

BELLA 35242-016A

BELLA 12 Piece Cookware Set with EverGood™ Ceramic Nonstick Coating - User Manual

1. OVERVIEW

This manual provides essential information for the safe and effective use of your BELLA 12 Piece Cookware Set. This set is designed for versatile cooking, featuring EverGood™ Ceramic Nonstick Coating for optimal performance and easy maintenance.

Key Features:

- **Quick & Even Heating:** Ensures consistent cooking results across all pieces.
- **Oven Safe & Versatile:** Cookware is oven safe up to 325°F (163°C).
- **Cool-Touch Handles:** Designed for safe and comfortable handling.
- **Compatible with All Stovetops:** Suitable for gas, electric, ceramic, and induction surfaces.
- **Effortless Cleanup:** EverGood™ Ceramic Nonstick Coating provides rapid food release and is dishwasher safe (hand washing recommended).
- **Health-Conscious Design:** Made without PFAS, PFOA, PTFE, lead, and cadmium.

An overview of the complete BELLA 12 Piece Cookware Set, showcasing the frying pans, saucepans, Dutch oven, and accompanying nylon tools.

Set Components:

Let's cook

Simmer, saute, fry, braise, boil & more

This image details the specific items included in the 12-piece set, highlighting the sizes of the pans and the variety of nylon utensils.

- 8" Fry Pan
- 10" Fry Pan
- 2QT Covered Saucepan (with tempered glass lid)
- 5QT Covered Dutch Oven (with tempered glass lid)
- 6 Nylon Tools (various types)

2. INITIAL SETUP

Before First Use:

1. Remove all packaging materials, labels, and tags from the cookware.
2. Wash each piece of cookware and all lids thoroughly with warm, soapy water.
3. Rinse well and dry immediately with a soft cloth to prevent water spots.
4. No special seasoning is required for the EverGood™ Ceramic Nonstick Coating.

3. OPERATING INSTRUCTIONS

Stovetop Compatibility:

Your BELLA cookware set is compatible with all stovetop types, including:

- Gas stovetops
- Electric coil stovetops
- Ceramic glass stovetops
- Induction stovetops

Compatible with all stovetops
Gas, ceramic, electric, and induction

The image demonstrates the cookware's compatibility with various heat sources, including induction, gas, ceramic, and electric stovetops.

Oven Use:

The cookware is oven safe up to 325°F (163°C). This allows for versatile cooking, such as starting a dish on the stovetop and finishing it in the oven.

Cooking Practices:

- **Heat Settings:** Use low to medium heat for most cooking tasks. High heat can damage the nonstick coating over time and is rarely necessary due to the efficient heat distribution.
- **Utensils:** Always use nylon, silicone, or wooden utensils to protect the nonstick surface. Avoid metal utensils, which can scratch the coating.
- **Oil/Butter:** While the nonstick coating allows for cooking with minimal oil, a small amount of cooking oil or butter can enhance flavor and browning.
- **Cool-Touch Handles:** The handles are designed to stay cool during stovetop use. However, always use oven mitts or pot holders when handling hot cookware, especially after oven use.

Made to perform
Durable aluminum base heats
quickly and evenly

4. MAINTENANCE AND CARE

Cleaning:

The EverGood™ Ceramic Nonstick Coating ensures rapid food release, making cleanup easy. While the cookware is dishwasher safe, hand washing is recommended to maintain the pristine condition and extend the lifespan of your set.

- **Hand Washing:** Allow cookware to cool completely before washing. Use warm, soapy water and a soft sponge or cloth. Avoid abrasive cleaners, steel wool, or scouring pads, which can damage the nonstick surface.
- **Dishwasher Use:** If using a dishwasher, place cookware securely to prevent scratching from other items. Use a mild detergent.
- **Stubborn Food:** For baked-on food, fill the pan with warm water and a small amount of dish soap, let it soak for 15-20 minutes, then clean with a soft sponge.

Easy cleaning

EverGood™ Ceramic Nonstick Coating for rapid food release and easy wipe down cleaning

This image illustrates the effortless food release provided by the EverGood™ Ceramic Nonstick Coating, making cleanup simpler.

Nonstick Coating Care:

To prolong the life and performance of your EverGood™ Ceramic Nonstick Coating:

- Avoid extreme temperature changes; do not plunge a hot pan into cold water.
- Do not use cooking sprays that contain propellants, as they can leave a residue that is difficult to remove and may affect nonstick performance.
- Store cookware carefully to prevent scratching the nonstick surface. Placing paper towels or soft cloths between stacked pans can help.

12 Piece Cookware Set & Utensils

A visual comparison highlighting the advantages of the EverGood™ Ceramic Nonstick Coating, emphasizing its health-conscious design and ease of maintenance compared to conventional coatings.

5. TROUBLESHOOTING

Common Issues and Solutions:

- **Food Sticking:**

- Ensure you are using low to medium heat. High heat can cause food to stick and damage the coating.
- Clean the pan thoroughly after each use to prevent residue buildup, which can impair nonstick performance.
- Avoid using cooking sprays with propellants.

- **Uneven Heating:**

- Ensure the cookware base is centered on the heat source.
- Verify that the burner size matches the base of the pan as closely as possible.

- **Discoloration:**
 - Minor discoloration can occur over time with regular use, especially with high heat. This typically does not affect performance.
 - For exterior discoloration, a non-abrasive cleaner designed for cookware exteriors may be used.

6. PRODUCT SPECIFICATIONS

Specification	Detail
Brand	BELLA
Model Number	35242-016A
Material	Ceramic (coating), Aluminum (handle, closure)
Color	Oatmilk
Number of Pieces	12
Included Components	8" Fry Pan, 10" Fry Pan, 2QT Covered Saucepan, 5QT Covered Dutch Oven, 6 Nylon Tools
