KU XIU X23 PRO

KU XIU X23 PRO Magnetic Wireless Charging Stand User Manual

Model: X23 PRO

INTRODUCTION

This manual provides instructions for the setup, operation, and maintenance of your KU XIU X23 PRO Magnetic Wireless Charging Stand. Please read this manual thoroughly before use to ensure proper functionality and safety.

PACKAGE CONTENTS

Verify that all items are present in the package:

- X23 Pro 3-in-1 Wireless Charger (1 unit)
- 30W Fast Charging Adapter (1 unit)
- Charging Cable (1 unit)
- User Manual (this document)

SETUP INSTRUCTIONS

1. **Unpack:** Carefully remove all components from the packaging.

2. **Connect Power:** Insert the provided charging cable into the USB-C port on the back of the X23 PRO charging stand. Connect the other end of the cable to the 30W Fast Charging Adapter.
3. **Plug In:** Plug the 30W Fast Charging Adapter into a standard wall outlet. The LED indicator light on the stand will illuminate, indicating it is powered on and ready for use.

Image: Detailed view of the charging stand's features, including the LED indicator light, the silicone charging panel designed to prevent scratches, and the thickened anti-slip base for stability.

OPERATING INSTRUCTIONS

The KU XIU X23 PRO is designed to charge up to three devices simultaneously:

- **Magnetic Charging Pad (Vertical):** For MagSafe-compatible iPhones (iPhone 12 series and newer).
- **Apple Watch Charging Module:** For Apple Watch Series 11–4, SE, and Ultra models.
- **Flat Wireless Charging Pad (Base):** For AirPods (with wireless charging case) or other Qi-compatible smartphones.

Charging Your iPhone

Place your MagSafe-compatible iPhone directly onto the vertical magnetic charging pad. The magnets will align your device automatically. You can charge your iPhone in both portrait and landscape orientations.

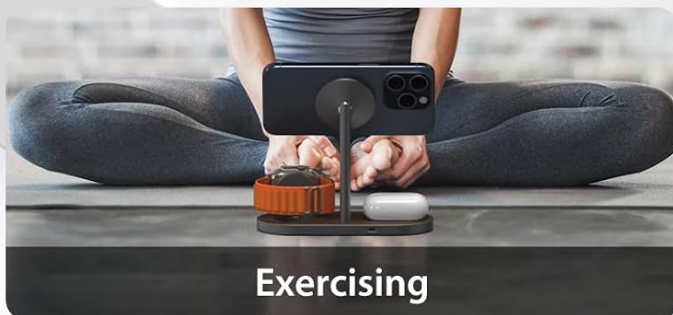

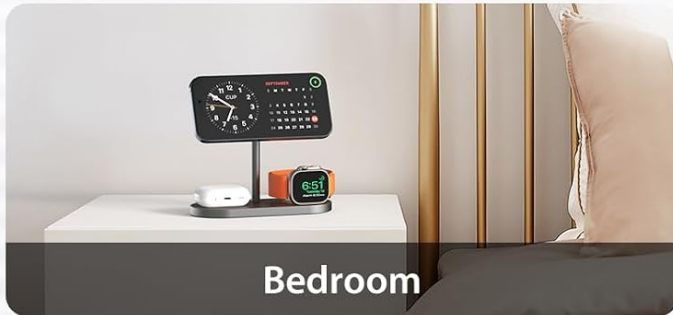

Image: The charging stand in use, demonstrating an iPhone charging in portrait mode while positioned in an office, bedroom, kitchen, and during exercise, highlighting its versatility.

Charging Your Apple Watch

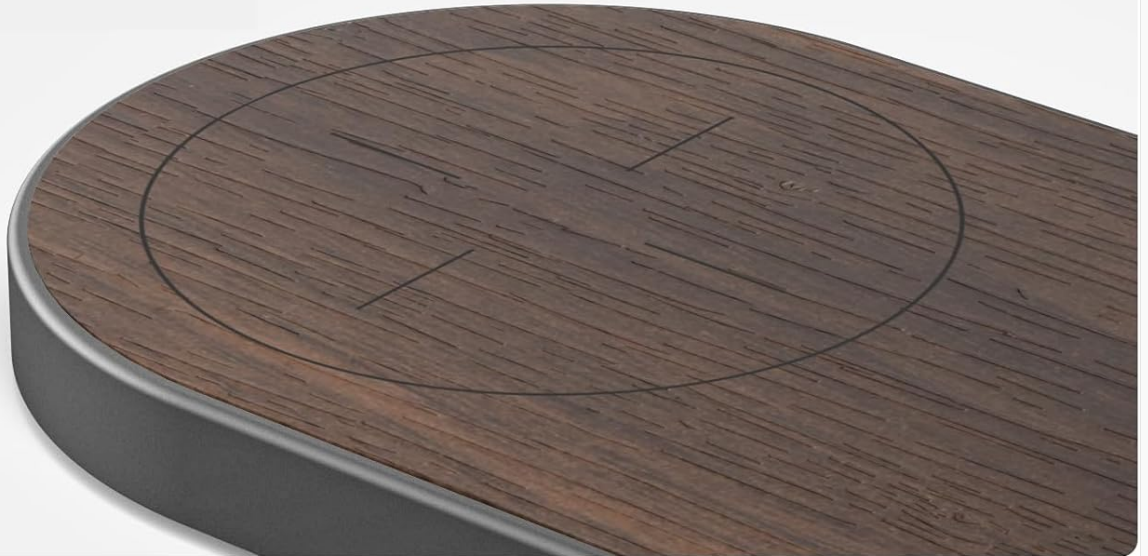

Place your Apple Watch onto the dedicated charging module on the base. Ensure the watch is properly seated for charging to begin.

Charging Your AirPods or Other Qi Device

Place your AirPods (with wireless charging case) or any other Qi-compatible smartphone onto the flat wireless charging pad located on the base of the stand.

For AirPods or Qi Smartphone

For Apple Watch

For MagSafe-compatible iPhone

Adjusting the Phone Holder

The magnetic phone holder can be adjusted to find the optimal viewing angle. It supports both portrait and landscape orientations for hands-free usage, such as video viewing or video calls.

Free Adjustment for Perfect Angle

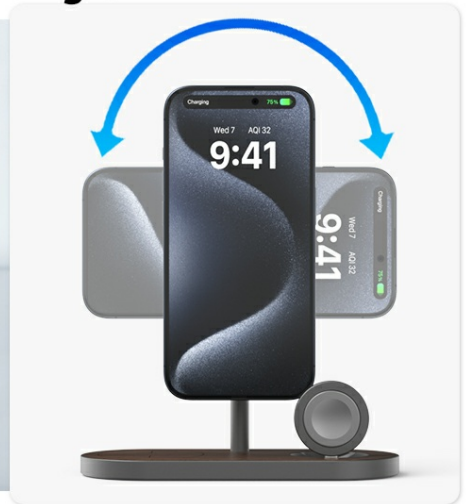

Image: An illustration demonstrating the adjustable angle of the phone holder, allowing for optimal viewing in both portrait and landscape modes.

MAINTENANCE

- **Cleaning:** Disconnect the power adapter before cleaning. Use a soft, dry cloth to wipe the surface of the charging stand. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use for extended periods, store the charging stand in a cool, dry place away from direct sunlight and moisture.
- **Cable Care:** Avoid bending or crimping the charging cable excessively to prevent damage.

TROUBLESHOOTING

Problem	Solution
Device not charging.	◦ Ensure the power adapter is securely plugged into both the wall outlet and the charging stand. ◦ Verify the LED indicator light on the stand is illuminated. ◦ Check if your device is properly aligned on the charging pad. For iPhones, ensure MagSafe compatibility and proper magnetic attachment. ◦ Remove any thick or non-MagSafe compatible phone cases that might interfere with wireless charging. ◦ Ensure your device supports wireless charging (Qi standard).
Slow charging.	◦ Confirm you are using the provided 30W Fast Charging Adapter and cable. ◦ Ensure your device is correctly positioned on the charging pad. ◦ Close unnecessary background applications on your device.
Stand feels warm during charging.	This is normal during wireless charging. The stand is designed with heat dissipation features. If it becomes excessively hot, disconnect power and contact support.

Problem	Solution
Apple Watch not charging.	◦ Ensure the Apple Watch is correctly placed on its charging module. ◦ Check for any debris or foreign objects between the watch and the charging module.

SPECIFICATIONS

Model Number	X23 PRO
Brand	KU XIU
Product Dimensions	6.5 x 2.83 x 5.98 inches
Item Weight	1.1 pounds
Connectivity Technologies	MagSafe, Wireless (Qi)
Input Voltage	5 Volts
Amperage	3 Amps
Total USB Ports	1 (USB Type C for power input)
Special Features	Charging Indicator, Magnetic, MagSafe Compatible, Short Circuit Protection, Wireless Charging, Over-temperature protection, Over-current protection, Over-voltage protection
