## 1. PRODUCT OVERVIEW

The Legrand Seano 765151 is an electronic room thermostat cover designed to provide optimal protection and an aesthetic enhancement to your room's decor. Featuring a modern Seano design, it ensures a pleasant tactile experience.

This cover is part of a versatile design series, with rockers and covers available in various colors. It can be combined with three distinct frame designs: Seano, Seano+, and Seano Natura, allowing for customization to match different interior styles.

Crafted from recycled plastics, the Seano range emphasizes durability and environmental responsibility. All colors, including the 'Ultra White' version, are painted to ensure long-lasting optical quality and tactile feel. The product meets IP21 and IK04 standards for protection.

Image 1.2: Available rocker colors for the Seano series, including Ultra White, Aluminum, Anthracite, and Black.

## 2. SETUP AND INSTALLATION

The Legrand Seano 765151 cover is designed for easy installation onto compatible Legrand Seano electronic room thermostats (e.g., model 765051). Ensure the power supply to the thermostat is disconnected before beginning installation.

- Preparation:** Ensure the underlying thermostat unit is correctly installed and secured in the wall box.
- Alignment:** Carefully align the Seano cover with the thermostat unit. The cover is designed to snap into place.
- Attachment:** Gently press the cover onto the thermostat unit until it clicks securely into position. The integrated plaster compensation spring system (Putzgleichs-Federsystem) facilitates a flush and stable fit, even with minor wall irregularities.
- Verification:** After attachment, ensure the cover is firmly seated and does not wobble.

For detailed installation of the thermostat unit itself, refer to the specific instructions provided with the thermostat.

## 3. OPERATING INSTRUCTIONS

The Legrand Seano 765151 is a protective and aesthetic cover for an electronic room thermostat. It does not have operational functions itself. Its primary purpose is to:

- Protect:** Shield the underlying thermostat mechanism from dust, dirt, and minor impacts.
- Enhance Aesthetics:** Provide a modern and clean finish to the thermostat installation, integrating seamlessly with your interior design.
- Tactile Quality:** Offer a high-quality, smooth surface for interaction with the thermostat's controls (if applicable through the cover).

All operational controls for temperature adjustment and mode selection are located on the electronic room thermostat itself, which this cover is designed to fit. Refer to the thermostat's specific user manual for its operating instructions.

## 4. MAINTENANCE

To ensure the longevity and appearance of your Legrand Seano 765151 thermostat cover, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, damp cloth with mild soap and water to clean the surface. Avoid abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish.
- **Drying:** After cleaning, wipe the cover dry with a clean, soft cloth to prevent water spots.
- **Inspection:** Periodically check the cover for any signs of damage or loose fitting. If the cover becomes loose, gently press it back into place.

## 5. TROUBLESHOOTING

As the Legrand Seano 765151 is a passive cover, troubleshooting is generally limited to installation and aesthetic issues.

- **Cover Does Not Fit Properly:**

- Ensure the cover model (765151) is compatible with your specific Legrand Seano electronic room thermostat unit (e.g., 765051).
- Verify that the underlying thermostat unit is correctly installed and flush with the wall.
- Check for any obstructions or debris preventing the cover from seating correctly.

- **Cover Appears Loose:**

- Gently press the cover firmly onto the thermostat unit until you hear a click, indicating it is securely fastened by the spring system.
- If the issue persists, remove the cover and inspect the spring clips on the thermostat unit for any damage.

- **Scratches or Damage to Finish:**

- Avoid using abrasive cleaning materials.
- If the damage is significant, consider replacing the cover to maintain the aesthetic appeal.

## 6. SPECIFICATIONS

Feature	Detail
Model Number	765151
Brand	Legrand
Material	Recycled Plastic (Thermoplastic, Halogen-free)
Color	Ultra White (blanc éclatant)

Dimensions (L x W x H)	5.62 x 5.62 x 1.5 cm
Weight	14 Grams
Style	Modern
Finish	Glossy
Shape	Rectangular
Protection Rating	IP21, IK04
Components Included	Seano Cover
Country of Origin	Hungary

## 7. WARRANTY AND SUPPORT

Specific warranty information for the Legrand Seano 765151 thermostat cover is typically provided at the point of purchase or can be found on the official Legrand website. Please retain your proof of purchase for any warranty claims.

For technical support, product inquiries, or to access additional resources, please visit the official Legrand website or contact their customer service department. Contact details are usually available on the manufacturer's packaging or website.
