### Speed Queen DR7004BG

# Speed Queen ADA 7 Cu. Ft. Sanitizing Gas Dryer with Pet Plus

Model: DR7004BG

## PRODUCT OVERVIEW

---

The Speed Queen ADA 7 Cu. Ft. Sanitizing Gas Dryer with Pet Plus is designed for efficient and thorough drying, featuring a large capacity and advanced technologies. This appliance is built for durability and ease of use, incorporating commercial-grade components.

Front view of the Speed Queen ADA 7 Cu. Ft. Sanitizing Gas Dryer in Matte Black, showcasing the control panel and large door.

Key features include a 7.0 cu. ft. capacity, multiple preset and auto dry cycles, and an electronic touchpad control. The dryer's axial airflow design ensures optimal drying performance by balancing temperature, airflow, and mechanical action. It also includes a time remaining display, moisture sensing, an eco cycle, and an anti-wrinkle cycle.

## SAFETY INFORMATION

---

**WARNING:** This product can expose you to chemicals including Carbon Monoxide, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

Always read and follow all instructions in this manual before using the appliance to prevent potential hazards. Ensure

proper installation and ventilation as described in the setup section. Keep flammable materials away from the dryer. Do not store or use gasoline or other flammable vapors and liquids in the vicinity of this or any other appliance.

## SETUP AND INSTALLATION

---

Proper installation is crucial for the safe and efficient operation of your dryer. This gas dryer requires professional installation to ensure correct gas line connection and ventilation.

### Venting Options

The dryer supports 3-way or 4-way venting options, providing flexibility for installation in various laundry room configurations. Consult the detailed installation guide for specific instructions on ducting requirements and connections.

### LP Conversion

If converting from natural gas to LP gas, an LP Conversion Kit (SKU: 649P3) is available separately and must be installed by a qualified technician.

### Placement and Dimensions

Ensure adequate space for installation and ventilation. The dryer dimensions are approximately:

- **Depth:** 28 inches
- **Height:** 42-3/4 inches
- **Width:** 26-7/8 inches

The dryer operates on 120V electrical supply.

## OPERATING INSTRUCTIONS

---

Your Speed Queen dryer offers a variety of cycles and features to meet your drying needs. The electronic touchpad control provides intuitive access to all functions.

### Cycle Selection

Choose from 7 preset cycles and 4 auto dry cycles. Select the appropriate cycle based on fabric type and desired dryness level. The dryer also offers 4 temperature selections to protect your garments.

### Specialized Technologies

- **Steam Refresh:** This cycle uses steam to quickly reduce wrinkles and refresh lightly worn items, making them ready to wear without a full wash. Ideal for garments that need a quick touch-up.
- **Steam Boost:** Designed to eliminate wrinkles and static from your laundry. This feature enhances drying performance by introducing steam, resulting in smoother, softer clothes.
- **Pet Plus:** A specialized cycle for items with pet hair. This feature helps to effectively remove pet hair from fabrics, ensuring your items and your pet's items receive optimal care.

The Speed Queen dryer, shown with a dog and cat, highlights its Pet Plus feature designed for effective pet hair removal.

### Additional Features

- **Time Remaining Display:** Provides a clear indication of the cycle's progress.
- **Moisture Sensing:** Automatically detects moisture levels and adjusts drying time to prevent over-drying and save energy.

- **Eco Cycle:** An energy-efficient drying option.
- **Anti-Wrinkle Cycle:** Tumbles clothes intermittently after the main cycle to prevent wrinkles from setting in.

## MAINTENANCE

---

Regular maintenance ensures the longevity and optimal performance of your Speed Queen dryer.

### Lint Filter Cleaning

The up-front lint filter is easily accessible. Clean the lint filter before or after every load to maintain drying efficiency and prevent fire hazards. Simply pull out the filter, remove accumulated lint, and reinsert it.

### Drum Care

The large galvanized cylinder is resistant to rust and corrosion. Periodically wipe the interior of the drum with a damp cloth to remove any residue. Avoid using abrasive cleaners.

### Exterior Cleaning

Clean the exterior surfaces with a soft, damp cloth and mild detergent. Avoid harsh chemicals that may damage the finish.

## TROUBLESHOOTING

---

This section provides solutions to common issues you might encounter with your dryer. For problems not listed here, or if solutions do not resolve the issue, contact customer support.

- **Dryer Not Starting:** Ensure the dryer is properly plugged into a working outlet. Check the circuit breaker or fuse box. Make sure the door is fully closed.
- **No Heat:** Verify that the gas supply valve is open. Check if the gas line is properly connected. For electric models, ensure both circuit breakers are on.
- **Long Drying Times:** Clean the lint filter. Check the exhaust vent for blockages or kinks. Ensure the load size is appropriate for the dryer's capacity.
- **Excessive Noise:** Check for foreign objects in the drum. Ensure the dryer is level.

## SPECIFICATIONS

---
