

## ANIEKIN PT-9246

# ANIEKIN Hair Dryer User Manual

Model: PT-9246

## 1. IMPORTANT SAFETY INFORMATION

Please read all instructions before using this appliance. Keep this manual for future reference.

- Keep out of reach of children.
- Do not rinse or submerge the appliance in water.
- Keep the power plug and cord away from heated surfaces.
- Do not use the hair dryer while bathing or near water.
- Use only within the specified voltage range: 110V-120V.
- Always unplug the hair dryer when not in use.
- Allow the hair dryer to cool down after each use.
- Regularly clean the hair dryer to prevent dust buildup.
- Store the hair dryer in a dry place when not in use.
- Do not use the hair dryer if the power cord is damaged or frayed.
- This appliance is equipped with an ALCI Safety Plug for enhanced protection.

## 2. PRODUCT OVERVIEW

The ANIEKIN Hair Dryer is designed for fast and efficient hair drying with advanced features to protect hair health.

### 2.1 Components

- ANIEKIN Hair Dryer Unit
- Styling Concentrator Nozzle

- Curling Diffuser Attachment

### 3. GETTING STARTED & SETUP

#### 3.1 Attaching Accessories

The ANIEKIN Hair Dryer comes with two magnetic attachments: a Styling Concentrator and a Curling Diffuser. These can be easily attached and removed.

1. Ensure the hair dryer is unplugged and cool before attaching or removing accessories.
2. Align the desired attachment (concentrator or diffuser) with the front nozzle of the hair dryer.
3. The magnetic connection will secure the attachment in place. Gently pull to remove.

Image: Demonstrates the use of both the styling concentrator for precise drying and the curling diffuser for even airflow on wavy/curly hair.

Video: An ANIEKIN seller demonstrates attaching and detaching the concentrator and diffuser, and highlights the various heat and speed settings on the hair dryer.

## 4. OPERATING INSTRUCTIONS

### 4.1 Powering On/Off and Adjusting Settings

1. Plug the hair dryer into a standard 110V-120V electrical outlet.
2. Use the main slide switch on the handle to turn the appliance ON (position 'I' or 'II') or OFF (position 'O').
3. **Speed/Heat Settings:** The slide switch offers multiple combinations:
  - 'O': Off
  - 'I': Warm & Slow (Gentle drying and styling)
  - 'II': Warm & Fast (High heat for quick drying)
4. **Cool Shot Button:** Press and hold the snowflake button located above the slide switch for a burst of cool air. This helps to set your hairstyle.

Image: Detailed view of the control panel on the hair dryer, illustrating the cool shot button and the multi-position slide switch for power, speed, and heat adjustments.

### 4.2 Using the Concentrator Nozzle

The concentrator nozzle provides direct and focused airflow, ideal for precision styling and smoothing

hair.

1. Attach the concentrator nozzle to the hair dryer.
2. Direct the airflow onto sections of your hair while using a brush to style.

### 4.3 Using the Diffuser Attachment

The diffuser attachment disperses air evenly and gently, perfect for enhancing natural curls and waves without causing frizz.

1. Attach the diffuser to the hair dryer.
2. Gently cup sections of your hair with the diffuser, lifting towards the scalp.
3. Use low heat and speed settings to prevent frizz and define curls.

## 5. CARE AND MAINTENANCE

### 5.1 Cleaning

- Always unplug the hair dryer and allow it to cool completely before cleaning.
- Wipe the exterior of the appliance with a soft, damp cloth. Do not use abrasive cleaners.
- Regularly check and clean the high-density dust back cover to ensure optimal airflow and prevent hair from being pulled in.

### 5.2 Storage

- Store the hair dryer in a dry place when not in use.
- Do not wrap the power cord tightly around the appliance, as this can damage the cord.

## 6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Hair dryer does not turn on.	Not plugged in correctly; power outlet issue; ALCI safety plug tripped.	Ensure plug is fully inserted. Test outlet with another appliance. Press the 'RESET' button on the ALCI plug.
Hair dryer stops working during use.	Overheat protection activated; ALCI safety plug tripped.	Unplug and allow to cool for several minutes. Clear any obstructions from air inlets/outlets. Press 'RESET' on ALCI plug.
Weak airflow.	Air inlet/outlet blocked by dust or hair.	Unplug and clean the air inlets and outlets, especially the back cover.
Hair feels frizzy.	High heat/speed setting used; improper technique.	Use lower heat/speed settings. Utilize the diffuser for curly/wavy hair. Finish with a cool shot.

## 7. SPECIFICATIONS

Feature	Detail
Model Number	PT-9246
Brand	ANIEKIN
Wattage	1875 watts
Voltage	110V-120V
Power Source	Corded Electric
Product Dimensions (D x W x H)	10" x 6" x 3" (approximate)
Item Weight	1.61 Pounds (approximate)
