Voitek USB Headset V9 Dual Ear: User Manual

Wired On-Ear Computer Headphones with Noise-Cancelling Microphone and In-line Control

1. INTRODUCTION

This manual provides instructions for the Voitek USB Headset V9 Dual Ear. This wired on-ear headset is designed for clear audio communication and comfortable use with various devices and applications, including video calls, online meetings, and classes.

2. PACKAGE CONTENTS

Verify that all items are present in your product package:

- Voitek USB Headset (Dual Ear)
- USB-A to USB-C Adapter Cable
- User Manual

3. FEATURES

- **Clear Audio:** Equipped with 30mm drivers for balanced and clear sound.
- **Noise-Cancelling Microphone:** Rotatable 330° microphone designed to reduce background noise for clear voice pickup.
- **Comfortable Design:** Lightweight on-ear design with soft ear cushions and an adjustable headband for extended wear.
- **Plug and Play Connectivity:** USB-A and USB-C compatibility (via adapter) for easy connection to various devices without driver installation.
- **In-line Controls:** Integrated controls for volume adjustment, speaker mute, and microphone mute.

HD Stereo Clear Sound Quality

Adopt the latest advanced chips and noise-reduction processing technology

Ergonomic and Flexible Design

Image 3.2: Ergonomic and flexible design features including the adjustable headband, soft ear cushions, and 330° rotatable microphone.

4. SETUP

The Voitek USB Headset is designed for plug-and-play operation, requiring no additional software or drivers for most operating systems.

1. Connect the Headset:

- For devices with a USB-A port, directly plug the headset's USB-A connector into an available USB port.
- For devices with a USB-C port, attach the included USB-A to USB-C adapter to the headset's USB-A connector, then plug the USB-C end into an available USB-C port.

- 2. System Recognition:** Your operating system (Windows, macOS, Android) should automatically detect the headset and configure it as the default audio input and output device.

3. **Adjust Settings (if necessary):** If the headset is not automatically selected, navigate to your device's sound settings and manually select the Voitek Headset as the input (microphone) and output (speaker) device.

Easy To Use , Plug And Play

Voitek USB headset suitable for most of PC, laptops, Mac, and Windows ios systems

Windows 7

Windows 8

Windows 10

Windows XP

Mac

5. OPERATING INSTRUCTIONS

The headset features an in-line control unit for convenient audio management.

Easy Button Control

Image 5.1: Detailed view of the in-line control unit.

- **Volume Up (+):** Press to increase the listening volume.
- **Volume Down (-):** Press to decrease the listening volume.
- **Speaker Mute:** Press the speaker icon button to mute or unmute the headset speakers. An indicator light may show the mute status.
- **Microphone Mute:** Press the microphone icon button to mute or unmute the microphone. A red indicator light will illuminate when the microphone is muted.

Microphone Positioning: The microphone boom can be rotated 330 degrees to be worn on either the left or right side. Position the microphone approximately 1-2 inches from your mouth for optimal voice clarity.

6. MAINTENANCE

To ensure the longevity and optimal performance of your Voistek USB Headset, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the headset. Avoid using liquid cleaners or abrasive materials.

- **Storage:** Store the headset in a cool, dry place when not in use. Avoid extreme temperatures.
- **Cable Care:** Do not pull on the cable to disconnect the headset. Always grasp the plug. Avoid sharp bends or kinks in the cable.
- **Earpads:** The soft ear cushions are designed for comfort. Handle them gently to prevent damage.

7. TROUBLESHOOTING

If you encounter issues with your headset, refer to the following common solutions:

Problem	Possible Solution
No sound from headset	◦ Ensure the headset is securely plugged into a USB port. ◦ Check the in-line volume control; increase volume. ◦ Verify the speaker mute button is not active. ◦ Confirm the headset is selected as the default playback device in your computer's sound settings. ◦ Test on a different USB port or device.
Microphone not working	◦ Ensure the microphone mute button on the in-line control is not active (red light off). ◦ Confirm the headset is selected as the default recording device in your computer's sound settings. ◦ Check application-specific microphone settings (e.g., Zoom, Skype). ◦ Ensure the microphone boom is positioned correctly near your mouth. ◦ Test on a different USB port or device.
Sound is distorted or unclear	◦ Adjust the volume levels on both the in-line control and your computer. ◦ Ensure the cable is not damaged or kinked. ◦ Test on a different USB port or device.
In-line controls are overly sensitive	◦ Be mindful of the placement of the in-line control unit to avoid accidental presses. ◦ Ensure the control unit is not snagged or pressed against clothing or objects.

8. SPECIFICATIONS

Feature	Detail
Model	V9
Brand	Voistek
