## FACBOTALL FMW-079

# FACBOTALL Buffet Cabinet with Storage

MODEL: FMW-079

## Introduction

---

Thank you for choosing the FACBOTALL Buffet Cabinet. This versatile storage solution is designed to enhance your kitchen, dining room, or living space with its modern design and practical features. It includes three spacious drawers, two glass-doored cabinets, and an open shelf, providing ample storage and display options. This manual will guide you through the assembly, operation, and maintenance of your new cabinet to ensure long-lasting satisfaction.

## Safety Guidelines

Please read and understand all safety instructions before assembly and use. Failure to follow these guidelines may result in injury or damage to the product.

- **Anti-Tipping Straps:** Always secure the cabinet to the wall using the provided anti-tipping straps to prevent accidental tipping. This is crucial for safety, especially in households with children or pets.
- **Weight Capacity:** Do not overload the shelves or drawers. The entire desktop of the kitchen cabinet can bear up to 89 lbs (approximately 40 kg). Distribute weight evenly.
- **Placement:** Keep the cabinet away from direct heat sources (e.g., radiators, fireplaces) and excessive moisture to prevent material warping or damage.
- **Assembly:** Assemble the unit on a soft, clean surface to prevent scratches. Ensure all hardware is securely tightened before use. Periodically check and re-tighten fasteners as needed.

- **Cleaning:** Always unplug and turn off any appliances placed on or in the cabinet before cleaning.

## Product Features

---

The FACBOTALL Buffet Cabinet is designed with both aesthetics and functionality in mind:

- **Unique Arc-Shaped Glass Doors:** The side cabinets feature elegant arc-shaped glass doors, allowing for stylish display of items while keeping them protected.
- **Ample Storage:** Equipped with three large, smooth-running drawers and four built-in storage spaces behind the glass doors, providing versatile storage for daily necessities, dinnerware, or decorative items.
- **Open Shelf:** A convenient 7.9-inch open shelf offers easy access to frequently used items or additional display space.
- **Durable Construction:** Made from superior Particle Board (PB) and supported by a robust metal frame, ensuring stability and longevity.
- **Modern Luxury Design:** The combination of a white finish with a gold metal frame and minimalist design creates a sleek, contemporary look that complements various interior styles.

## Assembly Instructions

Assembly is required for this product. Please follow the detailed instructions provided in the separate assembly manual included in your package. Below are general steps and important considerations:

- 1. Unpack and Verify:** Carefully unpack all components and hardware. Compare them against the parts list in your assembly manual to ensure all pieces are present and undamaged.
- 2. Prepare Workspace:** Choose a clean, flat, and spacious area for assembly. Lay down a blanket or cardboard to protect both the cabinet parts and your floor.
- 3. Follow Step-by-Step:** Adhere strictly to the numbered steps in the assembly manual. Do not skip steps or overtighten screws unless specified.
- 4. Hardware:** Use the correct hardware for each step as indicated in the manual. Some parts may look similar but have different functions.

5. **Anti-Tipping Device:** Install the anti-tipping straps as the final step of assembly. This is a critical safety measure. Secure the cabinet firmly to a wall stud using appropriate wall anchors (not always included, depending on wall type).
6. **Assistance:** While assembly can often be done by one person, having a second person can make the process easier and safer, especially when lifting or aligning larger components.

## Operating Instructions

---

Using your FACBOTALL Buffet Cabinet is straightforward:

- **Drawers:** The three central drawers are designed for smooth operation. Use the labor-saving handles to open and close them. Avoid forcing drawers if they feel stiff; check for obstructions or uneven loading.
- **Glass Doors:** The side cabinets feature arc-shaped glass doors. Gently pull the handles to open and push to close. Ensure items inside do not obstruct the door's movement.
- **Open Shelf:** The top open shelf is ideal for displaying decorative items, small appliances, or frequently accessed essentials. Ensure items placed here are stable and do not exceed the weight capacity.
- **Storage:** Utilize the various compartments to organize your belongings. Heavier items should be placed on lower shelves or in drawers for stability.

*Image: The buffet cabinet with both glass doors fully open, providing a clear view of the interior shelves and the items stored within, highlighting the functional storage design.*

## Care and Maintenance

Proper care will help maintain the appearance and longevity of your cabinet:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. For stubborn marks, use a mild, non-abrasive cleaner. Avoid harsh chemicals, abrasive pads, or polishes that may damage the finish.
- **Spills:** Immediately wipe up any spills to prevent moisture damage, especially on the particle board surfaces.
- **Dusting:** Regularly dust with a dry, soft cloth to prevent dust buildup.
- **Sunlight Exposure:** Avoid prolonged exposure to direct sunlight, which can cause fading or discoloration over time.
- **Temperature and Humidity:** Maintain a stable room temperature and humidity level. Extreme fluctuations can cause materials to expand, contract, or warp.
- **Hardware Check:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten if necessary to

maintain structural integrity.

## Troubleshooting Common Issues

If you encounter any issues with your cabinet, refer to the following:

Problem	Possible Cause	Solution
Cabinet feels wobbly or unstable.	Loose fasteners; uneven floor; anti-tipping straps not installed.	Ensure all screws are tightened. Place shims under legs if floor is uneven. Install or re-secure anti-tipping straps to the wall.
Drawers do not slide smoothly.	Misaligned drawer slides; obstruction; overloaded drawer.	Check drawer slide alignment and re-adjust if needed. Remove any obstructions. Reduce weight in the drawer.
Doors do not close properly.	Misaligned hinges; obstruction inside cabinet.	Adjust hinges as per assembly manual. Ensure items inside are not blocking the door.
Scratches or minor surface damage.	Impact or abrasive cleaning.	Use a furniture repair kit or touch-up paint matching the finish. Avoid abrasive materials for cleaning.

## Product Specifications
