4. SETUP AND ASSEMBLY

The VINGLI Cloud Criss Cross Legged Chair is designed for quick and easy assembly, typically taking about 15 minutes. All necessary hardware and tools are included in the package.

Assembly Steps:

1. Unpack all components and verify against the parts list provided in the box.
2. Attach the silent rolling wheels (or foot pads) to the stable metal base. Ensure they are securely clicked into place.
3. Insert the gas lift cylinder into the center hole of the metal base.
4. Attach the seat plate mechanism to the underside of the seat cushion. Ensure the tilt knob faces the front of the

chair as indicated in the instructions. Do not fully tighten all screws until all are in place to ensure proper alignment.

5. Place the assembled seat onto the gas lift cylinder.
6. Attach the backrest to the seat assembly using the provided screws.
7. Once all parts are assembled, tighten all screws securely.

5. OPERATING INSTRUCTIONS

Your VINGLI chair offers several adjustable features for personalized comfort:

- **Height Adjustment:** To raise the seat, lift the lever located under the seat while standing. To lower the seat, lift the lever while seated. Release the lever at your desired height.
- **360° Swivel:** The chair's seat can rotate a full 360 degrees, allowing for easy movement and access to different areas without needing to reposition the entire chair.
- **Tilt Function:** To unlock the tilting mechanism, pull the lever located under the seat outwards. To lock the tilt in an

upright position, push the lever inwards. The chair allows for a recline between 105° and 120°.

- **Rocking Tension Adjustment:** Rotate the knob located under the seat to adjust the tension of the rocking motion. Turn clockwise to increase tension (firmer rock) and counter-clockwise to decrease tension (looser rock).

6. MAINTENANCE

Regular maintenance will help prolong the life and appearance of your VINGLI chair.

- **Cleaning the Microfiber Fabric:** For general cleaning, gently vacuum the fabric to remove dust and loose debris. For spills, blot immediately with a clean, dry cloth. For tougher stains, use a mild fabric cleaner specifically designed for microfiber, following the product instructions. Test on an inconspicuous area first. Avoid harsh chemicals or abrasive cleaners.
- **Frame and Base:** Wipe the metal base and frame with a soft, damp cloth. Dry thoroughly to prevent rust.
- **Wheels/Casters:** Periodically check the wheels for hair, dust, or debris that may impede smooth rolling. Clean as needed.
- **Hardware:** Periodically check all screws and bolts to ensure they are tight. Retighten if necessary.

7. TROUBLESHOOTING

If you encounter any issues with your chair, please refer to the following common solutions:

Problem	Possible Cause	Solution
Chair does not roll smoothly.	Debris in casters; faulty casters.	Clean casters of any hair or debris. If problem persists, consider replacing casters with standard 2-inch wheels (0.4-inch diameter, 0.9-inch length stem).
Chair tilts forward or backward unexpectedly.	Seat plate mechanism installed incorrectly; rocking tension too loose/tight.	Ensure the tilt knob on the seat plate mechanism faces the front of the chair. Adjust the rocking tension knob to your preference.

Problem	Possible Cause	Solution
Chair height adjustment is not working.	Gas lift cylinder issue; lever mechanism stuck.	Check if the lever is fully engaged. Ensure no obstructions are preventing the gas lift from operating. If the issue persists, the gas lift may need replacement.
Squeaking noises.	Loose hardware; friction between components.	Tighten all assembly screws. Apply a small amount of silicone lubricant to moving parts if necessary.
