Bewinner Bewinnerc2qv5i7zau

Bewinner 4G LTE Portable WiFi Router User Manual

Model: Bewinnerc2qv5i7zau | Brand: Bewinner

1. Introduction

This manual provides detailed instructions for the setup, operation, and maintenance of your Bewinner 4G LTE Portable WiFi Router. This device offers high-speed mobile internet access, allowing you to connect multiple devices simultaneously. Please read this manual thoroughly before using the product to ensure optimal performance and safety.

3.2 Key Features

- **4G and 3G Network Support:** Compatible with FDD LTE B1/B3/B5/B8, TDD LTE B38/39/40/41, and WCDMA B1/B8. Supports 802.11 b/g/n WiFi standards.
- **High-Speed Connectivity:** Offers up to 300Mbps WiFi speed and 150Mbps 4G LTE speed for fast internet access.
- **Multi-Device Support:** Connects up to 10 WiFi-enabled devices simultaneously, including smartphones, tablets, laptops, and smart televisions.
- **Secure Encryption:** Utilizes WPA and WPA2 encryption protocols to ensure network security and protect your data.
- **USB Powered:** Conveniently powered via USB, allowing for flexible power options.
- **Color Screen:** Features a color screen for displaying device status and information.

Image: The portable router displayed next to a battery icon showing 50% charge, emphasizing its portability and ability to support up to 10 devices.

4. Setup Guide

Follow these steps to set up your Bewinner 4G LTE Portable WiFi Router:

1. **Insert Micro SIM Card:** Locate the SIM card slot on the device. Carefully insert your active Micro SIM card into the slot until it clicks into place. Ensure the SIM card is correctly oriented according to the diagram on the device or in the SIM slot.
2. **Power On:** Connect the router to a power source using the provided USB charging cable. The device is USB powered, allowing you to use a wall adapter, power bank, or computer USB port. The device will automatically power on or you may need to press the power button.
3. **Initial Boot-up:** Allow a few moments for the device to boot up. The color screen will display network status, signal strength, and other relevant information.
4. **Connect to WiFi:** On your WiFi-enabled device (e.g., smartphone, laptop), search for available WiFi networks. Select the network name (SSID) broadcasted by your Bewinner router. The default SSID and password are usually printed on a sticker inside the SIM card compartment or on the back of the device.
5. **Enter Password:** Enter the default WiFi password when prompted.
6. **Access Internet:** Once connected, your device should have internet access through the 4G LTE network.

5. Operation Guide

5.1 Connecting Devices

The router supports up to 10 simultaneous connections. To connect additional devices, repeat steps 4 and 5 from the Setup Guide.

5.2 Monitoring Device Status

The integrated color screen provides real-time information about the router's status, including:

- Signal Strength
- Battery Level
- Connected Devices
- Data Usage (if supported by firmware)
- Network Type (4G/3G)

5.3 Network Security

Your Bewinner router uses WPA/WPA2 encryption to secure your wireless network. It is recommended to change the default WiFi password to a strong, unique password for enhanced security. This can typically be done through the device's web management interface (refer to the device's specific IP address and login details, usually found on the device sticker).

6. Troubleshooting

If you encounter issues with your Bewinner 4G LTE Portable WiFi Router, please refer to the following common solutions:

- **No Internet Connection:**
  - Ensure your Micro SIM card is active and has a data plan.
  - Check the signal strength indicator on the router's screen. If the signal is weak, try moving to a different location.
  - Restart the router by disconnecting and reconnecting the power source.
  - Verify that your connected device is properly connected to the router's WiFi network.
- **Device Powers Off Unexpectedly:**
  - Ensure the router is receiving stable power from the USB source. Try a different USB port or power adapter.
  - Check if the device is overheating. Ensure it is placed in a well-ventilated area.
- **Cannot Connect to WiFi:**
  - Double-check the WiFi password.
  - Ensure the router is powered on and broadcasting its WiFi signal.
  - Restart both the router and your connecting device.
- **Slow Speed:**
  - Check the signal strength. Weak signal can lead to slower speeds.
  - Reduce the number of connected devices if many are actively using bandwidth.
  - Ensure there are no obstructions between the router and your connected devices.

7. Specifications

Feature	Specification
Model Number	Bewinnerc2qv5i7zau
Brand	Bewinner
Network Support	FDD LTE B1/B3/B5/B8, TDD LTE B38/39/40/41, WCDMA B1/B8
WiFi Standard	802.11 b/g/n
Data Transfer Rate	Up to 300 Mbps (WiFi), 150 Mbps (4G LTE)
Max Connected Devices	10
Power Source	USB Powered
Hardware Interface	USB

Color	Beige
Compatible Devices	Smartphone, Laptop, Tablet, Smart TV
Item Weight	4.9 ounces
Package Dimensions	5.35 x 4.57 x 1.02 inches

8. Warranty and Support

For warranty information and customer support, please refer to the documentation included with your purchase or visit the official Bewinner website. Keep your proof of purchase for any warranty claims.
