## DOAO A3-Pro

# DOAO Electric Rotary Shaver User Manual

Model: A3-Pro

## 1. INTRODUCTION

---

Thank you for choosing the DOAO A3-Pro Electric Rotary Shaver. This manual provides essential information for the safe and effective use, maintenance, and troubleshooting of your new electric razor. Designed for both wet and dry shaving, the A3-Pro offers a comfortable and efficient grooming experience with its advanced features.

## 2. SAFETY INFORMATION

---

**Please read all safety instructions carefully before using the appliance for the first time and keep them for future reference.**

- Do not immerse the charging adapter in water or other liquids.
- Ensure the shaver is completely dry before connecting it to the charger.
- Keep the appliance out of reach of children.
- Do not use the shaver if the blades or foil are damaged, as this may cause injury.
- Only use the charging cable provided with the shaver.
- Avoid extreme temperatures and direct sunlight.

## 3. PRODUCT OVERVIEW

---

### 3.1 Package Contents

## 4. SETUP

---

### 4.1 Charging the Shaver

1. Ensure the shaver is turned off.
2. Connect the USB-C end of the power cable to the shaver's charging port.
3. Connect the other end of the USB cable to a compatible USB power adapter (not included) or a computer USB port.
4. The LED display on the shaver will indicate charging status. A full charge typically takes approximately 1.5 hours.
5. Disconnect the shaver from the power source once fully charged.

## 4.2 First Use

For optimal performance, it is recommended to fully charge the shaver before its first use.

## 5. OPERATING INSTRUCTIONS

### 5.1 Wet and Dry Shaving

The DOAO A3-Pro is designed for both wet and dry shaving:

- **Dry Shave:** For a quick and convenient shave, use the shaver on dry skin.
- **Wet Shave:** For a more comfortable and refreshing shave, use with shaving foam or gel, or in the shower.

### 5.2 Shaving Technique

- Press the power button to turn on the shaver.

- Hold the shaver at a right angle to your skin.
- Move the shaver in small, circular motions over your face and neck.
- Apply gentle pressure, allowing the floating heads to adapt to your contours.
- For best results, shave against the direction of hair growth.

# Powerful Shave

Removes even coarse hairs with ease

## 5.3 Using the Pop-up Trimmer

The integrated pop-up trimmer is ideal for precise grooming:

1. Locate the trimmer release button on the back of the shaver.
2. Slide the button upwards to activate the pop-up trimmer.
3. Use the trimmer to shape sideburns, mustache, or any other areas requiring precise edging.
4. After use, push the trimmer back down until it clicks into place.

## 6. MAINTENANCE

### 6.1 Cleaning the Shaver

Regular cleaning ensures optimal performance and hygiene:

1. Turn off the shaver and disconnect it from any power source.
2. Open the shaver head assembly by pressing the release button (if applicable) or twisting the head counter-clockwise.
3. Rinse the shaver head under warm running water to remove hair clippings and debris. For a thorough clean, you can use a mild soap.
4. Use the provided cleaning brush to remove any stubborn hair particles from the blades and inner chamber.
5. Allow the shaver head to air dry completely before reattaching it to the shaver body.
6. Close the shaver head assembly securely.

## 6.2 Replacing Shaver Heads

For continued optimal shaving performance, it is recommended to replace the shaver heads approximately every 12 months, depending on usage. Replacement heads can be purchased from authorized DOAO retailers or online.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Shaver does not turn on.	Battery is depleted.	Charge the shaver fully.
Poor shaving performance.	Shaver heads are dirty or worn.	Clean the shaver heads thoroughly. If performance does not improve, consider replacing the shaver heads.
Shaver pulls hair.	Shaver heads are dirty or blades are dull. Hair might be too long.	Clean the shaver heads. If necessary, replace the shaver heads. For longer hair, trim it first with the pop-up trimmer before shaving.
Charging indicator not working.	Cable or power source issue.	Ensure the USB cable is properly connected to both the shaver and the power source. Try a different USB port or power adapter.

## 8. SPECIFICATIONS

Feature	Detail
