ASSEMBLY INSTRUCTIONS

The nanoblock Inosuke Hashibira kit contains 270 pieces. Assembly requires careful attention due to the small size of the blocks (as small as 4mm x 4mm x 5mm). Follow the detailed step-by-step instructions provided within your product box for precise construction.

1. **Unpack:** Carefully open the box and lay out all components. It is recommended to work on a clean, flat surface to prevent loss of small pieces.
2. **Identify Pieces:** Familiarize yourself with the different shapes and colors of the nanoblocks. The instruction manual will guide you on which pieces to use for each step.
3. **Follow Steps:** Proceed through the instruction manual one step at a time. Pay close attention to the orientation and placement of each block.
4. **Secure Connections:** Ensure blocks are pressed firmly together for a secure fit. While nanoblocks are designed for a perfect fit, some pieces may require gentle pressure.
5. **Completion:** Once all steps are completed, your Inosuke Hashibira model will be ready for display.

DISPLAY AND HANDLING

Once assembled, your nanoblock model is a delicate display item. Handle it with care to prevent pieces from detaching.

- **Display Surface:** Place your model on a stable, flat surface away from edges where it could be easily knocked over.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight may cause colors to fade over time.
- **Gentle Handling:** When moving the model, support it from the base to minimize stress on individual block connections.

MAINTENANCE

To keep your nanoblock model in optimal condition:

- **Cleaning:** Use a soft, dry brush or a can of compressed air to gently remove dust. Avoid using water or chemical cleaners, as these may damage the blocks or cause discoloration.
- **Storage:** If disassembling for storage, keep all pieces in a sealed container to prevent loss and protect them from dust.
