may stain the fabric, worsen the soiled area, and can cause premature breakdown of the foam, potentially damaging the product.

Troubleshooting

New Mattress Odor:

It is common for new mattresses to have a slight odor upon unboxing. Please allow one week of use for your

mattress to air out. This process, known as off-gassing, is normal and the odor will dissipate over time.

Initial Firmness/Comfort:

Your new mattress may feel firmer than expected initially. Allow approximately one week for the mattress to break in and conform to your body, reaching its intended comfort level.
