YUHAO 44 Inch Ceiling Fan Instruction Manual

Model: DY1176-5B/44

INTRODUCTION

Thank you for choosing the YUHAO 44 Inch White Ceiling Fan. This manual provides detailed instructions for the safe and efficient installation, operation, and maintenance of your new ceiling fan. Please read all instructions carefully before beginning installation and retain this manual for future reference.

IMPORTANT SAFETY INFORMATION

Always follow basic safety precautions when installing and operating electrical appliances. This section outlines critical safety guidelines to prevent injury or damage.

- Ensure power is disconnected at the circuit breaker before installation or servicing.
- All wiring must be in accordance with national and local electrical codes.
- Consult a qualified electrician if you are unsure about wiring or installation.
- Mount the fan to a ceiling outlet box marked "Acceptable for Fan Support of 35 lbs (15.9 kg) or less."
- Ensure fan blades are installed at least 7 feet (2.1 meters) from the floor.
- Do not operate the fan if any part is damaged.

WHAT'S IN THE Box

Verify that all components are present before beginning installation:

- Ceiling Fan Motor Housing
- Fan Blades (5, reversible white/wood)

- LED Light Kit
- Remote Control with Wall Mount Bracket
- Mounting Hardware (screws, washers, wire nuts)
- Instruction Manual

SPECIFICATIONS

Feature	Description
Brand	YUHAO
Model Number	DY1176-5B/44
Size	44 Inch
Color	White
Motor Type	DC Motor (Energy Efficient, Noiseless)
Light Source	24W Replaceable LED (2000 Lumens Max)

Color Temperatures	3000K (Warm), 4000K (Natural), 6500K (Cool White)
Brightness Adjustment	0% - 100% Dimmable
Fan Speeds	6 Speeds
Reversible Motor	Yes (Summer/Winter Mode)
Control Method	Remote Control
Noise Level	Less than 25 decibels
Power Source	DC
Dimensions	44"L x 44"W x 14"H

SETUP AND INSTALLATION

Detailed installation videos are available in the product image area on Amazon. Please refer to these videos for visual guidance.

1. Prepare for Installation: Ensure power is off at the circuit breaker. Clear the installation area.

2. Assemble Fan Body:

- Remove screws from the motor housing.
- Install and secure the downrod (neck) of the fan to the motor housing.
- Attach the decorative covers to the downrod.

Your browser does not support the video tag.

Video: Installation steps for assembling the fan motor and downrod. This video demonstrates how to remove screws, attach the downrod, and secure the covers.

3. Mount to Ceiling:

- Install the mounting bracket to the ceiling electrical box.
- Slide the assembled fan unit onto the mounting bracket.
- Connect the fan's wires to the receiver, then connect the receiver to the household wiring. Ensure all connections are secure and covered with wire nuts.
- Secure the base cover (canopy) into place over the mounting bracket.

Image: Remote control diagram showing all functions for easy control.

4. **Attach Fan Blades:** Use the provided washers and screws to securely attach each of the five fan blades to the motor housing. The blades are reversible, offering a white or wood grain finish.
5. **Install LED Light Kit:** Connect the LED light kit to the fan's wiring and secure it to the bottom of the motor housing.

OPERATING INSTRUCTIONS

Your YUHAO ceiling fan is controlled entirely by the included remote control. Ensure batteries are installed in the remote.

- **Power On/Off:** Use the main power button on the remote to turn the fan on or off.
- **Fan Speed:** Select from 6 different fan speeds (1-6) to adjust airflow.
- **Light Control:**
 - **Light On/Off:** Separate buttons for turning the light on and off.
 - **Color Temperature:** Cycle through 3 color temperatures: Warm (3000K), Natural (4000K), and Cool White (6500K).
 - **Brightness Adjustment:** Use the '+' and '-' buttons to dim the light from 100% down to 0%.

- **Reversible Motor:** Use the forward/reverse button on the remote to switch between summer mode (downward airflow for cooling) and winter mode (upward airflow for heat distribution).
- **Timer Settings:** Set the fan to automatically turn off after 1, 3, or 6 hours using the dedicated timer buttons.
- **Quiet Operation:** The DC motor ensures quiet operation, ideal for comfortable sleeping environments.

100%-20% SMOOTH DIMMABLE

Brightness could adjustable by dimmer,no flashing,no noise

Image: Demonstration of the smooth dimmable light feature, adjustable from 100% to 20% brightness.

MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your ceiling fan.

- Cleaning:** Use a soft, damp cloth to clean the fan blades and motor housing. Do not use abrasive cleaners or solvents.
- Blade Balance:** If the fan wobbles, check that all blade screws are tightened. Ensure blades are not bent or damaged.
- Light Source Replacement:** The LED light source is replaceable. Refer to the specifications for the correct wattage and type (24W LED).

TROUBLESHOOTING

Problem	Possible Cause	Solution

Fan does not operate	No power to the fan; loose wiring; remote control issue.	Check circuit breaker. Ensure all wiring connections are secure. Replace remote batteries.
Fan wobbles	Loose blade screws; unbalanced blades; improper mounting.	Tighten all blade screws. Check blade balance. Re-secure mounting bracket.
Light does not work	Loose light kit wiring; faulty LED module.	Check light kit wiring connections. Contact customer service for LED module replacement.
Remote not responding	Dead batteries; remote not paired.	Replace remote batteries (2 AAA included). Refer to remote pairing instructions in the full manual (if applicable).

WARRANTY AND CUSTOMER SUPPORT

Your YUHAO ceiling fan comes with a Limited Warranty. For any issues or damaged parts, please contact YUHAO customer service directly.

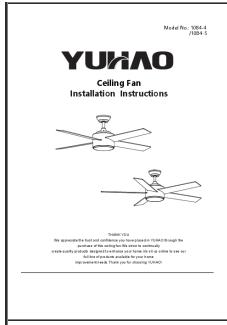

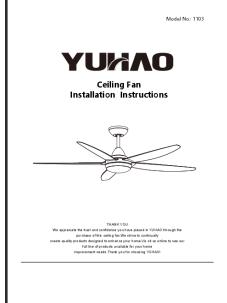

To contact the seller: Find your ceiling fan from your Amazon order, click on "Get Product Support," and explicitly state that you need to contact the seller, not the Amazon team. We aim to reply to your message within 24 hours.
