1. INTRODUCTION

Thank you for choosing the DOAO Electric Shaver A3-Pro. This manual provides essential information for the safe and effective use of your new shaver. The A3-Pro features a 3D floating head, dual-track blades, and a powerful motor for a smooth and efficient shaving experience. Its 100% waterproof design allows for both wet and dry shaving, and it includes an integrated trimmer for detailed grooming.

What's in the Box:

- DOAO Electric Shaver A3-Pro
- Charging Cable
- Cleaning Brush
- Travel Case
- User Manual

2. SAFETY INSTRUCTIONS

Please read all safety instructions carefully before using the appliance for the first time and keep them for future reference. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- Do not use the shaver if it is damaged. Inspect the shaver and charging cable before each use.
- Only use the original charging cable provided with the shaver.

- Do not immerse the charging cable or adapter in water or other liquids.
- The shaver is 100% waterproof and can be rinsed under running water. However, ensure the charging port is dry before connecting the charging cable.
- Do not open the shaver housing. Repairs should only be performed by authorized service personnel.
- Keep the shaver away from extreme heat and direct sunlight.

3. PRODUCT OVERVIEW

The DOAO A3-Pro electric shaver is designed for a close and comfortable shave. Familiarize yourself with its components:

- **3D Floating Head:** Adapts to facial contours for maximum skin contact.
- **Rotary Blades with Dual-Track System:** Efficiently cuts hair for a smooth finish.
- **Power Button:** Turns the shaver on and off.
- **Charging Port:** Located at the bottom of the shaver.
- **Integrated Pop-up Trimmer:** For precise trimming of sideburns, mustache, and beard lines.
- **LED Display:** Shows battery level and charging status.

4. SETUP

4.1 Initial Charging

1. Before first use, fully charge the shaver.
2. Ensure the shaver is turned off.
3. Connect the charging cable to the shaver's charging port and plug the other end into a suitable power outlet.
4. The LED display will indicate the charging status. A full charge typically provides up to 30 days of shaving (based on average use).
5. Once fully charged, disconnect the charging cable.

4.2 Turning On/Off

- To turn on the shaver, press the Power Button once.
- To turn off the shaver, press the Power Button again.

5. OPERATING INSTRUCTIONS

5.1 Dry Shaving

- Ensure your face is clean and dry.
- Turn on the shaver.
- Hold the shaver at a right angle to your skin and move it in small, circular motions.
- Apply gentle pressure. Avoid pressing too hard, as this can cause irritation.
- Stretch your skin with your free hand to make the hairs stand upright for a closer shave.

5.2 Wet Shaving

- Apply shaving foam or gel to your face.
- Turn on the shaver.
- Move the shaver in small, circular motions over your face.
- Rinse the shaving head under running water during shaving to prevent clogging.
- After shaving, rinse your face and the shaver head thoroughly.

5.3 Using the Integrated Trimmer

- To activate the trimmer, slide the trimmer switch upwards (location may vary, typically on the back or side).
- Use the trimmer to shape sideburns, mustaches, or to pre-trim longer beard hair before shaving.
- After use, slide the trimmer switch back down to retract it.

6. MAINTENANCE

6.1 Cleaning the Shaver

Regular cleaning ensures optimal performance and hygiene.

1. Turn off the shaver and disconnect it from the power source.
2. Press the release button (if applicable) to open the shaving head unit.
3. Rinse the shaving head thoroughly under warm running water. You can also use the provided cleaning brush to remove stubborn hair particles.
4. Shake off excess water and allow the shaving head to air dry completely before closing it or storing the shaver.

5. For a more thorough cleaning, you may occasionally remove the individual rotary blades and rinse them. Refer to the diagrams in the physical manual for specific instructions on disassembling the head.
6. Wipe the shaver body with a damp cloth. Do not use abrasive cleaners or solvents.

6.2 Replacing Shaving Heads/Blades

For continued optimal performance, it is recommended to replace the shaving heads/blades every 12 months, or sooner if you notice a decrease in shaving performance or increased irritation. Replacement parts can be purchased from authorized DOAO retailers.

1. Turn off the shaver and disconnect it from the power source.
2. Open the shaving head unit.
3. Carefully remove the old shaving heads/blades according to the instructions provided with the replacement parts.
4. Insert the new shaving heads/blades, ensuring they are correctly seated.
5. Close the shaving head unit securely.

6.3 Storage

Store the shaver in its travel case in a cool, dry place when not in use. Ensure the shaver is clean and dry before storing.

7. TROUBLESHOOTING

If you encounter issues with your DOAO A3-Pro shaver, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Shaver does not turn on.	Battery is depleted.	Charge the shaver fully.
Shaver does not turn on.	Shaver is locked (travel lock).	Press and hold the power button for 3 seconds to unlock (if applicable).
Poor shaving performance / pulling hair.	Shaving heads are dirty or clogged.	Clean the shaving heads thoroughly.
Poor shaving performance / pulling hair.	Shaving heads are worn out.	Replace the shaving heads.
Battery not charging.	Charging cable or adapter is faulty.	Ensure the cable is properly connected. Try a different compatible USB adapter.

If the problem persists after trying these solutions, please contact DOAO customer support.
