ALLIMITY 103TS103B

ALLIMITY Replacement Remote Control User Manual

For Technisat Telestar Models: 103TS103B, 103TS103, TS103

1. INTRODUCTION

This ALLIMITY replacement remote control is designed to provide full functionality for your Technisat Telestar device. It is compatible with models **103TS103B**, **103TS103**, and **TS103**. The remote control is ready to use without any programming or complex installation steps. Its ergonomic design ensures comfortable handling and stable performance.

To ensure compatibility, please verify that your device's model number matches one of the listed compatible models. The full model number can typically be found on a label located on the back of your Technisat Telestar device.

2. SETUP AND BATTERY INSTALLATION

The ALLIMITY replacement remote control requires no programming. Simply insert batteries to begin operation.

Battery Installation:

1. Locate the battery compartment on the back of the remote control.
2. Slide the battery compartment cover downwards or press the latch to open it.
3. Insert two AAA batteries (not included), ensuring the positive (+) and negative (-) terminals align correctly with the markings inside the compartment.
4. Close the battery compartment cover securely.

Image 2.1: Back view of the remote control with the battery compartment.

This image displays the rear of the ALLIMITY replacement remote control, highlighting the battery compartment cover. The cover is designed to slide open for easy battery insertion and replacement.

3. OPERATING THE REMOTE CONTROL

This remote control is designed to replicate all functions of your original Technisat Telestar remote. Point the remote control directly at your device's infrared receiver for optimal performance.

Key Functions Overview:

Image 3.1: Top-down view of the remote control with button layout.

This image provides a clear top-down view of the ALLIMITY replacement remote control, illustrating the arrangement and labeling of all its buttons for easy identification and use.

- **Power Button (●):** Turns the device on or off.
- **Number Buttons (0-9):** Directly select channels or input numerical values.
- **Navigation Pad (OK, Up, Down, Left, Right):** Used for menu navigation and selection.

- **Volume Up/Down (+/-):** Adjusts the audio volume.
- **Channel Up/Down (P+/P-):** Changes channels sequentially.
- **MENU:** Accesses the main menu of your device.
- **EXIT:** Exits the current menu or function.
- **EPG (Electronic Program Guide):** Displays the program guide.
- **TXT (Teletext):** Activates or deactivates teletext.
- **INFO:** Displays information about the current program or selected item.
- **Color Buttons (Red, Green, Yellow, Blue):** Used for specific functions within menus or applications, as indicated on screen.
- **TV/SAT:** Switches between TV and Satellite modes.
- **RADIO:** Switches to radio mode.

4. MAINTENANCE

Proper care and maintenance will extend the life of your remote control.

Battery Replacement:

Replace batteries when the remote control's range decreases or it becomes unresponsive. Always replace both batteries at the same time with new ones of the same type (AAA). Do not mix old and new batteries or different types of batteries.

Cleaning:

Wipe the remote control with a soft, dry cloth. For stubborn dirt, lightly dampen the cloth with water. Do not use abrasive cleaners, alcohol, or chemical solvents, as these can damage the remote's surface or internal components.

Storage:

Store the remote control in a cool, dry place away from direct sunlight and extreme temperatures. If the remote control will not be used for an extended period, remove the batteries to prevent leakage.

5. TROUBLESHOOTING

If you experience issues with your remote control, try the following troubleshooting steps:

- **Remote not responding:**
 - Check if the batteries are inserted correctly with the correct polarity.
 - Replace the batteries with fresh ones.
 - Ensure there are no obstructions between the remote control and the device's infrared receiver.
 - Make sure you are within the effective operating range (up to 10 meters).
- **Limited range or intermittent response:**
 - This often indicates low battery power; replace the batteries.
 - Ensure the remote control's infrared emitter and the device's receiver are clean and free from dust.

If the problem persists after trying these steps, the remote control may be faulty. Please refer to the warranty and support section.

6. SPECIFICATIONS

Feature	Specification
Brand	ALLIMITY
Compatible Devices	Technisat Telestar 103TS103B, 103TS103, TS103
Connectivity Technology	Infrared
Special Feature	Ergonomic
Number of Buttons	25
Maximum Range	10 Meters
Item Weight	59 Grams
Item Model Number	MM-103TS103B-NP

Image 6.1: Front view of the remote control with dimensions.

This image shows the front of the ALLIMITY replacement remote control, clearly indicating its approximate dimensions: 5 cm (1.97 inches) in width and 18 cm (7.09 inches) in length.
