Earth&ME Baby Bassinet

Earth&ME Bedside Bassinet User Manual

Model: Baby Bassinet

Brand: Earth&ME

INTRODUCTION

Thank you for choosing the Earth&ME Bedside Bassinet. This manual provides essential information for the safe and proper assembly, operation, and maintenance of your new bassinet. Please read all instructions carefully before use and keep this manual for future reference. This bassinet is designed to provide a safe and comfortable sleeping environment for your newborn, allowing for close proximity for easier feeding and monitoring.

The Earth&ME Bedside Bassinet, featuring its adjustable height and convenient storage basket.

IMPORTANT SAFETY INFORMATION

WARNING: Failure to follow these warnings and instructions could result in serious injury or death.

- Always ensure the bassinet is placed on a firm, flat, and level surface.
- Never leave your child unattended in the bassinet.
- Discontinue use of the bassinet when the infant begins to push up on hands and knees, or has reached 20 lbs (9 kg), or is 5 months old, whichever comes first.
- To prevent suffocation, do not use additional padding, blankets, or pillows in the bassinet. Use only the mattress provided by the manufacturer.
- Ensure all assembly fasteners are securely tightened before use. Periodically check for loose parts, damaged components, or sharp edges.
- Keep the bassinet away from open flames, heaters, and other sources of strong heat.
- Do not use the bassinet if any parts are missing, damaged, or broken. Contact customer service for

replacement parts.

- When using in co-sleeping mode, ensure the bassinet is securely attached to the adult bed with the provided safety straps and there are no gaps between the bassinet and the adult mattress.
- The breathable mesh sides are designed to reduce the risk of suffocation and allow for visibility of your baby. Do not obstruct them.

PACKAGE CONTENTS

Before assembly, please verify that all components listed below are present and undamaged:

- Bassinet Frame (Steel pipe and aviation aluminum alloy)
- Bassinet Fabric Assembly (with breathable mesh sides)
- Cotton Mattress
- Waterproof Mattress Cover

1
Mosquito net /Sunshade

2
Comfortable mattress

3
Storage basket

3
straps for attaching to the crib

What else is included

Included accessories: Mosquito net, comfortable mattress, storage basket, and attachment straps.

SETUP AND ASSEMBLY

Unpacking

Carefully remove all components from the packaging. Retain packaging for future storage or transport. Inspect

all parts for any signs of damage. If any parts are damaged or missing, do not proceed with assembly and contact customer support.

Assembly Steps

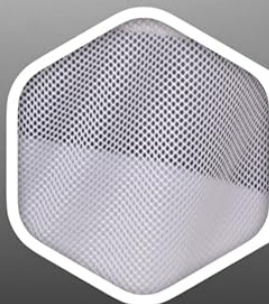

1. Assemble the main frame components according to the visual guides. Ensure all locking mechanisms click into place securely.
2. Attach the fabric bassinet assembly to the frame, ensuring the mesh sides are properly aligned and secured.
3. Insert the cotton mattress into the bassinet.
4. Attach the storage basket to the designated area on the lower frame.
5. If desired, attach the mosquito net to the top of the bassinet.

OPERATING INSTRUCTIONS

Co-Sleeping Mode

The bassinet can be used as a bedside co-sleeper. Adjust the bassinet height to match your bed. Lower one side of the bassinet if needed to allow easy access to your baby. Use the provided safety straps to firmly attach the bassinet to your bed frame, preventing any gaps between the bassinet and your mattress.

The perfect and safe solution for co-sleeping with your baby

4 Sided breathable mesh

The bassinet provides a safe and comfortable co-sleeping solution with breathable mesh sides.

Stationary & Rocking Mode

The bassinet offers both stationary and gentle rocking modes. To switch to rocking mode, adjust the wheels or feet at the base of the bassinet as indicated by the product design. Ensure the rocking mechanism is engaged securely for rocking, or locked for stationary use.

Cradle mode

Easily switch to cradle mode by adjusting the bassinet's wheels.

Adjustable Height

The bassinet features 6 height levels to accommodate various bed heights. To adjust the height, locate the adjustment mechanisms on the side of the frame. Press the release buttons and slide the bassinet up or down to the desired level. Ensure both sides are adjusted to the same height for a level sleeping surface, unless using the reflux tilt function.

6 level height adjustment

From bassinet mattress to the ground
MIN: 17.32" MAX: 22.05"

The bassinet offers 6 levels of height adjustment for optimal compatibility with different bed heights.

Reflux Tilt Function

For babies experiencing reflux, the bassinet can be gently tilted. This is achieved by setting one side of the bassinet to a slightly higher height level than the other. This creates a gentle incline that can help alleviate reflux discomfort. Always ensure the incline is minimal and safe for your baby.

Incline function to prevent baby reflux. Just lift one corner of the crib

The incline function helps prevent baby reflux by gently lifting one corner of the crib.

Mosquito Net Usage

The included mosquito net provides protection from insects. To attach, drape the net over the bassinet and secure it around the edges, ensuring there are no gaps for insects to enter. This is particularly useful for outdoor use or in areas with mosquitoes.

Storage Basket

The large storage basket located beneath the bassinet provides convenient space for storing baby essentials

such as diapers, wipes, and blankets. Ensure items are placed securely and do not exceed the basket's weight limit.

MAINTENANCE AND CARE

Cleaning

The fabric components of the bassinet are designed for easy cleaning. For best results, hand wash only. Do not use harsh detergents or abrasive cleaners. Allow all parts to air dry completely before reassembly or storage.

Storage

When not in use, the bassinet can be folded for compact storage. Refer to the assembly instructions for folding steps. Store the bassinet in its travel bag in a clean, dry place away from direct sunlight and extreme temperatures.

The bassinet folds compactly and fits into a travel bag for easy transport and storage.

TROUBLESHOOTING

- **Wheels Locking Up:** If the wheels are not rolling smoothly, check for any debris or lint caught in the wheel mechanisms. Ensure the wheel locks are fully disengaged. If the issue persists, clean the wheel axles.
- **Bassinet Not Level:** Ensure both height adjustment mechanisms are set to the same number, unless intentionally using the reflux tilt function. Check that the bassinet is placed on a flat, even surface.
- **Difficulty Folding/Unfolding:** Ensure all locking pins are disengaged before attempting to fold or unfold. Do not force the mechanism. Refer to the assembly instructions for proper folding sequence.

SPECIFICATIONS

Feature	Detail
