MAINTENANCE AND CARE

- **Cleaning:**

Wipe the exterior of the drive with a soft, dry cloth. Do not use liquid cleaners or solvents.

- **Disc Handling:**

Always handle discs by their edges to avoid fingerprints and scratches. Store discs in protective cases when not in use.

- **Storage:**

Store the drive in a cool, dry place away from direct sunlight and extreme temperatures. Ensure the integrated cable is neatly stored in its designated slot on the underside of the drive.

- **Avoid Magnetic Objects:**

Keep the drive away from strong magnetic fields to prevent data corruption or damage.
