AONCIA AC-CFL020-A

AONCIA E26 Mini LED Ceiling Fan Light Instruction Manual

Model: **AC-CFL020-A** | Brand: **AONCIA**

1. Introduction

Thank you for purchasing the AONCIA E26 Mini LED Ceiling Fan Light. This product is designed to provide both illumination and air circulation in a compact, energy-efficient unit. It features advanced controls for customizable comfort and convenience.

- **Integrated Design:** Combines an LED light and a fan in one compact unit, ideal for small spaces.
- **Advanced Remote Control:** Utilizes a 2.4G remote for omnidirectional operation, offering improved sensitivity and range compared to traditional infrared models.
- **Customizable Lighting:** Offers 10 levels of dimming and color temperature adjustment (from 2700K warm white to 6500K cool white).
- **Adjustable Airflow:** Features 3 fan speed settings to provide a gentle, comfortable breeze.
- **Memory Function:** Automatically recalls the last light and fan settings after 15 seconds of power-off via wall switch.
- **Timer Function:** Includes a 30-minute timer for automatic shut-off of both light and fan.
- **Adjustable Angle:** The fan head can be manually adjusted up to 180 degrees vertically and 300 degrees horizontally.
- **Easy Maintenance:** The front guard is removable for simple cleaning.
- **Energy Efficient:** Low power consumption, with the light using only 15W at maximum brightness and the fan using 4W.

2. Setup

2.1 Installation

The AONCIA E26 Mini LED Ceiling Fan Light is designed for easy, tool-free installation into a standard E26 socket. Simply screw the unit into the socket like a regular light bulb.

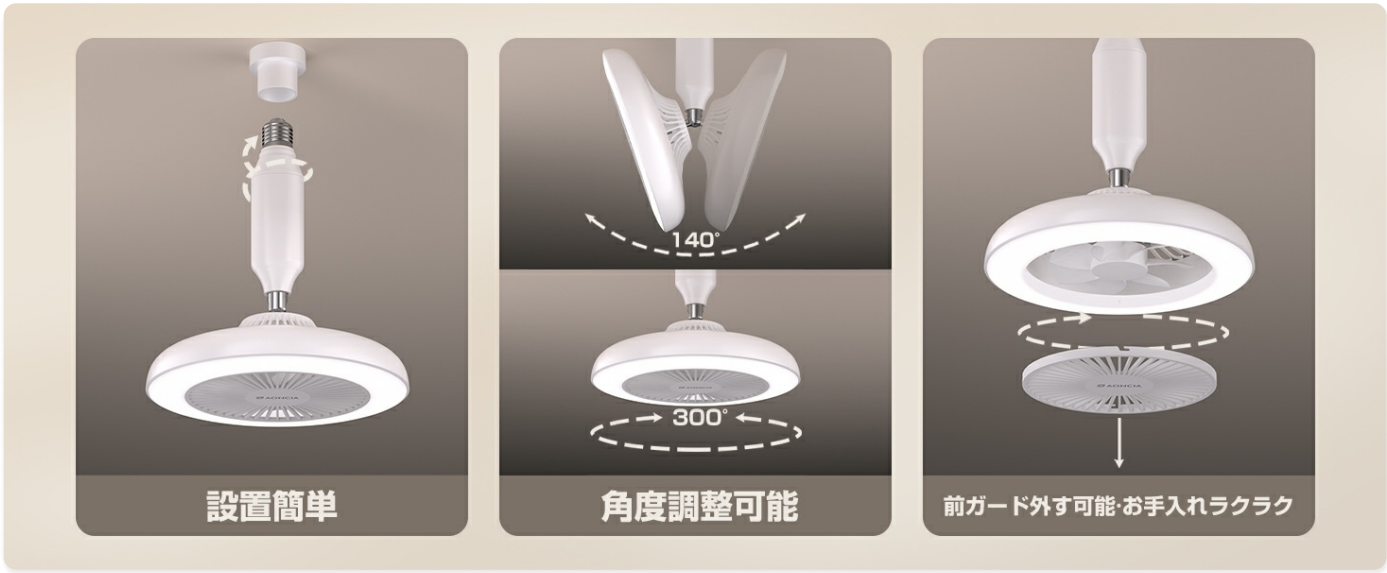

Figure 2.1: Easy installation into an E26 socket. The image also illustrates the adjustable angle and removable front guard.

2.2 Remote Control Pairing

For first-time use, the remote control may not respond immediately. Follow these steps to pair the 2.4G remote with the fan light:

1. Ensure the wall switch for the fan light is in the OFF position.
2. Turn the wall switch to the ON position to power on the fan light.
3. Within 10 seconds of turning on the light, press and hold the center button on the remote control.
4. The light will blink twice, indicating successful pairing. The remote control can now be operated normally.
5. If pairing fails, remove and reinsert the batteries in the remote, then repeat steps 1-3.

3. Operating Instructions

3.1 Light Control

Use the remote control to adjust the light settings. You can choose from three color temperatures and 10 levels of brightness.

- **Color Temperature:** Select between Daylight (6500K), Neutral White (4500K), and Warm White (2700K) to suit your environment.
- **Brightness Adjustment:** Adjust the LED brightness in 10% increments across 10 levels, from 10% to 100%.

Figure 3.1: Light color and dimming options. The light offers 3 color temperatures and 10 brightness levels.

3.2 Fan Control

The fan offers three speed settings to provide optimal airflow for your comfort.

- **Fan Speed:** Choose from 3 levels of airflow. The highest setting includes a 'Turbo Air' mode for maximum circulation.

Figure 3.2: Fan speed adjustment. The fan features 3 speed settings, including a powerful 'Turbo Air' mode.

3.3 Remote Control Usage

The included 2.4G remote control allows for comprehensive operation of both the light and fan functions from any direction, without needing to point directly at the unit.

Figure 3.3: 2.4G Remote Control. The remote offers omnidirectional control for all light and fan functions.

3.4 Angle Adjustment

The fan head can be manually adjusted to direct airflow precisely where needed. It offers approximately 180 degrees of vertical adjustment and 300 degrees of horizontal adjustment.

3.5 Memory Function

The fan light is equipped with a memory function. If the wall switch is turned off and then back on after 15 seconds, the unit will resume the last used light and fan settings.

Figure 3.5: Memory Function. The device remembers your last settings for convenience.

3.6 Timer Function

A 30-minute timer can be set via the remote control. After the set time, both the LED light and the fan will automatically turn off, helping to conserve energy.

Figure 3.6: Timer Function. Set the light and fan to automatically turn off after 30 minutes.

4. Maintenance

To ensure optimal performance and longevity of your AONCIA E26 Mini LED Ceiling Fan Light, regular cleaning is recommended.

- **Cleaning the Fan:** The front guard of the fan is removable, making it easy to clean accumulated dust from the fan blades. Ensure the power is off before attempting to remove the guard or clean the unit.
- **General Cleaning:** Wipe the exterior of the unit with a soft, dry cloth. Do not use abrasive cleaners or solvents.

5. Troubleshooting

5.1 Remote Control Not Responding

If the 2.4G remote control does not respond, please follow the pairing procedure detailed in Section 2.2. If the issue persists:

1. Remove the batteries from the remote control.
2. Reinsert fresh batteries, ensuring correct polarity.
3. Repeat the pairing procedure (Section 2.2).

If the problem continues after these steps, please contact customer support.

6. Specifications

Feature	Specification
Brand	AONCIA
Model Number	AC-CFL020-A
Color	White
Electric Fan Design	Ceiling Fan
Power Source	AC
Style	Compact
Product Dimensions (D x W x H)	19 x 5.5 x 20.3 cm
Room Type	Bathroom, Living Room
Special Features	2.4G Remote Omnidirectional Operation, 3-Level Fan Speed Adjustment, Timer, Memory Function, Stepless Dimming/Color Adjustment
Mounting Type	E26 Socket
Controller Type	Button Control, Remote Control
Number of Speeds	3
Power Consumption (Watts)	19 W (Max Light + Fan)
Material	Polycarbonate
Item Weight	454 grams

Feature	Specification
Included Components	Holder, Remote Control, Instruction Manual
Country of Origin	China
