

Aquaguard Champ RO+UV

Aquaguard Sure Champ RO+UV 1X Water Purifier

USER MANUAL

Introduction

The Aquaguard Sure Champ RO+UV 1X Water Purifier is designed to provide pure and safe drinking water by effectively removing bacteria, viruses, protozoa, and chemical impurities through its advanced Reverse Osmosis (RO) and Ultraviolet (UV) technology. This manual provides essential information for the proper installation, operation, maintenance, and troubleshooting of your water purifier.

What's in the Box

Upon unpacking your Aquaguard Sure Champ RO+UV 1X Water Purifier, please ensure all the following components are present:

- Water Purifier Unit
- Accessories (Installation Kit)
- Warranty Card

Setup and Installation

The Aquaguard Sure Champ RO+UV 1X Water Purifier offers flexible installation options, including wall-mounted or countertop placement. Professional installation is recommended to ensure optimal performance and to validate your warranty. A complimentary installation service is included with your purchase.

1. **Choose a Location:** Select a clean, dry, and well-ventilated area near a water source and an electrical outlet. Ensure the surface is flat and stable for countertop installation, or a sturdy wall for wall-mounting.
2. **Water Supply Connection:** The purifier requires a direct connection to your household water supply. This step should be performed by a qualified technician to prevent leaks and ensure proper water flow.
3. **Drain Connection:** A drain connection is necessary for the RO purification process to discharge rejected water.
4. **Power Connection:** Once the water connections are secure, plug the power cord into a standard electrical outlet.
5. **Initial Flush:** Before first use, allow the purifier to fill and drain a few times as per the technician's instructions to

flush out any manufacturing residues.

Operating Instructions

Your Aquaguard Sure Champ RO+UV 1X Water Purifier is designed for user-friendly operation.

- **Power On:** Ensure the purifier is plugged in and the main power switch is turned on. The unit will begin the purification process automatically.
- **Dispensing Water:** Place a clean container under the water dispenser tap. Push or turn the tap handle to dispense purified water. Release the handle to stop the flow.
- **Smart LED Indication:** The purifier features intuitive LED indicators to keep you informed about its status. These include:
 - Service Reminders
 - Tank-Full Indicators

- Filter Life Warnings
- Electronic Error Alerts

Refer to the specific LED patterns in the detailed manual provided with the product for exact meanings.

- **Energy Saving Mode:** The purifier is equipped with an energy-saving mode to optimize power consumption.

Other Features

-  Tank Full Indicator
-  6L Storage Tank
-  Energy Saving Mode
-  Easy to Clean
-  Flexible Installation

Maintenance

Regular maintenance ensures the longevity and efficiency of your water purifier. Always disconnect the power supply before performing any maintenance.

- **Filter Replacement:** The purifier's cartridge has a life of up to 1 year or 6000 liters, whichever comes first, under standard test conditions. The Smart LED Indication will provide warnings when filter replacement is due. It is crucial to replace filters promptly to maintain water quality.

- **Cleaning the Exterior:** Wipe the exterior of the purifier with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Tank Cleaning:** Periodically clean the storage tank. This service is typically performed by a qualified service technician during scheduled maintenance visits.
- **Professional Servicing:** Schedule regular professional servicing as recommended by Aquaguard to ensure all components are functioning correctly and to perform necessary filter changes and system checks.

4 STAGES OF WATER PURIFICATION

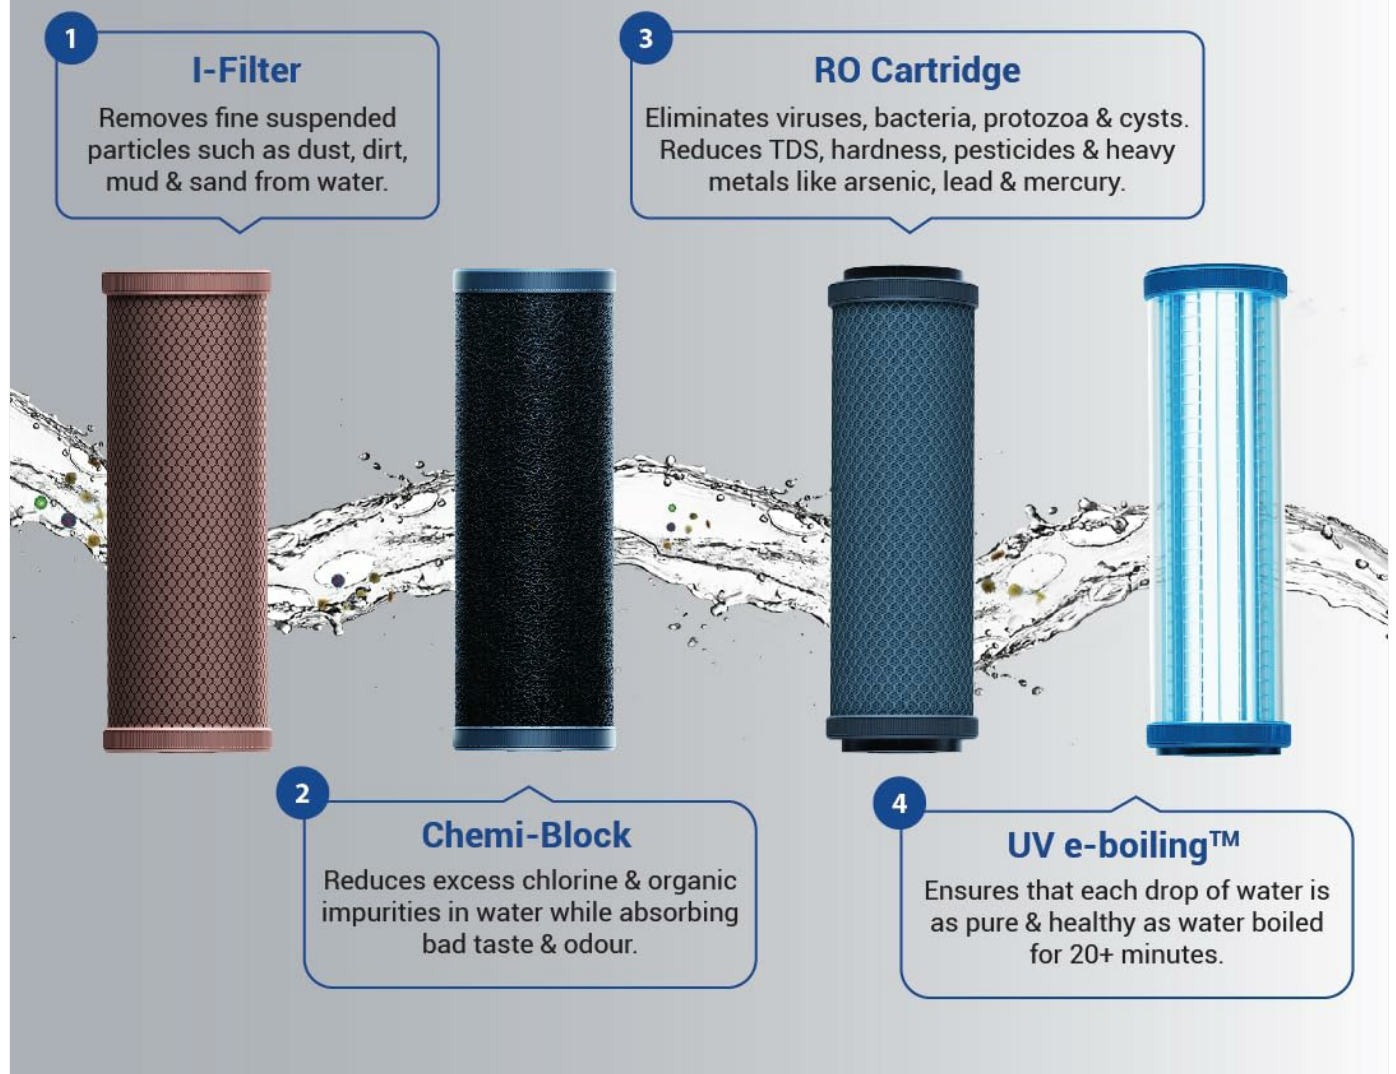

Image: A diagram detailing the 4 stages of water purification: I-Filter, Chemi-Block, RO Cartridge, and UV e-boiling, each with a visual representation of the filter and its function.

RO Purification

Superior RO

Removes contaminants like lead and mercury and eliminates disease-causing viruses and bacteria.

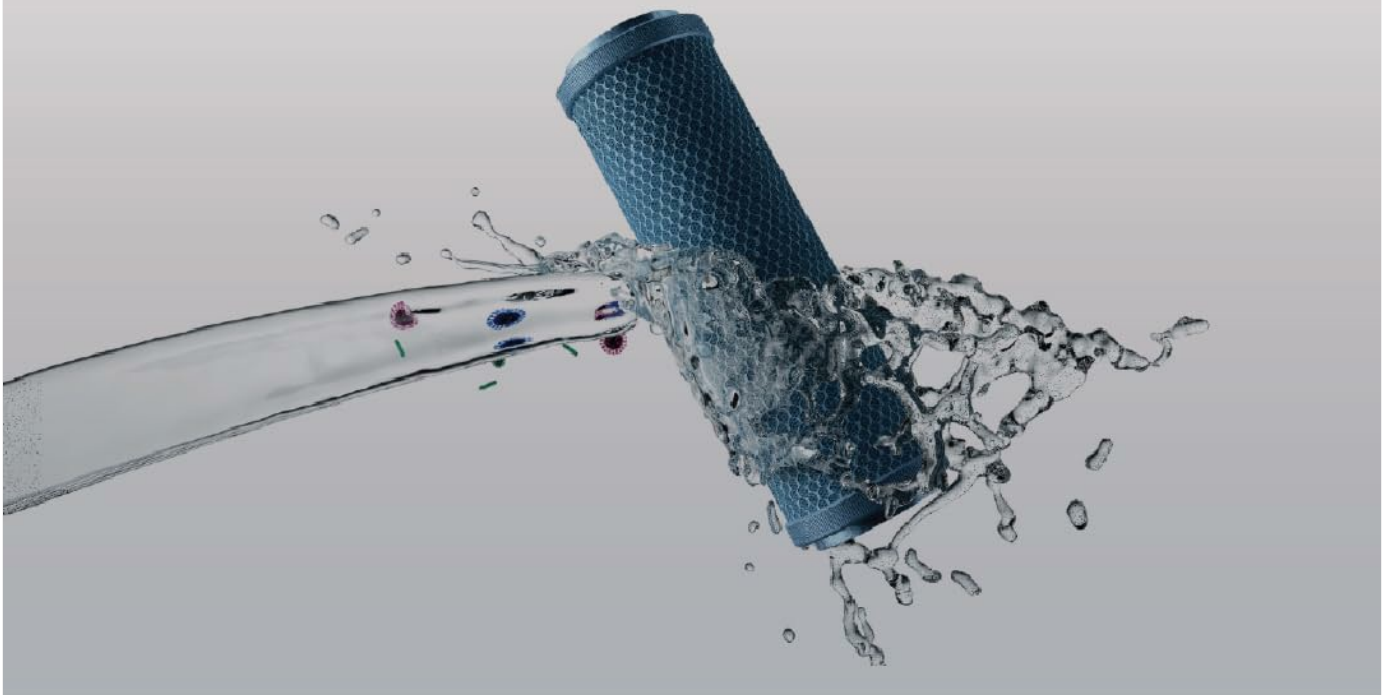

Image: A close-up view of an RO purification filter, submerged in water with splashes, illustrating its role in removing contaminants.

As Good as Boiling

UV e-boiling™

Delivers water that is as safe and pure as water boiled for over 20 minutes.

Troubleshooting

If you encounter any issues with your Aquaguard Sure Champ RO+UV 1X Water Purifier, refer to the following common problems and solutions before contacting customer support.

Problem	Possible Cause	Solution
No water dispensing	No power, water supply off, clogged filter	Check power connection, ensure water supply is on, contact service for filter inspection.
Slow water flow	Low water pressure, partially clogged filter, airlock	Check household water pressure, contact service for filter inspection or airlock removal.
Unusual taste/odor	Expired filters, new filter installation residue	Replace filters if due, flush the system as per initial setup instructions. If problem persists, contact service.

Problem	Possible Cause	Solution
Leakage from unit	Loose connections, damaged component	Immediately turn off water supply and power. Contact customer service for inspection and repair.
Indicator lights flashing/error	System malfunction, filter replacement needed	Refer to the detailed manual for specific error codes or contact customer service.

For any issues not listed above or if the problem persists after attempting the suggested solutions, please contact Aquaguard customer support.

Specifications

Detailed technical specifications for the Aquaguard Sure Champ RO+UV 1X Water Purifier:

- **Brand:** Aquaguard
- **Model Name:** Champ RO+UV
- **Model Number:** GWPDAGCRU00B00
- **Purification Method:** Reverse Osmosis, Ultraviolet
- **Capacity:** 6.2 litres
- **Product Dimensions (L x W x H):**32L x 27W x 48H Centimeters
- **Item Weight:** 5 Kilograms
- **Material:** Acrylonitrile Butadiene Styrene
- **Installation Type:** Wall-mounted, Countertop
- **Power Source Type:** Electric
- **Operating Pressure Range:**0.3 to 3 Kilograms Per Square Centimeter
- **Lower Temperature Range:** 10 Degrees Celsius
- **Upper Temperature Rating:** 40 Degrees Celsius
- **Special Features:** Change Filter Indicator, Reduce TDS

Warranty and Support

Your Aquaguard Sure Champ RO+UV 1X Water Purifier comes with comprehensive warranty and support services to ensure peace of mind.
