WHAT'S IN THE BOX

Carefully unpack the contents and ensure all items are present:

- STARESSO Discovery II Electric Coffee Grinder
- Soft Cleaning Brush
- Stiff Cleaning Brush
- Type-C Charging Cable

What's in the box?

Discovery 2

Soft brush

Stiff brush

Type-C Charging cable

All components included with the STARESSO Discovery II Electric Coffee Grinder.

SETUP

Initial Charging

Before first use, fully charge the grinder. Connect the provided Type-C charging cable to the grinder and a suitable power source. A full charge takes approximately 90 minutes. The 800mAh battery provides power for multiple grinding cycles.

Assembly and Grind Adjustment

The grinder consists of several parts, including the motor unit, burr assembly, and grounds container. For initial setup, ensure all parts are securely assembled. To adjust the grind setting, locate the adjustment dial, typically found near the burr. Rotate the dial to select your desired grind size. The Discovery II offers 48 precise grind settings.

Ease At Every Step

Effortless electric grinding:
One-click start, automatic pause.

OPERATING INSTRUCTIONS

Selecting Grind Size

The STARESSO Discovery II offers 48 grind settings to accommodate various coffee brewing methods. Refer to the guide below for recommended settings:

- **Espresso:** 8-15 (Fine)
- **STARESSO Brewer:** 13-18 (Medium Fine)
- **Moka Pot:** 19-25 (Medium)
- **Pour Over:** 26-34 (Medium Thick)
- **French Press:** 35-40 (Coarse)

Rotate the adjustment dial to select the desired grind setting. Finer grinds are achieved by rotating towards lower numbers, and coarser grinds towards higher numbers.

Precision Grind Quality

It's All The Range

48-degree Ultra-Precise, setting the standard in portable coffee grinders. This unparalleled precision enables you to effortlessly achieve optimal extraction for various brew methods, from Pour Over, French Press, AeroPress® to Espresso, meeting all your brewing needs.

Recommended grind settings for various brewing methods.

Grinding Process

1. Ensure the grinder is charged and the grind setting is selected.
2. Open the top lid and add up to 20 grams of whole coffee beans into the bean hopper.
3. Close the lid securely.
4. Press the power button to start grinding. The grinder will automatically pause once the grinding cycle is complete.
5. Remove the grounds container to access your freshly ground coffee.

For optimal results, use medium to dark roast coffee beans. Light roast beans are not recommended for this grinder.

MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and extends the lifespan of your grinder. The grinder is designed for easy disassembly for cleaning.

Cleaning Steps

1. Ensure the grinder is powered off and unplugged from any charging source.
2. Disassemble the grounds container and the burr assembly.
3. Use the provided soft brush to clean any residual coffee grounds from the burrs and internal components.
4. Use the stiff brush for more stubborn residue.
5. Wipe the exterior of the grinder with a damp cloth. Do not immerse the main unit in water.
6. Allow all parts to dry completely before reassembling.

Ultra-compact electric coffee grinder

Measuring just 60mm in diameter and 181mm in height, weighing only 677 grams. It's as portable as a 500ml water bottle and comes with a storage bag for easy carrying. Ideal for home, outdoor, travel, and remote work, perfect for coffee enthusiasts everywhere.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Grinder does not start	Low battery; Grinder not assembled correctly	Charge the grinder fully; Ensure all parts are securely connected.
Inconsistent grind size	Burrs are dirty or worn; Grind setting is too coarse/fine for desired method	Clean the burrs thoroughly; Adjust grind setting according to brewing method recommendations.
Grinder stops during operation or makes unusual noise	Overloaded with beans; Foreign object in burrs; Internal mechanism issue	Reduce the amount of beans; Check for and remove any foreign objects; If issues persist, contact customer support.
Grinder mechanism detaches or spins freely	Internal locking mechanism failure	This indicates a potential mechanical failure. Discontinue use and contact STARESSO customer support for assistance.
