Domi 14'x24' Gray Hardtop Gazebo with Double Roof Steel Instruction Manual

Model: LGMF1643-G | Brand: domi outdoor living

1. INTRODUCTION AND SAFETY INFORMATION

This manual provides essential instructions for the safe assembly, operation, and maintenance of your Domi 14'x24' Gray Hardtop Gazebo. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

Important Safety Precautions:

- Always assemble this gazebo on a stable, level surface.
- Use the pre-drilled bases to secure each post to the ground using appropriate anchoring hardware (not included).
- Exercise caution during assembly and disassembly to prevent injury. It is recommended that at least 2-3 people assist with assembly.
- Do not hang items exceeding 20 lbs from the roof hooks.
- Keep the gazebo clean and free of debris to prevent fire hazards.
- Always follow the manufacturer's instructions for proper use and maintenance.
- Consult your local city regulations regarding the installation of such structures.
- Avoid installing the gazebo on steep slopes or at high elevations, as this may lead to instability and accidents.

2. PRODUCT FEATURES

The Domi 14'x24' Hardtop Gazebo is designed for durability and comfort, offering a versatile outdoor space.

- **Spacious Design:** Measures 24' L X 14' W x 10.5' H, providing 336 square feet of coverage, suitable for large gatherings.
- **Sturdy Aluminum Frame:** Constructed with powder-coated aluminum, resistant to fading, rust, and corrosion. Features 4.72"x4.72" aluminum stand poles with pre-drilled bases for secure anchoring. Designed to withstand wind ratings up to 40 MPH.
- **Double Roof with Gutter System:** Ventilated double-layer roof enhances air circulation and provides cool comfort. The sloped roof and integrated gutter system ensure efficient rainwater drainage, preventing accumulation.
- **Integrated Mosquito Netting and Privacy Curtains:** Features double-sided zippers for easy access. The netting maintains good ventilation and an open view while keeping insects out. Privacy curtains offer a secluded and comfortable space.
- **All-Weather Durability:** Strong enough to withstand up to 2500 lbs of snow, making it suitable for various weather

conditions.

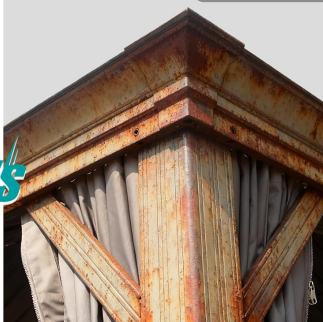

- **Ceiling Hooks:** Integrated hooks for hanging lights, fans, or decorative items.
- **Stainless Steel Screws:** Utilizes stainless steel screws to prevent rusting and extend product lifespan.

Why Settle for Less? Choose All-Aluminum

Domi's ✓

DOMI'S Hardtop Gazebo

Q

A

What preparations do I need to make before purchasing this product?

Please consult your local city whether it allows you to install such structures.

Q

A

Can this structure be installed on a slope?

No. Please avoid installing the gazebo at high places or on the slope, as this may lead to severe accidents.

Q

A

How should I maintain it?

We recommend regularly removing snow from the roof and taking protective measures during high winds based on its rated wind speed.

Q

A

Does it come with installation instructions? Can I install this product on my own?

The installation instructions are included with your purchase (in the box). We recommend enlisting the help of 2-3 people for assembly.

3. PACKAGE CONTENTS

Your Domi Hardtop Gazebo is shipped in multiple boxes. Please refer to the separate assembly guide included in your package for a detailed list of all parts and hardware. Before beginning assembly, verify that all components are present and undamaged.

4. SETUP AND ASSEMBLY

Detailed, step-by-step assembly instructions are provided in the dedicated assembly manual. Please follow those instructions carefully. The following are general guidelines:

- **Team Assembly:** We recommend enlisting 2-3 people for assembly to ensure safety and efficiency.
- **Preparation:** Clear the assembly area of any obstructions and ensure the ground is level. Organize all parts and hardware according to the assembly guide.
- **Initial Fastening:** During the initial stages of assembly, keep all bolts and nuts loosely fastened. This allows for minor adjustments and alignment of parts. Tighten all fasteners securely only after the entire structure is properly aligned and assembled, as indicated in the assembly guide.
- **Anchoring:** Once assembled, securely anchor the gazebo to the ground using the pre-drilled bases on each post. Appropriate anchoring hardware for your specific ground type (e.g., concrete, wood deck) must be purchased separately.

5. OPERATING INSTRUCTIONS

Your gazebo is designed for ease of use and adaptability to various outdoor conditions.

- **Double Roof Ventilation:** The double-layer roof design allows for enhanced air circulation, helping to dissipate heat and maintain a comfortable temperature underneath the gazebo, especially on sunny days.
- **Gutter System:** The integrated gutter system directs rainwater away from the main structure and down the poles, preventing water accumulation on the roof and ensuring a dry space below.
- **Curtains and Netting:** The gazebo includes both mosquito netting and privacy curtains. These can be easily opened or closed using the double-sided zippers. The netting provides protection from insects while maintaining visibility, while the curtains offer privacy and additional shade.
- **Ceiling Hooks:** Utilize the ceiling hooks to hang outdoor lighting, decorative elements, or a lightweight fan for added comfort. Ensure any hung items do not exceed the 20 lbs weight limit.

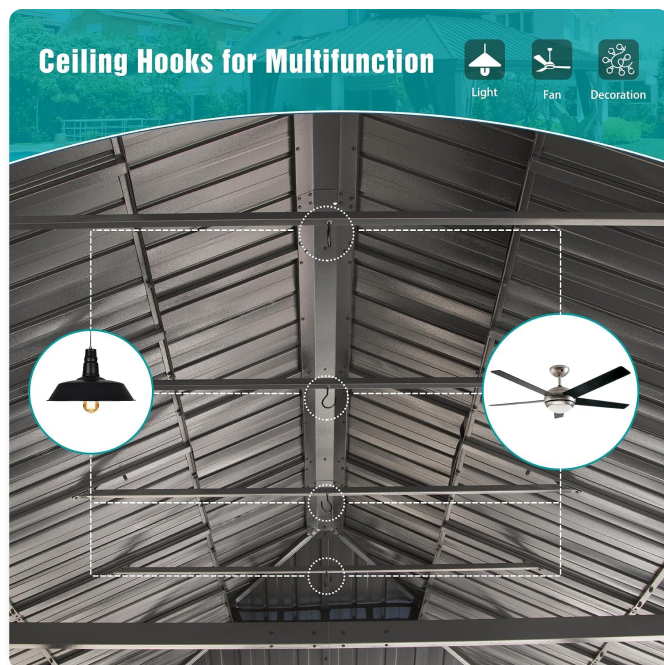

Image 5.3: Ceiling hooks for added functionality.

HOOK DESIGN

You can hang up lights, fans, and decorations.

Image 5.4: Widened belts for securing curtains and netting.

6. MAINTENANCE

Proper maintenance will extend the life and appearance of your gazebo.

- **Cleaning:** Regularly clean the aluminum frame and steel roof with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the finish. Rinse thoroughly with clean water.
- **Fabric Care:** The mosquito netting and curtains can be spot cleaned with mild soap and water. For deeper cleaning, follow care instructions on the fabric tags. Ensure they are completely dry before storing to prevent mildew.
- **Snow Removal:** While the gazebo is designed to withstand up to 2500 lbs of snow, it is recommended to regularly remove heavy snow accumulation from the roof to prevent structural stress and potential damage. Use a soft brush or broom to avoid scratching the roof panels.
- **Wind Protection:** During high winds, secure the curtains and netting using the provided ties or remove them if extreme weather is expected.
- **Seasonal Inspection:** Periodically inspect all bolts, nuts, and connections to ensure they remain tight. Re-tighten as necessary. Check for any signs of wear or damage to the frame or roof panels and address them promptly.

Image 6.1: Gazebo designed to withstand snow, but regular removal is recommended.

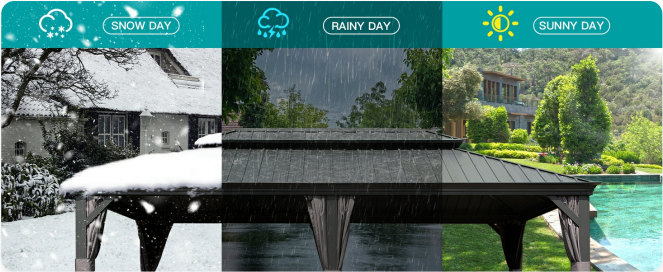

Image 6.2: Gazebo's waterproof design ensures protection during rain.

7. TROUBLESHOOTING

This section addresses common issues you might encounter.

Problem	Possible Cause	Solution
Water accumulation on roof	Debris blocking gutters; improper roof panel installation.	Clear gutters of debris. Inspect roof panels for correct overlap and sealing; apply silicone sealant if necessary.
Gazebo feels unstable or wobbly	Loose fasteners; inadequate anchoring; uneven ground.	Ensure all bolts and nuts are securely tightened. Verify proper anchoring to the ground. Confirm the installation surface is level.
Curtains/netting do not slide smoothly	Track obstruction; fabric caught in zipper.	Clean tracks of dirt or debris. Carefully free any fabric caught in zippers. Apply a silicone-based lubricant to tracks if needed.
Small gaps in mosquito netting	Minor manufacturing variation; improper alignment during installation.	Ensure netting is fully zipped and properly aligned. While minor gaps may exist, the netting is designed to provide substantial insect protection.

For further assistance, please refer to the contact information in the Support section.

WIDENED BELTS

Curtains and netting can be stowed away on windy days.
